

Centrifugal organization of direction preferences in the cortex and its relation to flow field processing

Journal of Neuroscience

7, 943-958

DOI: [10.1523/jneurosci.07-04-00943.1987](https://doi.org/10.1523/jneurosci.07-04-00943.1987)
