Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
940	Representation and combination of uncertainty with belief functions and possibility measures. **1988**, 4, 244-264		434
939	On the robustness of Dempster's rule of combination.		1
938	. **1990**, 20, 45-57		36
937	. **1990**, 20, 248-252		4
936	A Discussion of Uncertainty Handling in Support Logic Programming. **1990**, 5, 15-42		16
935	FUZZY MEASURES AND FUZZY INTEGRALS: AN OVERVIEW. **1990**, 17, 157-189		19
934	.		3
933	. **1991**, 3, 399-414		17
932	. **1991**, 40, 182-188		108
931	An interval dempster-shafer approach. **1992**, 24, 89-95		30
930	Partial inconsistency of probability envelopes. **1992**, 52, 201-216		8
929	Dempster-shafer approach in propositional logic. **1993**, 8, 341-349		5
928	Study of interval belief combination. **1993**, 7, 1-13		
927	.		
926	.		2
925	.		
924	.		0

923	A Design Method for Incorporating Human Judgement into Monitoring Systems. **1995**, 28, 635-640	1
922	. **1995**, 25, 1221-1230	77
921	Evidence theory in multivalued logic systems. **1995**, 10, 185-199	4
920	Relaxation optimizing processes in extended probabilistic space.	3
919	Computer-aided design/engineering of bearing systems using the Dempster-Shafer theory. **1995**, 9, 1-11	10
918	On the aggregation of prioritized belief structures. **1996**, 26, 708-717	25
917	Position and attribute fusion of radar, ESM, IFF and Datalink for AAW missions of the Canadian Patrol Frigate.	3
916	.	0
915	On the normalization of fuzzy belief structures. **1996**, 14, 127-153	42
914	Robust relaxation method for structural matching under uncertainty. **1996**,	1
913	A new theory of evidence for non-exclusive elementary propositions. **1996**, 27, 989-994	0
912	Context-dependent trust in data fusion within the possibility theory.	9
911	Pattern classification method by integrating interval feature values.	
910	Syntactic combination of uncertain information: A possibilistic approach. **1997**, 30-42	4
909	Reliability Coefficients Optimization for a New Fusion Rules Family. **1997**, 30, 345-350	
908	Decision rule for pattern classification by integrating interval feature values. **1998**, 20, 440-448	22
907	Modeling of reliability with possibility theory. **1998**, 28, 78-88	28
906	A MODIFIED DEMPSTER-SHAFER THEORY FOR MULTICRITERIA OPTIMIZATION. **1998**, 30, 177-201	11

905	Mental models in micro worlds: situated representations for the navigationally challenged.	
904	Theory of Evidence. **1998**, 10, 445-450	
903	A design condition for incorporating human judgement into monitoring systems. **1999**, 65, 251-258	16
902	Value Engineering. **1999**,	
901	The DempsterShafer theory of evidence: an alternative approach to multicriteria decision modelling. **2000**, 28, 37-50	253
900	A generic framework for resolving the conflict in the combination of belief structures. **2000**,	9
899	On the Dempster-Shafer evidence theory and non-hierarchical aggregation of belief structures. **2000**, 30, 526-536	11
898	Ambiguity as a Buffer in Change of Trust in Automation. **2001**, 34, 241-246	1
897	DempsterShafer belief structures with interval valued focal weights. **2001**, 16, 497-512	56
896	Comparison of the performances of decision aimed algorithms with Bayesian and beliefs basis. **2001**, 16, 963-981	5
895	Fault diagnosis of airplane hydraulic pump.	1
894	A METHOD OF MANAGING COMPLEX FUZZY INFORMATION. **2002**, 33, 17-42	
893	Uncertainty Quantification of Structural Response Using Evidence Theory. **2002**,	8
892	Sensitivity Analysis of Structural Response Uncertainty Propagation Using Evidence Theory. **2002**,	2
891	On the evidential reasoning algorithm for multiple attribute decision analysis under uncertainty. **2002**, 32, 289-304	550
890	Belief function combination and conflict management. **2002**, 3, 149-162	295
889	The consensus operator for combining beliefs. **2002**, 141, 157-170	102
888	A framework for target identification via multi-sensor data fusion. **2003**,	

887 Uncertainty Quantification of Structural Response Using Evidence Theory. **2003**, 41, 2062-2068 51

886 A clustering application method based on mix type variables in social system appraisement.

885 Combining evidence and its application in synthesis decision.

884 Strategies for combining conflicting dogmatic beliefs. **2003**, 36

883 A novel justification of the disjunctive combination rule. **2003**,

882 Structural Design Optimization Based on Reliability Analysis Using Evidence Theory. **2003**, 7

881 Evidential segmentation scheme of multi-echo MR images for the detection of brain tumors using neighborhood information. **2004**, 5, 203-216 52

880 Aggregation of evidence from random and fuzzy sets. **2004**, 84, 700-709 7

879 Random sets of probability measures in slope hydrology and stability analysis. **2004**, 84, 710-720 17

878 Generation, combination and extension of random set approximations to coherent lower and upper probabilities. **2004**, 85, 89-101 51

877 On-line diagnosis and uncertainty management using evidence theory□Experimental illustration to anaerobic digestion processes. **2004**, 14, 747-763 26

876 Uncertainty analysis in a slope hydrology and stability model using probabilistic and imprecise information. **2004**, 31, 529-536 34

875 A new fusion strategy of defect level assessment system. **2005**, 38, 188-193 2

874 A dempster-shafer theoretic framework for boosting based ensemble design. **2005**, 8, 287-302 9

873 Fault diagnosis model for power transformers based on information fusion. **2005**, 16, 1517-1524 5

872 A new combination rule of evidence theory based on consensus. **2005**,

871 Pairwise classifier combination in the transferable belief model. **2005**, 3

870 Information fusion based on new proportional conflict redistribution rules. **2005**, 45

869	Shedding new light on Zadeh's criticism of Dempster's rule of combination. **2005**,		33
868	Interpreting drinking water quality in the distribution system using Dempster-Shafer theory of evidence. **2005**, 59, 177-88		24
867	Security Operation Center Design Based on D-S Evidence Theory. **2006**,		3
866	. **2006**,		
865	Blotch Detection for Digital Archives Restoration based on the Fusion of Spatial and Temporal Detectors. **2006**,		10
864	Personal Identification and Verification by Hand Recognition.		4
863	Fault Diagnosis Using Multi-Source Information Fusion. **2006**,		0
862	Comparison of several fusion paradigms applied to pixel-based image classification. **2006**,		0
861	Selection of sources as a prerequesite for information fusion with application to SLAM. **2006**,		1
860	The cautious rule of combination for belief functions and some extensions. **2006**,		31
859	A modified evidential reasoning rule in data fusion system.		
858	Multiple-attribute decision making under uncertainty: the evidential reasoning approach revisited. **2006**, 36, 804-822		60
857	Estimating risk of contaminant intrusion in water distribution networks using Dempster□Shafer theory of evidence. **2006**, 23, 129-141		34
856	Combination Method for Dempster-Shafer Evidence Based on Priority Factors. **2006**,		
855	Research in Evaluation Criteria of Evidence Combination. **2006**,		
854	Interpreting and extracting fuzzy decision rules from fuzzy information systems and their inference. *Information Sciences*, **2006**, 176, 1869-1897	7.7	14
853	Analyzing the degree of conflict among belief functions. **2006**, 170, 909-924		272
852	Fault diagnosis of machines based on D□ evidence theory. Part 1: D□ evidence theory and its improvement. **2006**, 27, 366-376		120

851	An argumentation-based method for managing complex issues in design of infrastructural systems. **2006**, 91, 1535-1545	20
850	Investigating evidential reasoning for the interpretation of microbial water quality in a distribution network. **2006**, 21, 63-73	26
849	Sensitivity analysis of structural response uncertainty propagation using evidence theory. **2006**, 31, 270-279	49
848	A Combination Rule of Evidence Theory Based on Reallocation of the Basic Probability Assigned to Conflict. **2006**,	1
847	How to Improve Dempster's Combination Rule from Point of View of Random Set Framework. **2006** ,	0
846	Combination of Conflict Evidences Using Grey Association Analysis and D-S Rule. **2006**,	
845	Design and Implementation of a Cross-Media Indexing System for the Reveal-This System. **2006**,	1
844	A Fast Document Classification Algorithm Based on Improved KNN.	1
843	Policy recognition for multi-player tactical scenarios. **2007**,	1
842	An Evidence Combination Rule Based on the Support Degree of Focal Element. **2007**,	1
841	Toward a combination rule to deal with partial conflict and specificity in belief functions theory. **2007**,	17
840	Online real-time path planning for mobile robots based on wireless sensor network under unknown environment. **2007**,	
839	A Layered Dempster-Shafer Approach to Scenario Construction and Analysis. **2007**,	5
838	Advances in Diagnosis of Biological Anaerobic Wastewater Treatment Plants. **2007**, 201-239	1
837	The DSm Approach as a Special Case of the Dempster-Shafer Theory. **2007**, 381-392	1
836	Ensembling evidential k-nearest neighbor classifiers through multi-modal perturbation. **2007**, 7, 1072-1083	30
835	Engine fault diagnosis based on multi-sensor information fusion using Dempster–Shafer evidence theory. **2007**, 8, 379-386	286
834	Analyzing the combination of conflicting belief functions. **2007**, 8, 387-412	262

833	Fusion of complementary detectors for improving blotch detection in digitized films. **2007**, 28, 1735-1746	10
832	A novel conflict reassignment method based on grey relational analysis (GRA). **2007**, 28, 2080-2087	23
831	A Systems-Based Approach for Supporting Discourse in Decision Making. **2007**, 22, 511-526	7
830	A new combination of evidence based on compromise. **2008**, 159, 1689-1708	41
829	Utility Analysis of Belief in Evidence Theory. **2008**, 28, 103-110	4
828	Improvement of an association algorithm for obstacle tracking. **2008**, 9, 234-245	6
827	Conjunctive and disjunctive combination of belief functions induced by nondistinct bodies of evidence. **2008**, 172, 234-264	261
826	A cyber-crime investigation framework. **2008**, 30, 223-228	16
825	Improved information fusion approach based on D-S evidence theory. **2008**, 22, 2417-2425	21
824	Application of Radial Function Neural Network in Network Security. **2008**,	1
823	An improved combination rule in fault diagnosis based on dempster shafer theory. **2008**,	4
822	Research on conflicting evidences combination strategy. **2008**,	2
821	COMBINATION METHODS AND CONFLICT HANDLING IN EVIDENTIAL THEORIES. **2008**, 16, 337-369	6
820	Condition Assessment of Buried Pipes Using Hierarchical Evidential Reasoning Model. **2008**, 22, 114-122	17
819	Modelling uncertainty in fault tree analyses using evidence theory. **2008**, 222, 291-302	6
818	Role of the Context in Intuitive Combination of Evidence. **2008**,	
817	Experts Fusion and Multilayer Perceptron Based on Belief Learning for Sonar Image Classification. **2008**,	1
816	Requirements of Conditioning Rules and a New Conditioning in Evidence Theory. **2009**, 21, 538-548	

815	. **2009**,	
814	An improved method of D-S evidence reasoning. **2009**,	
813	A new evidence model and its application for discriminating enemy operation intention. **2009**,	
812	Combining the Conflicting Belief Functions. **2009**,	2
811	Fault diagnosis of rotating machinery based on evidence theory of evidence entropy. **2009**,	1
810	Multi-fingerprint Information Fusion for Personal Identification Based on Improved Dempster-Shafer Evidence Theory. **2009**,	8
809	Data Fusion Based on Interval Dempster-Shafer Theory for Emitter Platform Identification. **2009**,	1
808	. **2009**,	
807	. **2009**,	1
806	Spatio-temporal fusion for reliable moving vehicle classification in wireless sensor networks. **2009**,	0
805	A Modified Dempster-Shafer Combination Rule Based on Evidence Ullage. **2009**,	
804	Extended Dempster-Shafer Theory in Context Reasoning for Ubiquitous Computing Environments. **2009**,	11
803	An Improved Evidence Theory Based on Random Set. **2009**,	
802	On the fusion of non-independent belief structures. **2009**, 38, 505-531	23
801	Two Efficient Combination Rules for Conflicting Belief Functions. **2009**,	2
800	Constructing confidence belief functions from one expert. **2009**, 36, 8537-8548	11
799	Robust combination rules for evidence theory. **2009**, 10, 183-197	97
798	Analyzing the Degree of Consistency among Evidence from Different Sources. **2009**, 29, 166-174	2

613	Analyzing medical contexts in ubiquitous computing home environments with denotational mathematics. **2014**,	3
612	Hybrid methodology utilizing Weibull function and Yager's Combination Rule for power transformer health ranking. **2014**,	
611	Object perception for intelligent vehicle applications: A multi-sensor fusion approach. **2014**,	15
610	Adaptive real-time threat assessment under uncertainty and conflict. **2014**,	3
609	. **2014**,	1
608	A non-parametric method to determine basic probability assignment for classification problems. **2014**, 41, 681-693	29
607	A new multi-objectives approach to implement preventive and protective barriers in bow tie diagram. **2014**, 32, 238-253	13
606	On the Validity of Dempster's Fusion Rule and its Interpretation as a Generalization of Bayesian Fusion Rule. **2014**, 29, 223-252	44
605	Bioprocess diagnosis based on the empirical use of distance measures in the theory of belief functions. **2014**, 28, 165-173	3
604	A model of articular cruciate ligament reconstructive surgery: a validation construct and computational insights. **2014**, 47, 1609-17	10
603	Sequential object detection using belief function theory. **2014**,	
602	A choice model with imprecise ordinal evaluations. **2014**, 55, 689-710	6
601	A cloud and evidential reasoning integrated model for insulation condition assessment of high voltage transformers. **2014**, 24, 913-926	7
600	Combination approach for conflicting evidence based on discount coefficient. **2015**,	

599 An evidence fusion method using generalized Mahalanobis distance in Dempster-Shafer Theory. **2015**,

598 Sensor data fusion based on an improved dempaster-shafer evidence theory in vehicular cyber-physical systems. **2015**, 2

597 Combination of Evidence with Different Weighting Factors: A Novel Probabilistic-Based Dissimilarity Measure Approach. **2015**, 2015, 1-9 30

596 A Diagnosis Method for Rotation Machinery Faults Based on Dimensionless Indexes Combined withK-Nearest Neighbor Algorithm. **2015**, 2015, 1-9 10

595 A situation assessment method for rock burst based on multi-agent information fusion. **2015**, 45, 22-32 5

594 Evidential framework for data fusion in a multi-sensor surveillance system. **2015**, 43, 166-180 12

593 . **2015**, 26, 1430-1440 3

592 Advanced Computing with Words: Status and Challenges. **2015**, 217-245 5

591 A group decision making model for partially ordered preference under uncertainty. **2015**, 25, 32-41 17

590 Developing Fuzzy State Models as Markov Chain Models with Fuzzy Encoding. **2015**, 79-106 3

589 Combination of Sugeno fuzzy system and evidence theory for NAO robot in colors recognition. **2015**, 2

588 Interaction between humans, NAO robot and multiple cameras for colored objects recognition using information fusion. **2015**, 3

587 Evidential multi-band common spatial pattern in brain computer interface. **2015**,

586 Finding the Right Social Media Site for Questions. **2015**, 3

585 The grading method for classified protection of information system based on analytic hierarchy process and Dempster/Shafer theory. **2015**,

584 Social Answer: A System for Finding Appropriate Sites for Questions in Social Media. **2015**,

583 An evidential reasoning based multiple attribute decision making approach under fixed attributes. **2015**, 1

582 Reasoning under Uncertainty for Knowledge-Based Fault Diagnosis: A Comparative Study. **2015**, 48, 422-427 5

581	Epistemic uncertainty quantification in flutter analysis using evidence theory. **2015**, 28, 164-171		15
580	An evidential classifier based on feature selection and two-step classification strategy. **2015**, 48, 2318-2327		45
579	Dempster–Shafer belief structures for decision making under uncertainty. **2015**, 80, 58-66		40
578	Quantification Classification Algorithm of Multiple Sources of Evidence. **2015**, 14, 1017-1034		6
577	A belief function theory based approach to combining different representation of uncertainty in prognostics. *Information Sciences*, **2015**, 303, 134-149	7.7	20
576	Map-Aided Evidential Grids for Driving Scene Understanding. **2015**, 7, 30-41		18
575	An information fusion approach by combining multigranulation rough sets and evidence theory. *Information Sciences*, **2015**, 314, 184-199	7.7	92
574	Dynamic estimation of the discernment frame in belief function theory: Application to object detection. *Information Sciences*, **2015**, 306, 132-149	7.7	8
573	Combining partially independent belief functions. **2015**, 73, 37-46		15
572	Generalized evidence theory. **2015**, 43, 530-543		180
571	Evidence theoretic classification of ballistic missiles. **2015**, 37, 479-489		5
570	Imprecision indices: axiomatic, properties and applications. **2015**, 44, 812-832		9
569	Outcome prediction in tumour therapy based on Dempster-Shafer theory. **2015**,		5
568	A novel rule base representation and its inference method using the evidential reasoning approach. **2015**, 87, 80-91		14
567	The information systems' security level assessment model based on an ontology and evidential reasoning approach. **2015**, 55, 100-112		23
566	Reliable sources and uncertain decisions in multisensor systems. **2015**,		1
565	A data-driven approximate causal inference model using the evidential reasoning rule. **2015**, 88, 264-272		36
564	The choice of generalized Dempster–Shafer rules for aggregating belief functions. **2015**, 56, 122-136		20

563	Analytic hierarchy process for multi-sensor data fusion based on belief function theory. **2015**, 241, 133-147	42
562	A Modified Combination Rule for D Numbers Theory. **2016**, 2016, 1-10	5
561	A Method to Determine Generalized Basic Probability Assignment in the Open World. **2016**, 2016, 1-11	38
560	Decision-Making Algorithm for Multisensor Fusion Based on Grey Relation and DS Evidence Theory. **2016**, 2016, 1-11	34
559	Modeling Sensor Reliability in Fault Diagnosis Based on Evidence Theory. **2016**, 16,	64
558	Information Fusion of Conflicting Input Data. **2016**, 16,	19
557	Evaluating evidence reliability based on intuitionistic fuzzy MCDM model. **2016**, 31, 1167-1182	3
556	Beyond grasping - perceiving affordances across various stages of cognitive development. **2016**,	1
555	An improved ViBe for video moving object detection based on evidential reasoning. **2016**,	3
554	Weighted Evidence Combination Based on Distance of Evidence and Entropy Function. **2016**, 12, 3218784	39
553	Structure and evidence in identity cases. **2016**,	3
552	Handling query answering in crowdsourcing systems: A belief function-based approach. **2016**,	3
551	Towards intra-vehicular sensor data fusion. **2016**,	10
550	Conflicting evidence combination based on uncertainty measure and distance of evidence. **2016**, 5, 1217	22
549	On Information Fusion in Recommender Systems Based on Dempster-Shafer Theory. **2016**,	2
548	An evidential sensor fusion method in fault diagnosis. **2016**, 8, 168781401664182	79
547	A novel method to use fuzzy soft sets in decision making based on ambiguity measure and Dempster-Shafer theory of evidence: An application in medical diagnosis. **2016**, 69, 1-11	72
546	Selecting radiomic features from FDG-PET images for cancer treatment outcome prediction. **2016**, 32, 257-68	48

545	The basic principles of uncertain information fusion. An organised review of merging rules in different representation frameworks. **2016**, 32, 12-39	80
544	A modified method for risk evaluation in failure modes and effects analysis of aircraft turbine rotor blades. **2016**, 8, 168781401664457	52
543	Evidential estimation of event locations in microblogs using the Dempster-Shafer theory. **2016**, 52, 1227-1246	18
542	Meausre divergence degree of basic probability assignment based on Deng relative entropy. **2016**,	3
541	An Improved Evidence Combination Method of D-S Theory. **2016**,	0
540	A New Probability Transformation Based on the Ordered Visibility Graph. **2016**, 31, 44-67	11
539	Evidence theory-based identification of aging for capacitive voltage transformers. **2016**, 10, 3646-3653	5
538	An improved evidence classification synthesis method combined information entropy. **2016**,	
537	. **2016**,	0
536	Combination of Conflict Evidence Based on Bayesian Approximation. **2016**,	
535	Conjunctive Rules in the Theory of Belief Functions and Their Justification Through Decisions Models. **2016**, 137-145	2
534	. **2016**, 1-14	15
533	Conflict management based on belief function entropy in sensor fusion. **2016**, 5, 638	40
532	Improved measure of evidence conflict based on pignistic probability distance. **2016**,	1
531	Belief Functions. 114-125	
530	A Clustering-Based Evidence Reasoning Method. **2016**, 31, 698-721	4
529	A new combination method for multisensor conflict information. **2016**, 72, 2874-2890	43
528	Weighted evidence combination based on improved conflict factor. **2016**, 19, 173-184	1

527	A GIS-BASED MULTI-CRITERIA EVALUATION FRAMEWORK FOR UNCERTAINTY REDUCTION IN EARTHQUAKE DISASTER MANAGEMENT USING GRANULAR COMPUTING. **2016**, 42, 58-68		11
526	A novel combination method for conflicting evidence based on inconsistent measurements. *Information Sciences*, **2016**, 367-368, 125-142	7.7	36
525	Partner selection in green supply chains using PSO a practical approach. **2016**, 27, 1041-1061		20
524	A practical taxonomy of methods and literature for managing uncertain spatial data in geographic information systems. **2016**, 81, 123-162		9
523	An improved method to construct basic probability assignment based on the confusion matrix for classification problem. *Information Sciences*, **2016**, 340-341, 250-261	7.7	174
522	Towards an automatic early stress recognition system for office environments based on multimodal measurements: A review. **2016**, 59, 49-75		214
521	An Information Fusion Fault Diagnosis Method Based on Dimensionless Indicators With Static Discounting Factor and KNN. **2016**, 16, 2060-2069		51
520	Evaluating Belief Structure Satisfaction to Uncertain Target Values. **2016**, 46, 869-77		15
519	Combination of unreliable evidence sources in intuitionistic fuzzy MCDM framework. **2016**, 97, 24-39		35
518	An evidential fusion approach for gender profiling. *Information Sciences*, **2016**, 333, 10-20	7.7	58
517	A new method to rank fuzzy numbers using DempsterShafer theory with fuzzy targets. *Information Sciences*, **2016**, 346-347, 302-317	7.7	17
516	Dissimilarity Metric Learning in the Belief Function Framework. **2016**, 24, 1555-1564		25
515	A multi-stage approach for damage detection in structural systems based on flexibility. **2016**, 76-77, 455-475		19
514	Evidence Combination From an Evolutionary Game Theory Perspective. **2016**, 46, 2070-82		114
513	Alliance-based evidential reasoning approach with unknown evidence weights. **2017**, 78, 193-207		18
512	Bayesian and DempsterShafer reasoning for knowledge-based fault diagnosisA comparative study. **2017**, 60, 136-150		29
511	Determination of evidence correction factors based on the neural network. **2017**, 34, e12192		1
510	Design and Development of CTSR with Direct & Indirect Observations of MANET Applications. **2017**, 22, 712-718		3

509	Prediction of industrial equipment Remaining Useful Life by fuzzy similarity and belief function theory. **2017**, 83, 226-241		16
508	Incremental Method for Learning Parameters in Evidential Networks. **2017**, 163-170		1
507	Application of extended Dempster–Shafer theory of evidence in accident probability estimation for dangerous goods transportation. **2017**, 19, 249-271		9
506	Quantifying leakage in the presence of unreliable sources of information. **2017**, 88, 27-52		2
505	A new conflict management method in Dempster–Shafer theory. **2017**, 13, 155014771769650		7
504	Adaptive and robust evidence theory with applications in prediction of floor water inrush in coal mine. **2017**, 39, 483-493		4
503	Evidential Fusion Based Technique for Detecting Landslide Barrier Lakes From Cloud-Covered Remote Sensing Images. **2017**, 10, 1742-1757		3
502	Failure mode and effects analysis based on a novel fuzzy evidential method. **2017**, 57, 672-683		131
501	An evidential data fusion method for affective music video retrieval. **2017**, 21, 427-441		16
500	A novel method for combining conflicting evidences based on information entropy. **2017**, 46, 876-888		13
499	A multi-source information fusion fault diagnosis for aviation hydraulic pump based on the new evidence similarity distance. **2017**, 71, 392-401		44
498	A GIS-based decision making model using fuzzy sets and theory of evidence for seismic vulnerability assessment under uncertainty (case study: Tabriz). **2017**, 33, 1969-1981		7
497	A novel combination methodology for Dempster-Shafer theory. **2017**,		2
496	Information sciences 1968–2016: A retrospective analysis with text mining and bibliometric. *Information Sciences*, **2017**, 418-419, 619-634	7.7	103
495	Exploring the combination rules of D numbers from a perspective of conflict redistribution. **2017**,		5
494	An improved Dempster–Shafer approach to construction safety risk perception. **2017**, 132, 30-46		66
493	Adaptive Video Streaming in Hybrid Landslide Detection System with D-S Theory. **2017**,		
492	A Novel Combination Method for Conflicting Evidence in Open Frame of Discernment. **2017**,

63	Systemic Approach to Reliability and Safety Management Incorporating Uncertainty. **2022**, 241-259	
62	An Advanced Weighted Evidence Combination Method for Multisensor Data Fusion in IoT. **2022**,	1
61	A Novel Conflicting Evidence Combination Method for Fault Diagnosis of Civil Aircraft Electrical System. **2022**, 2252, 012064	
60	An ensemble and shared selective adversarial network for partial domain fault diagnosis of machinery. **2022**, 113, 104906	1

59	Uncertainty of key performance indicators for Industry 4.0: A methodology based on the theory of belief functions. **2022**, 140, 103666	
58	Uncertainty modeling in risk assessment of digitalized process systems. **2022**,	0
57	A survey: Optimization and applications of evidence fusion algorithm based on Dempster-Shafer theory. **2022**, 109075	2
56	Multi-index probabilistic anomaly detection for large span bridges using Bayesian estimation and evidential reasoning. 147592172210927	
55	A novel belief ? ${chi }^{2}$ divergence for multisource information fusion and its application in pattern classification.	5
54	Qualitative capacities: Basic notions and potential applications. **2022**,	1
53	Estimating the Spread of Wildland Fires via Evidence-Based Information Fusion. **2022**, 1-16	
52	Are We Training with The Right Data? Evaluating Collective Confidence in Training Data using Dempster Shafer Theory. **2022**,	
51	An evidence combination rule based on a new weight assignment scheme.	0
50	A new association coefficient measure for the conflict management and its application in medical diagnosis.	0
49	Fault diagnosis method for machinery based on multi-source conflict information fusion.	0
48	Enhanced mass Jensen?hannon divergence for information fusion. **2022**, 118065	0
47	Development of a Protocol for Engineering Applications of Evidence Theory. **2022**, 8,	
46	Risk assessment of financing renewable energy projects: A case study of financing a small hydropower plant project in Serbia. **2022**, 8, 8437-8450	2
45	Safety Assessment of Transport Aircraft Heavy Equipment Airdrop: An Improved STPA-BN Mechanism. **2022**, 10, 87522-87534	0
44	Non-invasive load identification based on time partition and IACO-SVM. **2022**, 53, 102523	
43	A state-of-the-art review on uncertainty analysis of rotor systems. **2023**, 183, 109619	4
42	A novel conflict management considering the optimal discounting weights using the BWM method in Dempster-Shafer evidence theory. **2022**, 612, 536-552	1

41	NPNT: Non-oscillating Process Negation Transformation of mass functions and a negation-based discounting method in information fusion. **2022**, 116, 105381	0
40	Research on intermittent fault diagnosis of rolling bearing based on interval-valued evidence construction and possibility. **2022**, 203, 111958	0
39	A novel evidence combination rule based on compromise conflict indicator and conflict focal element. **2022**, 257, 109898	0
38	Cluster Decomposition of the Body of Evidence. **2022**, 163-173	0
37	Efficient Gpu-Algorithms for the Combination of Evidence in Dempster-Shafer Theory.	0
36	Estimation of the Qualification and Behavior of Acontributor and Aggregation of His Answers in a Crowdsourcing Context.	0
35	Tension prediction for the scraper chain through multi-sensor information fusion based on improved Dempster-Shafer evidence theory. **2022**,	0
34	GEJS: A Generalized Evidential Divergence Measure for Multisource Information Fusion. **2022**, 1-13	1
33	Belief Evolution Network-based Probability Transformation and Fusion. **2022**, 174, 108750	1
32	Cooperative Semi-supervised Regression Algorithm based on Belief Functions Theory. **2019**,	0
31	On Decombination of Belief Function. **2019**,	0
30	Application of belief functions to medical image segmentation: A review. **2022**,	0
29	A new belief entropy measure in the weighted combination rule under DST with faulty diagnosis and real-life medical application.	0
28	A novel conflict measurement method based on cosine similarity and Deng entropy in Dempster-Shafer evidence theory. **2022**,	0
27	A new correlation belief transfer method in the evidence theory. **2022**,	0
26	Research on Multi-temporal Cloud Removal Using D-S Evidence Theory and Cloud Segmentation Model. **2022**, 166-178	0
25	A New Method to Measure the Distance of Two Evidence Bodies. **2022**,	0
24	Scalable Algorithms for Simultaneous Mapping and Localization of Mobile Robot Swarms.	0

23	Scarce Data in Intelligent Technical Systems: Causes, Characteristics, and Implications. **2022**, 4, 49	0
22	Subjective Restoration of Omissions in the Measurement Data of an Object of Study and Its Mathematical Model. **2022**, 32, 743-754	0
21	A new multi-source Transfer Learning method based on Two-stage Weighted Fusion. **2022**, 110233	0
20	A New Evidence Weight Combination and Probability Allocation Method in Multi-Sensor Data Fusion. **2023**, 23, 722	0
19	Flexible Risk Evidence Combination Rules in Breast Cancer Precision Therapy. **2023**, 13, 119	0
18	Normal distribution based on maximum Deng entropy. **2023**, 167, 113057	0
17	Estimation of the qualification and behavior of a contributor and aggregation of his answers in a crowdsourcing context. **2023**, 216, 119496	0
16	The application of Dempster-Shafer theory demonstrated with justification provided by legal evidence. **2007**, 2, 257-276	0
15	A Networked Method for Multi-Evidence-Based Information Fusion. **2023**, 25, 69	0
14	Information fusion based fault diagnosis method using synthetic indicator. **2023**, 1-1	0
13	An improved belief Hellinger divergence for Dempster-Shafer theory and its application in multi-source information fusion.	0
12	A conflict evidence fusion method based on the composite discount factor and the game theory. **2023**, 94, 1-16	3
11	A Fault Prediction Method for Water Pump Based on BP Neural Network and Improved Dempster-Shafer Theory of Evidence. **2022**,	0
10	Identification of Residual Development Efforts in Agile Ramp-Up Production. **2023**, 3-15	0
9	A new method for weighted fusion of evidence based on the unified trust distribution mechanism and the reward-punishment mechanism. **2023**, 629, 798-815	0
8	BGC: Belief gravitational clustering approach and its application in the counter-deception of belief functions. **2023**, 123, 106235	0
7	A Gaussian Kernel Similarity Approach to Multisource Information Fusion Considering the Weight of Focal Element Beliefs.	0
6	Trust Evaluation and Decision Based on D-S Evidence Theory: Early Models and Future Perspectives. **2023**, 11, 16032-16041	0

5	A New Reliability Coefficient Using Betting Commitment Evidence Distance in Dempster–Shafer Evidence Theory for Uncertain Information Fusion. **2023**, 25, 462	0
4	Equity financing risk assessment based on PLTS-ER approach in marine ranching from the ecological and circular economy perspectives.	0
3	Towards reasoning over knowledge graphs under aleatoric and epistemic uncertainty. **2023**,	0
2	A novel evidence combination method based on stochastic approach for link-structure analysis algorithm and Lance-Williams distance. 9, e1307	0
1	Emergency response process for sudden rainstorm and flooding: scenario deduction and Bayesian network analysis using evidence theory and knowledge meta-theory.	0
