

# CITATION REPORT

List of articles citing

Controlled multicenter study of the antihypertensive effects of lisinopril, hydrochlorothiazide, and lisinopril plus hydrochlorothiazide in the treatment of 394 patients with mild to moderate essential hypertension

DOI: 10.1097/00005344-198700003-00010

Journal of Cardiovascular Pharmacology, 1987, 9 Suppl 3, S36-42.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
