

CITATION REPORT

List of articles citing

A novel free-living prochlorophyte abundant in the oceanic euphotic zone

DOI: 10.1038/334340a0
Nature, 1988, 334, 340-343.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
962	Picoplankton ultrastructure: A decade of preparation for the brown tide alga, <i>Aureococcus anophagefferens</i> . 1989 , 1-21		5
961	Seasonal and vertical distribution of picoplankton in Llyn Padarn, Gwynedd. 1989 , 24, 375-384		11
960	Derivative analysis of spectral absorption by photosynthetic pigments in the western Sargasso Sea. 1989 , 47, 323-341		112
959	Overview of flow cytometry and image analysis in biological oceanography and limnology. 1989 , 10, 501-10		34
958	Flow cytometry and phytoplankton. 1989 , 10, 511-21		72
957	Optical plankton analyser: a flow cytometer for plankton analysis, I: Design considerations. 1989 , 10, 522-8		47
956	Optical plankton analyser: a flow cytometer for plankton analysis, II: Specifications. 1989 , 10, 529-39		55
955	Use of a neural net computer system for analysis of flow cytometric data of phytoplankton populations. 1989 , 10, 540-50		58
954	Shipboard analytical flow cytometry of oceanic ultraphytoplankton. 1989 , 10, 564-79		19
953	Variance within homogeneous phytoplankton populations, I: Theoretical framework for interpreting histograms. 1989 , 10, 587-95		17
952	A simple method to preserve oceanic phytoplankton for flow cytometric analyses. 1989 , 10, 629-35		193
951	Mise en évidence expérimentale des facteurs nutritifs limitants de la production du micro-nanoplancton et de l'ultraplancton dans une eau claire de la Méditerranée orientale (Haifa, Israël). 1989 , 51, 129-152		37
950	Ultrastructural studies on the membrane systems and cell inclusions of the filamentous prochlorophyte <i>Prochlorothrix hollandica</i> . 1989 , 152, 77-82		18
949	Lipopolysaccharide in the outer membrane of the filamentous prochlorophyte <i>Prochlorothrix hollandica</i> . 1989 , 59, 119-124		3
948	psbA genes indicate common ancestry of prochlorophytes and chloroplasts. <i>Nature</i> , 1989 , 337, 382-5	50.4	155
947	Phytoplankton growth rates estimated from depth profiles of cell concentration and turbulent diffusion. 1989 , 36, 1141-1159		17
946	The biological pump: Profiles of plankton production and consumption in the upper ocean. 1989 , 22, 47-123		405

945	Phosphorylation and dephosphorylation of membrane proteins from the prochlorophyte <i>Prochlorothrix hollandica</i> in fixed redox states. 1989 , 975, 317-324		17
944	Microphotometric characterization of phytoplankton and detrital absorption properties in the Sargasso Sea. 1989 , 34, 1706-1726		48
943	Meridional variations of the springtime phytoplankton community in the Sargasso Sea. 1990 , 48, 379-412		70
942	Winter presence of prochlorophytes in surface waters of the northwestern Mediterranean Sea. 1990 , 35, 1156-1164		117
941	Spectral absorption coefficients of living phytoplankton and nonalgal biogenous matter: A comparison between the Peru upwelling area and the Sargasso Sea. 1990 , 35, 562-582		302
940	Environmental health: flow cytometric methods to assess our water world. 1990 , 33, 575-612		7
939	Major outer membrane proteins of <i>Prochlorothrix hollandica</i> (Prochloraceae). 1990 , 70, 125-130		
938	The nucleotide sequence of five ribosomal protein genes from the cyanelles of <i>Cyanophora paradoxa</i> : implications concerning the phylogenetic relationship between cyanelles and chloroplasts. 1990 , 30, 16-25		40
