

CITATION REPORT

List of articles citing

Dissection of the catalytic mechanism of isozyme 4-4 of glutathione S-transferase with alternative substrates

DOI: 10.1021/bi00402a023
Biochemistry, 1988, 27, 647-54.

Source: <https://exaly.com/paper-pdf/19718362/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
121	Chapter 32. Mechanistic Aspects of Xenobiotic Metabolism as Related to Drug Design. 1988 , 23, 315-324		1
120	GLUTATHIONE S-TRANSFERASES: STRUCTURE AND FUNCTION. 1989 , 241-257		1
119	Selective biotransformations. Patents and literature. 1989 , 22, 361-73		
118	Spectroscopic and kinetic evidence for the thiolate anion of glutathione at the active site of glutathione S-transferase. <i>Biochemistry</i> , 1989 , 28, 3562-8	3.2	167
117	Formation of the 1-(S-glutathionyl)-2,4,6-trinitrocyclohexadienate anion at the active site of glutathione S-transferase: evidence for enzymic stabilization of sigma-complex intermediates in nucleophilic aromatic substitution reactions. <i>Biochemistry</i> , 1989 , 28, 6252-8	3.2	86
116	The glutathione-binding site in glutathione S-transferases. Investigation of the cysteinyl, glycyl and gamma-glutamyl domains. <i>Biochemical Journal</i> , 1990 , 269, 47-54	3.8	93
115	Construction, expression, and preliminary characterization of chimeric class mu glutathione S-transferases with altered catalytic properties. 1990 , 29, 159-69		28
114	The role of glutathione and glutathione transferases in chemical carcinogenesis. 1990 , 25, 47-70		369
113	The inhibition of glutathione S-transferases: mechanisms, toxic consequences and therapeutic benefits. 1991 , 51, 35-46		53
