

CITATION REPORT

List of articles citing

Evidence for an antagonism between caffeine and adenosine in the human cardiovascular system

DOI: 10.1097/00005344-198708000-00002

Journal of Cardiovascular Pharmacology, 1987, 10, 136-43.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
115	Respiratory stimulant effects of adenosine in man after caffeine and enprofylline. 1987 , 24, 816-9		15
114	The effects of caffeine on the postprandial fall of blood pressure in the elderly. 1988 , 17, 236-40		23
113	Calcium Entry Blockers in the Treatment of Hypertension. 1989 , 262, 817		43
112	Caffeine may potentiate adrenocortical stress responses in hypertension-prone men. <i>Hypertension</i> , 1989 , 14, 170-6	8.5	44
111	Effect of decaffeinated versus regular coffee on blood pressure. A 12-week, double-blind trial. <i>Hypertension</i> , 1989 , 14, 563-9	8.5	53
110	Nicotine enhances the circulatory effects of adenosine in human beings. 1989 , 46, 272-8		7
109	Cardiovascular effects of two xanthines and the relation to adenosine antagonism. 1989 , 45, 593-9		27
108	Caffeine and theophylline attenuate adenosine-induced vasodilation in humans. 1990 , 48, 410-8		115
107	Effects of caffeine on blood pressure response during exercise in normotensive healthy young men. 1990 , 65, 909-13		68
106	Combination of Converting Enzyme Inhibitor With Diuretic for the Treatment of Hypertension. 1990 , 150, 1175		46
105	Effects of caffeine on pressor regulation during rest and exercise in men at risk for hypertension. 1991 , 122, 1107-15		27
104	Hormonal mechanisms of postprandial hypotension. 1991 , 39, 1201-7		31
103	Hypertension risk and caffeine's effect on cardiovascular activity during mental stress in young men.. 1991 , 10, 236-243		32
102	Dose-dependent inhibition of the hemodynamic response to dipyridamole by caffeine. 1991 , 50, 529-37		24
101	Biochemical mechanism of caffeine tolerance. 1991 , 324, 261-7		28
100	Direct vasoconstriction evoked by A1-adenosine receptor stimulation in the cutaneous microcirculation. 1991 , 68, 683-8		12
99	Effects of adenosine on human coronary arterial circulation. 1991 , 84, 2208-10		2

98	Adenosine attenuates the response to sympathetic stimuli in humans. <i>Hypertension</i> , 1991 , 18, 216-23	8.5	24
97	Effects of intravenous adenosine on antegrade refractoriness of accessory atrioventricular connections. 1991 , 84, 1962-8		57
96	Contrasting excitatory and inhibitory effects of adenosine in blood pressure regulation. <i>Hypertension</i> , 1992 , 20, 457-65	8.5	55
95	Duration of caffeine abstinence influences the acute blood pressure responses to caffeine in elderly normotensives. 1993 , 44, 549-53		8
94	Efficacy and tolerability of nicardipine slow release and enalapril in elderly hypertensive patients: Results of a multicenter study. 1993 , 54, 221-231		
93	Transcranial Doppler assessment of the cerebral circulation during postprandial hypotension in the elderly. 1993 , 41, 19-24		20
92	Serum caffeine levels after 24 hours of caffeine abstinence: observations on clinical patients undergoing myocardial perfusion imaging with dipyridamole or adenosine. 1994 , 21, 23-6		18
91	Caffeine and exercise: metabolism and performance. 1994 , 19, 111-38		69
90	Effect of adenosine antagonism on metabolically mediated coronary vasodilation in humans. 1994 , 23, 1421-6		14
89	Characterization of ATP-induced vasodilation in the human forearm vascular bed. 1994 , 90, 1891-8		55
88	Xanthine interference with dipyridamole-thallium-201 myocardial imaging. 1995 , 29, 425-7		3
87	Adenosine combined with dynamic exercise for myocardial perfusion imaging. 1995 , 25, 1300-9		98
86	The effects of caffeine on blood pressure and heart rate: A review. 1996 , 18, 201-16		35
85	Treatment of postprandial hypotension in the elderly. 1996 , 22 Suppl 1, 125-30		1
84	Preserved vasodilator response to adenosine in insulin-dependent diabetes mellitus. <i>European Journal of Clinical Investigation</i> , 1996 , 26, 192-8	4.6	9
83	Hemodynamic basis of mitral E transmission in the left ventricular cavity and its relation to the left ventricular relaxation process. 1998 , 81, 1385-8		3
82	Caffeine abstinence augments the systolic blood pressure response to adenosine in humans. 1998 , 81, 1382-5		22
81	A comparison of adenosine and arbutamine for myocardial perfusion imaging. 1998 , 25, 394-400		7
