Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 9 Foreword. **2008**, ix-xvi ○
- 8 Copyright Page. **2008**, iv-iv ○
- 7 Practical Limits to Transfer Learning of Neural Network Controllers from Earth to Space Environments. **2022**, 3-16 ○
- 6 Divisively normalized neuronal processing of uncertain visual feedback for visuomotor learning. ○
- 5 Basic study of sensorless path tracking control based on the musculoskeletal potential method. **2023**, 10, ○
- 4 Effects of Collaborative Training Using Virtual Co-embodiment on Motor Skill Learning. **2023**, 29, 2304-2314 ○
- 3 Negative reward-prediction errors of climbing fiber inputs for cerebellar reinforcement learning algorithm. ○
- 2 $F = ma$. Is the macaque brain Newtonian?. 1-33 ○
- 1 Role of cerebellum in sleep-dependent memory processes. 17, ○
