

CITATION REPORT

List of articles citing

Spontaneously organized molecular assemblies. 4.
Structural characterization of n-alkyl thiol monolayers
on gold by optical ellipsometry, infrared spectroscopy,
and electrochemistry

DOI: 10.1021/ja00246a011

Journal of the American Chemical Society, 1987, 109, 3559-3566

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
