CITATION REPORT List of articles citing

Influence of local converting enzyme inhibition on angiotensin and bradykinin effects in ischemic rat hearts

DOI: 10.1097/00005344-198706107-00012 Journal of Cardiovascular Pharmacology, 1987, 10 Suppl 7, S75-82.

Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
