1905	Diffuse Reflectance and Transmittance Spectroscopy for the Quantitative Determination of Scattering and Absorption Coefficients in Quantitative Powder Analysis. **1997**, 51, 1323-1329	24
1904	Application of Multivariate Calibration Techniques to Quantitative Analysis of Bandpass-Filtered Fourier Transform Infrared Interferogram Data. **1997**, 51, 1369-1376	11
1903	The Application of Partial Least Squares Method (PLS) for Simultaneous Spectrophotometric Determination of Calcium and Magnesium in Human Serum. **1997**, 30, 717-737	10
1902	Air Quality Monitoring by Open Path Fourier Transform Infrared (FTIR) Spectrometry. **1997**,	1
1901	Prediction of kinematic viscosity of crude oil from chromatographic data. **1997**, 76, 1005-1011	16
1900	Resolution of folpet, procymidone and triazophos in high-performance liquid chromatography-diode array detection by using partial least squares calibration to cross-sections of spectrochromatograms. **1997**, 778, 183-192	11
1899	UV-spectrophotometric determination of ketoprofen and paraben in a gel preparation by partial least-squares calibration. **1997**, 357, 967-972	16
1898	Simultaneous determination of uranium(IV) and thorium(IV) ions with Arsenazo III by partial least squares method. **1997**, 220, 167-171	10
1897	Comparison of three multivariate calibration methods as an approach to arsenic speciation by HG-AAS. **1997**, 126, 257-262	7
1896	Comparison of using mid-infrared spectra versus their Fourier transforms for the prediction of properties of organic chemicals. **1997**, 15, 113-129	1
1895	Assessment of wool chlorination by infrared spectroscopy. **1997**, 15, 179-189	6
1894	Feasibility of measuring blood glucose concentration by near-infrared Raman spectroscopy. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **1997**, 53A, 287-92	4.4 59

| 1893 | Determination of water in ferrous lactate by near infrared reflectance spectroscopy with a fibre-optic probe. **1997**, 16, 255-62 | 23 |

| 1892 | Application of the bivariate spectrophotometric method for the determination of metronidazole, furazolidone and di-iodohydroxyquinoline in pharmaceutical formulations. **1997**, 16, 349-55 | 25 |

| 1891 | Quantitative analysis of the adulteration of orange juice with sucrose using pyrolysis mass spectrometry and chemometrics. **1997**, 40-41, 135-158 | 17 |

| 1890 | Predicting environmental fate parameters with infrared spectroscopy. **1997**, 16, 24-36 | 8 |

| 1889 | Robust learning in a partial least-squares neural network. **1997**, 30, 2903-2914 | 2 |

| 1888 | Contribution of Fourier transform infrared spectroscopy to the identification of urinary stones and kidney crystal deposits. **1997**, 3, 347-369 | 115 |

| 1887 | Simultaneous measurement of glucose and glutamine in insect cell culture media by near infrared spectroscopy. **1997**, 55, 11-5 | 76 |

| 1886 | Determination of recombinant protein in animal cell culture supernatant by near-infrared spectroscopy. **1997**, 251, 73-8 | 28 |

| 1885 | Evaluation of multiwavelength chromatograms for the quantification of mixtures of pesticides by high-performance liquid chromatography-diode array detection with multivariate calibration. **1997**, 778, 139-49 | 25 |

| 1884 | On-line remote prediction of gasoline properties by combined optical methods. **1997**, 339, 193-199 | 40 |

| 1883 | Simultaneous spectrophotometric determination of ethinylestradiol and levonorgestrel by partial least squares and principal component regression multivariate calibration. **1997**, 340, 257-265 | 58 |

| 1882 | Flow methods for the determination of polycyclic aromatic hydrocarbons using low power photomultiplier tube and charge coupled device chemiluminescence detection. **1997**, 346, 113-120 | 20 |

| 1881 | On mass spectrometer instrument standardization and interlaboratory calibration transfer using neural networks. **1997**, 348, 511-532 | 48 |

| 1880 | Linear and non-linear modelling techniques for the investigation of spectrum-structure relationships. **1997**, 348, 471-480 | 3 |

| 1879 | Optical tomographic reconstruction from diffuse remittance in scattering media using partial least squares estimation. **1997**, 348, 553-563 | 6 |

| 1878 | Determination of acid value, hydroxyl value and water content in reactions between dicarboxylic acids and diols using near-infrared spectroscopy and non-linear partial least squares regression. **1997**, 349, 287-294 | 25 |

| 1877 | Resolution of overlapping peaks in HPLC with diode array detection by application of partial least squares calibration to cross-sections of spectrochromatograms. **1997**, 348, 177-185 | 25 |

| 1876 | Diffuse reflectance absorbance spectroscopy taking in chemometrics (DRASTIC). A hyperspectral FT-IR-based approach to rapid screening for metabolite overproduction. **1997**, 348, 273-282 | 75 |

1875	Correction of non-linearities in spectroscopic multivariate calibration by using transformed original variables and PLS regression. **1997**, 349, 271-282	21
1874	Simultaneous spectrophotometric determination of mixtures of food colorants. **1997**, 354, 163-171	91
1873	Metal cyanide control in hydrometallurgical processing of gold ores by multivariate calibration procedures. **1997**, 353, 123-131	2
1872	Simultaneous determination of mixtures of metal ions by complexometric titration and multivariate calibration. **1997**, 354, 233-240	18
1871	Multivariate calibration and spectrum position correction for simultaneous determination of alpha and beta emitting plutonium isotopes by liquid scintillation. **1997**, 356, 41-50	7
1870	Determination of accelerators and antioxidants in vulcanized rubber by fourier transform infrared spectrophotometry. **1997**, 353, 351-358	5
1869	Development of a method for the systematic use of bilinear multivariate calibration methods for the correction of interferences in inductively coupled plasma-mass spectrometry. **1998**, 358, 205-225	15
1868	Simultaneous determination of ⍺-amylase and amyloglucosidase activities using flow injection analysis with fourier transform infrared spectroscopic detection and partial least-squares data treatment. **1998**, 366, 35-43	25
1867	Platinum determination by instrumental neutron activation analysis with special reference to the spectral interference of Sc-47 on the platinum indicator nuclide Au-199. **1998**, 360, 243-252	18
1866	Quantitative multicomponent analysis of polycyclic aromatic hydrocarbons in water samples. **1998**, 361, 233-240	25
1865	Simultaneous determination of mixtures of acids by potentiometric titration. **1998**, 367, 145-152	23
1864	Multivariate calibration of polycyclic aromatic hydrocarbon mixtures from excitation–emission fluorescence spectra. **1998**, 373, 311-319	118
1863	The use of FT-IR for quantitative studies of the apparent pKa of lipid carboxyl groups and the dehydration degree of the phosphate group of phospholipids. **1998**, 96, 41-52	53
1862	A new attenuated total reflectance Fourier transform infrared spectroscopy method for the study of proteins in solution. **1998**, 256, 92-106	128
1861	Studies on Simultaneous Fluorescence-Spectrophotometric Determination of Ultratrace Niobium(V), Tantalum(V), and Zirconium(IV) Using Partial Least-Squares Algorithm. *Microchemical Journal*, **1998**, 60, 271-281	4.8	3
1860	Voltammetric Behavior and Simultaneous Determination of the Antioxidants Propyl Gallate, Butylated Hydroxyanisole, and Butylated Hydroxytoluene in Acidic Acetonitrile-Water Medium Using PLS Calibration. **1998**, 10, 497-505	33
1859	Analysis of lecithin by near-infrared spectroscopy. **1998**, 100, 358-363	3
1858	Industrial validation of fourier transform infrared trans and Iodine value analyses of fats and oils. **1998**, 75, 33-39	39

| 1857 | A rapid automated method for wine analysis based upon sequential injection (SI)-FTIR spectrometry. **1998**, 362, 130-136 | 32 |

| 1856 | FTIR/ATR for protein adsorption to biomaterial surfaces. **1998**, 19, 357-69 | 351 |

| 1855 | Recursive PLS algorithms for adaptive data modeling. **1998**, 22, 503-514 | 449 |

| 1854 | Spectroscopy and coordination chemistry of cobalt in molecular sieves. **1998**, 22, 165-178 | 192 |

| 1853 | Determination of enzyme kinetics and chemometric evaluation of reaction products by FTIR spectroscopy on the example of Ffructofuranosidase. **1998**, 16, 127-135 | 20 |

| 1852 | Simultaneous determination of pteridines in multicomponent mixtures using derivative spectrophotometry and partial least-squares calibration. **1998**, 17, 1325-34 | 19 |

| 1851 | Quantitative analysis of water-soluble vitamins by ATR-FTIR spectroscopy. **1998**, 63, 133-140 | 30 |

| 1850 | Simultaneous determination of phenobarbital and phenytoin in tablet preparations by multivariate spectrophotometric calibration. **1998**, 47, 103-8 | 37 |

| 1849 | Evaluation of the Quality of Frozen Minced Red Hake: Use of Fourier Transform Infrared Spectroscopy. **1998**, 46, 3667-3672 | 22 |

| 1848 | DRASTIC(Diffuse Reflectance Absorbance Spectroscopy Taking In Chemometrics). A novel, rapid, hyperspectral, FT-IR-based approach to screening for biocatalytic activity and metabolite overproduction. **1998**, 53, 61-75 | 2 |

| 1847 | Cytologically normal cells from neoplastic cervical samples display extensive structural abnormalities on IR spectroscopy: implications for tumor biology. **1998**, 95, 15327-32 | 140 |

| 1846 | Three-way multivariate calibration procedures applied to high-performance liquid chromatography coupled with fast-scanning fluorescence spectrometry detection. Determination of polycyclic aromatic hydrocarbons in water samples. *Analytical Chemistry*, **1998**, 70, 1949-55 | 7.8 | 49 |

| 1845 | Effect of the Water Spectrum on the Determination of Dissolved Ammonia, Urea, and Chloride Concentrations by Raman Spectroscopy. **1998**, 52, 240-249 | 1 |

1238	Nondestructive measurement and fingerprint analysis of soluble solid content of tea soft drink based on Vis/NIR spectroscopy. **2007**, 82, 316-323		46
1237	Spectrophotometric simultaneous determination of nitrophenol isomers by orthogonal signal correction and partial least squares. **2007**, 146, 421-7		131
1236	Simultaneous determination of cobalt and palladium in micellar media using H-point standard addition method and partial least square regression. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2007**, 67, 378-84	4.4	12
1235	In situ laboratory analysis of sucrose in sugarcane bagasse using attenuated total reflectance spectroscopy and chemometrics. **2007**, 42, 200-207		18
1234	A framework for significance analysis of gene expression data using dimension reduction methods. **2007**, 8, 346		30
1233	Quantifying soil organic carbon fractions by infrared-spectroscopy. **2007**, 39, 224-231		124
1232	Simultaneous kinetic-spectrophotometric determination of sulfide and sulfite by partial least squares and genetic algorithm variable selection. **2007**, 62, 348-354		9
1231	In-process monitoring in industrial olive mill by means of FT-NIR. **2007**, 109, 498-504		47
1230	Determination of figures of merit for near-infrared and Raman spectrometry by net analyte signal analysis for a 4-component solid dosage system. **2007**, 8, E96		33
1229	Alternative and improved method for the simultaneous determination of fexofenadine and pseudoephedrine in their combined tablet formulation. **2007**, 45, 804-10		14
1228	Comparison of performance of partial least squares regression, secured principal component regression, and modified secured principal component regression for determination of human serum albumin, gamma-globulin and glucose in buffer solutions and in vivo blood glucose quantification by near-infrared spectroscopy. **2007**, 387, 603-11		7

1227	Determination of loratadine and pseudoephedrine sulfate in pharmaceuticals based on non-linear second-order spectrophotometric data generated by a pH-gradient flow injection technique and artificial neural networks. **2007**, 389, 2217-25	17
1226	PLS and PARAFAC applied to determination of noscapine in biological fluids by excitation-emission matrix fluorescence. **2007**, 41, 170-175	1
1225	Fluorimetric determination of sulphaguanidine and sulphamethoxazole by host-guest complexation in beta-cyclodextrin and partial least squares calibration. **2007**, 17, 309-18	18
1224	Resolution of ofloxacin-ciprofloxacin and ofloxacin-norfloxacin binary mixtures by flow-injection chemiluminescence in combination with partial least squares multivariate calibration. **2007**, 17, 481-91	29
1223	The use of net analyte signal orthogonalization in the separation of multi-component diffraction patterns obtained from X-ray powder diffraction of intact compacts. **2008**, 47, 238-47	8
1222	Retrieval of vegetation equivalent water thickness from reflectance using genetic algorithm (GA)-partial least squares (PLS) regression. **2008**, 41, 1755-1763	60
1221	Temperature oscillation calorimetry for the determination of the heat capacity in a small-scale reactor. **2008**, 63, 3755-3765	8
1220	Soil heterogeneity at the field scale: a challenge for precision crop protection. **2008**, 9, 367-390	63
1219	Photoinduced fluorimetric determination of folic acid and 5-methyltetrahydrofolic acid in serum using the kinetic evolution of the emission spectra accomplished with multivariate second-order calibration methods. **2008**, 391, 827-35	17
1218	Determination of anticarcinogenic and rescue therapy drugs in urine by photoinduced spectrofluorimetry using multivariate calibration: comparison of several second-order methods. **2008**, 391, 1119-27	10
1217	Outlier detection in near-infrared spectroscopic analysis by using Monte Carlo cross-validation. **2008**, 51, 751-759	33
1216	Simultaneous kinetic spectrophotometric determination of norfloxacin and rifampicin in pharmaceutical formulation and human urine samples by use of chemometrics approaches. **2008**, 51, 776-785	3
1215	Figures of Merit Comparison of Reflectance and Transmittance Near-Infrared Methods for the Prediction of Constituent Concentrations in Pharmaceutical Compacts. **2008**, 3, 41-50	5
1214	Direct Determination of Saccharin and Acesulfame-K in Sweeteners and Fruit Juices Powders. **2008**, 1, 43-48	19
1213	Resolution of complex fluorescence spectra of lipids and nicotinic acetylcholine receptor by multivariate analysis reveals protein-mediated effects on the receptor's immediate lipid microenvironment. **2008**, 1, 6	2
1212	Quantitative elemental analysis of Fe?Zn-alloy coating by nondestructive method. **2008**, 37, 561-564	3
1211	Establishing quantitative in-line analysis of multiple solid-state transformations during dehydration. **2008**, 97, 4983-99	45
1210	Multivariate calibration by partial least squares for the quantitative phase analysis using Rietveld method. **2008**, 22, 141-148	3

1209	Predicting % of crystallinity in FCC catalysts by FT-MIR and PLS. **2008**, 22, 661-665		2
1208	Determination of the secondary structure of proteins in different environments by FTIR-ATR spectroscopy and PLS regression. **2008**, 89, 895-905		41
1207	Orthogonal signal correction-partial least squares method for simultaneous spectrophotometric determination of cypermethrin and tetramethrin. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 69, 1165-9	4.4	12
1206	Simultaneous spectrophotometric determination of paracetamol, ibuprofen and caffeine in pharmaceuticals by chemometric methods. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 70, 491-9	4.4	96
1205	HPLC and chemometrics-assisted UV-spectroscopy methods for the simultaneous determination of ambroxol and doxycycline in capsule. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 70, 655-63	4.4	43
1204	Chemometrics-assisted spectrophotometric methods for simultaneous determination and complexation study of Fe(III), Al(III) and V(V) with morin in micellar media. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 70, 824-34	4.4	27
1203	Simultaneous determination of vitamin B12 and its derivatives using some of multivariate calibration 1 (MVC1) techniques. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 70, 1167-72	4.4	17
1202	Simultaneous spectrophotometric determination of mercury and palladium with Thio-Michler's Ketone using partial least squares regression and orthogonal signal correction. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 71, 1172-7	4.4	19
1201	Prediction of bond dissociation enthalpy of antioxidant phenols by support vector machine. **2008**, 27, 188-96		49
1200	Non-invasive quantitative assessment of the content of pharmaceutical capsules using transmission Raman spectroscopy. **2008**, 47, 221-9		82
1199	Least-squares support vector machines for simultaneous voltammetric determination of lead and tin: A comparison between LS-SVM and PLS in voltammetric data. **2008**, 623, 86-92		23
1198	Prediction of toxicity of nitrobenzenes using ab initio and least squares support vector machines. **2008**, 151, 603-9		59
1197	Simultaneous square wave voltammetric determination of 2-mercaptobenzothiazole and 2-mercaptobenzoxazole by partial least squares method in water samples. **2008**, 151, 636-41		9
1196	Direct quantification of monohydroxy-polycyclic aromatic hydrocarbons in synthetic urine samples via solid-phase extraction-room-temperature fluorescence excitation-emission matrix spectroscopy. **2008**, 376, 213-20		30
1195	Three-way partial least-squares/residual bilinearization study of second-order lanthanide-sensitized luminescence excitation-time decay data: analysis of benzoic acid in beverage samples. **2008**, 610, 186-95		35
1194	An ensemble of Monte Carlo uninformative variable elimination for wavelength selection. **2008**, 612, 121-5		130
1193	On line photochemically induced excitation-emission-kinetic four-way data: analytical application for the determination of folic acid and its two main metabolites in serum by U-PLS and N-PLS/residual trilinearization (RTL) calibration. **2008**, 622, 94-103		29
1192	Chemometrics assisted spectrophotometric determination of pyridine in water and wastewater. **2008**, 630, 10-8		8

1173	Contrôle biologique de l'entraînement sportif par spectromêtrie IR-TF. **2008**, 23, 283-291		1
1172	Mitochondrial function in vivo: spectroscopy provides window on cellular energetics. **2008**, 46, 312-8		34
1171	Solid-phase extraction and simultaneous determination of trace amounts of sulphonated and azo sulphonated dyes using microemulsion-modified-zeolite and multivariate calibration. **2008**, 75, 904-15		56
1170	Determination of nitrate concentration in soil via photoacoustic spectroscopy analysis of ion exchange membranes. **2008**, 62, 248-50		3
1169	Fiber-optic infrared reflection absorption spectroscopy for trace analysis on surfaces of varying roughness. Part II: Acetaminophen on stainless steel. **2008**, 62, 312-8		5
1168	Lipid compositions and French registered designations of origins of virgin olive oils predicted by chemometric analysis of mid-infrared spectra. **2008**, 62, 583-90		29
1167	Spectral characteristics of salt-affected soils: A laboratory experiment. **2008**, 145, 196-206		110
1166	Continuum removal versus PLSR method for clay and calcium carbonate content estimation from laboratory and airborne hyperspectral measurements. **2008**, 148, 141-148		193
1165	Partial least squares methods for spectrally estimating lunar soil FeO abundance: A stratified approach to revealing nonlinear effect and qualitative interpretation. **2008**, 113,		4
1164	Reproducibility and repeatability of measures of milk coagulation properties and predictive ability of mid-infrared reflectance spectroscopy. **2008**, 91, 4103-12		74
1163	Kinetic spectrophotometric determination of trace amounts of palladium by whole kinetic curve and a fixed time method using resazurine sulfide reaction. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2008**, 71, 841-6	4.4	14
1162	Detection limit estimator for multivariate calibration by an extension of the IUPAC recommendations for univariate methods. **2008**, 133, 532-9		35
1161	Midinfrared spectroscopy and chemometrics to predict diuron sorption coefficients in soils. **2008**, 42, 3283-8		24
1160	Kinetics of Photoelectrocatalytic Degradation of Nitrophenols on Nanostructured TiO2 Electrodes. **2008**, 112, 825-831		86
1159	Improving the screening process for the selection of potato breeding lines with enhanced polyphenolics content. **2008**, 56, 9835-42		11
1158	Statistical Significance Testing as a Guide to Partial Least-Squares (PLS) Modeling of Nonideal Data Sets for Fuel Property Predictions. **2008**, 22, 523-534		17
1157	Prediction of atrazine sorption coefficients in soils using mid-infrared spectroscopy and partial least-squares analysis. **2008**, 56, 3208-13		18
1156	Hyperspectral waveband selection for contaminant detection on poultry carcasses. **2008**, 47, 087202		22

1155	Near Infrared Spectroscopic Determination of Diesel Fuel Parameters Using Genetic Multivariate Calibration. *Petroleum Science and Technology*, **2008**, 26, 101-113	1.4	11
1154	Genetic-Algorithm-Based Wavelength Selection in Multicomponent Spectrophotometric Determination by PLS: Application on Ascorbic Acid and Uric Acid Mixture. **2008**, 55, 163-170		16
1153	Using a legacy soil sample to develop a mid-IR spectral library. **2008**, 46, 1		109

1056	Determination of additives in an electrolytic zinc bath by q1H-NMR spectroscopy. **2010**, 398, 1085-94	9
1055	Four-way kinetic-excitation-emission fluorescence data processed by multi-way algorithms. Determination of carbaryl and 1-naphthol in water samples in the presence of fluorescent interferents. **2010**, 677, 97-107	46
1054	Evaluation of Least Squares Support Vector Machine Regression and other Multivariate Calibrations in Determination of Internal Attributes of Tea Beverages. **2010**, 3, 651-661	35
1053	Application of FTIR Spectroscopy for the Determination of Virgin Coconut Oil in Binary Mixtures with Olive Oil and Palm Oil. **2010**, 87, 601-606	54
1052	Influence of the nature of soil organic matter on the sorption behaviour of pentadecane as determined by PLS analysis of mid-infrared DRIFT and solid-state 13C NMR spectra. **2010**, 158, 285-91	27
1051	Nondestructive measurement of internal quality of Nanfeng mandarin fruit by charge coupled device near infrared spectroscopy. **2010**, 71, S10-S14	43
1050	Quantitative Analysis of Chromium(VI) in Dilute Solution by Using Adsorption and Diffuse Reflectance Near-infrared Spectroscopy. **2010**, 28, 2009-2014	1
1049	Chemometric analysis of combined NIR and MIR spectra to characterize French olives. **2010**, 112, 463-475	36
1048	Rapid FTIR determination of water, phenolics and antioxidant activity of olive oil. **2010**, 112, 1150-1157	39

1047 Selection of individual variables versus intervals of variables in PLSR. **2010**, 24, n/a-n/a — 3

1046 A multivariate calibration approach for determination of petroleum hydrocarbons in water by means of IR spectroscopy. **2010**, 24, 444-447 — 9

1045 Development of variance-filtered instrumental transfer methods for high-resolution NMR spectroscopy. **2010**, 24, n/a-n/a — 4

1044 Computational performance and cross-validation error precision of five PLS algorithms using designed and real data sets. **2010**, 24, n/a-n/a — 4

1043 Principles of Proper Validation: use and abuse of re-sampling for validation. **2010**, 24, 168-187 — 185

1042 Quantitative modeling of viable cell density, cell size, intracellular conductivity, and membrane capacitance in batch and fed-batch CHO processes using dielectric spectroscopy. **2010**, 26, 1187-99 — 67

1041 Simultaneous spectrophotometric determination of trace amount of malachite green and crystal violet in water after cloud point extraction using partial least squares regression. **2010**, 175, 883-8 — 101

1040 Brightness-normalized Partial Least Squares Regression for hyperspectral data. **2010**, 111, 1947-1957 — 103

1039 Correlations between SARA fractions and physicochemical properties with 1H NMR spectra of vacuum residues from Colombian crude oils. **2010**, 89, 185-192 — 59

1038 Determination of hydrogen content, gross heat of combustion, and net heat of combustion of diesel fuel using FTIR spectroscopy and multivariate calibration. **2010**, 89, 193-201 — 18

1037 Prediction of recrystallization behavior of troglitazone/polyvinylpyrrolidone solid dispersion by solid-state NMR. **2010**, 383, 18-23 — 30

1036 Determination of aluminum rolling oil additives and contaminants using infrared spectroscopy coupled with genetic algorithm based multivariate calibration. **2010**, 54, 10-20 — 5

1035 Micro near infrared spectroscopy (MicroNIRS) based on on-line enrichment: determination of trace copper in water using glycidyl methacrylate-based monolithic material. **2010**, 670, 39-43 — 7

1034 Complex process quality prediction using modified kernel partial least squares. **2010**, 65, 2153-2158 — 53

1033 Residual bilinearization combined with kernel-unfolded partial least-squares: A new technique for processing non-linear second-order data achieving the second-order advantage. **2010**, 100, 127-135 — 15

1032 Time-alignment of bidimensional chromatograms in the presence of uncalibrated interferences using parallel factor analysis: Application to multi-component determinations using liquid-chromatography with spectrofluorimetric detection. **2010**, 101, 30-37 — 36

1031 Visible/near infrared-partial least-squares analysis of Brix in sugar cane juice. **2010**, 102, 100-109 — 59

1030 Analysis of aggregation and dispersion states of small particles in concentrated suspension by using diffused photon density wave spectroscopy. **2010**, 76, 137-44 — 14

1029	Exploring QSARs for inhibitory activity of non-peptide HIV-1 protease inhibitors by GA-PLS and GA-SVM. **2010**, 75, 506-14		21
1028	Simultaneous spectrophotometric determination of 2-thiouracil and 2-mercaptobenzimidazole in animal tissue using multivariate calibration methods: concerns and rapid methods for detection. **2010**, 75, C135-9		6
1027	Ghanaian cocoa bean fermentation characterized by spectroscopic and chromatographic methods and chemometrics. **2010**, 75, S300-7		64
1026	Quantitative Analysis of the Cholesterol-Lowering Drugs Ezetimibe and Simvastatin in Pure Powder, Binary Mixtures, and a Combined Dosage Form by Spectrophotometry, Chemometry, and High-Performance Column Liquid Chromatography. *Journal of AOAC INTERNATIONAL*, **2010**, 93, 1844-1855	1.7	16
1025	Impact of tissue heterogeneity on noninvasive near-infrared glucose measurements in interstitial fluid of rat skin. **2010**, 4, 1041-54		12
1024	Quantification of Textile Dyes in Industrial Effluent Using UV-Vis Spectrophotometry Combined with Principal Components Regression. **2010**, 43, 814-822		3
1023	Identification of different bacterial species in biofilms using confocal Raman microscopy. **2010**, 15, 066001		30
1022	Rank estimation and the multivariate analysis of in vivo fast-scan cyclic voltammetric data. *Analytical Chemistry*, **2010**, 82, 5541-51	7.8	35
1021	Determination of Characteristic Wave Bands and Detection of Melamine in Fishmeal by Fourier Transform near Infrared Spectroscopy. **2010**, 18, 113-120		8
1020	Sonographic quantification of endometrial changes after abortion with computer-assisted image analysis. **2010**, 89, 385-9		2
1019	Simultaneous Determination of Guaifenesin and Theophylline by Chemometrics Methods. **2010**, 43, 687-700		18
1018	Use of Genetic Algorithms To Improve Partial Least Squares Fuel Property and Synthetic Fuel Modeling from Near-Infrared Spectra. **2010**, 24, 5560-5572		7
1017	Selective Homogeneous Oxidation System for Producing Hydroperoxides Concentrate: Kinetic Simulation of Catalytic Oxidation of Gas Oilsâ **2010**, 49, 7210-7226		2
1016	Laser-induced breakdown spectroscopy of steel: a comparison of univariate and multivariate calibration methods. **2010**, 64, 154-60		41
1015	Alleviating the effects of light scattering in multivariate calibration of near-infrared spectra by path length distribution correction. **2010**, 64, 245-54		10
1014	Simultaneous optical spectroscopic measurement of hemoglobin and myoglobin saturations and cytochrome aa3 oxidation in vivo. **2010**, 64, 973-9		11
1013	A novel chemometric strategy for the estimation of extra virgin olive oil adulteration with edible oils. **2010**, 21, 890-895		114
1012	Application of Fourier-transform infrared (FT-IR) spectroscopy for simple and easy determination of chylomicron-triglyceride and very low density lipoprotein-triglyceride. **2010**, 411, 285-90		8

1011	Regional and local factors affecting diversity, abundance and activity of free-living, N2-fixing bacteria in Australian agricultural soils. **2010**, 53, 391-399		39
1010	Non-destructive characterisation of iron gall ink drawings: not such a galling problem. **2010**, 81, 412-7		20
1009	Sequential injections as an alternative to gradient exploitation for implementing differential kinetic analysis in a flow injection system. **2010**, 81, 1409-12		7
1008	Quantitative determination by temperature dependent near-infrared spectra. **2010**, 82, 1017-21		38
1007	Rapid simultaneous determination of protoporphyrin IX, uroporphyrin III and coproporphyrin III in human whole blood by non-linear variable-angle synchronous fluorescence technique coupled with partial least squares. **2010**, 82, 1516-20		20
1006	Predicting oleocellosis sensitivity in citrus using VNIR reflectance spectroscopy. **2010**, 125, 401-405		11
1005	Olive Oil Adulteration with Sunflower and Corn Oil Using Molecular Fluorescence Spectroscopy. **2010**, 451-461		4
1004	Simultaneous Spectrophotometric Determination of Aspirin, Paracetamol, Caffeine, and Chlorphenamine from Pharmaceutical Formulations Using Multivariate Regression Methods. **2010**, 43, 804-813		30
1003	Noninvasive biochemical monitoring of physiological stress by Fourier transform infrared saliva spectroscopy. **2010**, 135, 3183-92		50
1002	Second-order advantage with excitation-emission fluorescence spectroscopy and a flow-through optosensing device. Simultaneous determination of thiabendazole and fuberidazole in the presence of uncalibrated interferences. **2010**, 135, 1299-308		30
1001	Second-order analyte quantitation under identical profiles in one data dimension. A dependency-adapted partial least-squares/residual bilinearization method. *Analytical Chemistry*, **2010**, 82, 4510-9	7.8	27
1000	Quantitative determination of additives in a commercial electroplating nickel bath by spectrophotometry and multivariate analysis. **2010**, 2, 86-92		8
999	A Tutorial on Near Infrared Spectroscopy and Its Calibration. **2010**, 40, 246-260		127
998	Optimization and validation of a LIBS method for the determination of macro and micronutrients in sugar cane leaves. **2010**, 25, 1453		56
997	Determination of atenolol, chlorthalidone and their degradation products by TLC-densitometric and chemometric methods with application of model updating. **2010**, 2, 1994		6
996	A simple kinetic spectrophotometric method for simultaneous determination of tetracyclines by use of chemometrics. **2010**, 2, 1302		11
995	White light excitation fluorescence (WLEF). Part II. Analysis of complex multifluorophoric systems. **2011**, 3, 368-373		9
994	Process analytical chemistry in a nickel electroplating bath. Automated sequential injection for additive determination. **2011**, 3, 2726		3

993	Application of multiway-variate calibration to simultaneous voltammetric determination of three catecholamines. **2011**, 3, 385-392		8
992	Direct and simultaneous determination of Co and Cu on a silicon wafer using a chemiluminescence system. **2011**, 136, 3872-6		5
991	Improvement of the prediction ability of multivariate calibration by a method based on the combination of data fusion and least squares support vector machines. **2011**, 136, 1252-61		10
990	Simultaneous determination of Cu(II), Ni(II) and Zn(II) by peroxyoxalate chemiluminescence using Partial Least Squares calibration. **2011**, 136, 304-8		4
989	Characterization of aquatic particles by direct FTIR analysis of filters and quantification of elemental and molecular compositions. **2011**, 45, 9671-9		25
988	Two-dimensional fingerprinting approach for comparison of complex substances analysed by HPLC-UV and fluorescence detection. **2011**, 136, 550-9		12
987	Internal and external validation strategies for the evaluation of long-term effects in NIR calibration models. **2011**, 59, 1541-7		17
986	MRL and PLS Correlations between the 1H NMR Spectra of Vacuum Residues and the Deasphalting Conditions with the DMO Yields. *Petroleum Science and Technology*, **2011**, 29, 640-648	1.4	4
985	Simultaneous estimation of ramipril, acetylsalicylic acid and atorvastatin calcium by chemometrics assisted UV-spectrophotometric method in capsules. **2011**, 61, 283-96		15
984	On variable relations between vegetation patterns and canopy reflectance. **2011**, 6, 83-92		52
983	Quantitative analysis by resolving variation matrices of pH-Spectrophotometric titration data using Self-Modeling Curve Resolution. **2011**, 3, 429-437		5
982	Dynamic metabolic response of mice to acute mequindox exposure. **2011**, 10, 5183-90		47
981	Predicting the age and type of tuocha tea by fourier transform infrared spectroscopy and chemometric data analysis. **2011**, 59, 10461-9		21
980	Chemometrics-assisted fluorimetry for the rapid and selective determination of heavy polycyclic aromatic hydrocarbons in contaminated river waters and activated sludges. **2011**, 45, 1513-20		23
979	Mid-infrared spectrometry of milk for dairy metabolomics: a comparison of two sampling techniques and effect of homogenization. **2011**, 705, 88-97		37
978	Characterisation of heavy oils using near-infrared spectroscopy: optimisation of pre-processing methods and variable selection. **2011**, 705, 227-34		47
977	Image analysis for maintenance of coating quality in nickel electroplating baths--real time control. **2011**, 706, 1-7		16
976	Assessment of estuarine sediment and sedimentary organic matter properties by infrared reflectance spectroscopy. **2011**, 286, 290-300		8

975	Relationships between particle size distribution and VNIR reflectance spectra are weaker for soils formed from bedrock compared to transported parent materials. **2011**, 166, 84-91	6
974	Noninvasive monitoring of Pirenoxine Sodium concentration in aqueous humor based on dual-wavelength iris imaging technique. **2011**, 2, 231-42	2
973	Detection of volatile compounds produced by microbial growth in urine by selected ion flow tube mass spectrometry (SIFT-MS). **2011**, 87, 111-3	56
972	Simultaneous determination of mercury, lead and cadmium ions in water using near-infrared spectroscopy with preconcentration by thiol-functionalized magnesium phyllosilicate clay. **2011**, 84, 679-83	45
971	Multivariate curve resolution modeling of liquid chromatography-mass spectrometry data in a comparative study of the different endogenous metabolites behavior in two tomato cultivars treated with carbofuran pesticide. **2011**, 85, 264-75	18
970	Quantitative determination by temperature dependent near-infrared spectra: a further study. **2011**, 85, 420-4	22
969	Determination of atenolol in human urine by emission-excitation fluorescence matrices and unfolded partial least-squares with residual bilinearization. **2011**, 85, 1526-34	14
968	Spectroscopy of canopy chemicals in humid tropical forests. **2011**, 115, 3587-3598	166
967	Quality by Design and the Importance of PAT in QbD. **2011**, 195-224	3
966	Visible and near-infrared spectroscopic analysis of raw milk for cow health monitoring: reflectance or transmittance?. **2011**, 94, 5315-29	85
965	Liquid Chromatographic and Spectrophotometric Determination of Diflucortolone Valerate and Isoconazole Nitrate in Creams. *Journal of AOAC INTERNATIONAL*, **2011**, 94, 128-135	1.7 5
964	Novel NIR Spectroscopy Correlation Approach to Amino Acid Analysis of Soybean Proteins for Composition Improvements. **2011**,	0
963	Novel NIR Spectroscopy Correlation Approach to Amino Acid Analysis of Soybean Proteins for Composition Improvements. (Version 2.0). **2011**,	
962	Novel NIR Spectroscopy Correlation Approach to Amino Acid Analysis of Soybean Proteins for Composition Improvements. (v.3). **2011**,	
961	NIR Calibrations for Soybean Seeds and Soy Food Composition Analysis: Total Carbohydrates, Oil, Proteins and Water Contents [v.2]. **2011**,	1
960	Determination of selected parameters of quality of the dairy products by NIR spectroscopy. **2011**, 24, 255-260	6
959	Application of FT NIR spectroscopy in the determination of basic chemical composition of pork and beef. **2011**, 51, 361-368	13
958	Steroid-induced osteoporosis monitored by Raman spectroscopy. **2011**,	1

957   Confocal Raman microscopy for identification of bacterial species in biofilms. **2011**,   1

956   Analyse hyperspektraler Signaturen mit doppelten Weibull-Funktionen. **2011**, 2011, 349-359

955   Raman spectroscopy detects deterioration in biomechanical properties of bone in a glucocorticoid-treated mouse model of rheumatoid arthritis. **2011**, 16, 087012   31

954   Predicting soil organic carbon and total nitrogen using mid- and near-infrared spectra for Brookston clay loam soil in Southwestern Ontario, Canada. **2011**, 91, 53-63   60

953   First-order multivariate calibration applied to the simultaneous fluorometric determination of the anticancer agents CPT-11 and SN-38 in serum and urine samples. **2011**, 27, 745   7

952   Validated spectrophotometric methods for the simultaneous determination of ciprofloxacin hydrochloride and metronidazole in tablets. **2011**, 59, 1485-93   17

951   Multicomponent cleaning verification of stainless steel surfaces for the removal of dairy residues using infrared microspectroscopy. **2011**, 76, C303-8   3

950   Evaluation of important fatty acid ratios in poultry feed lipids by ATR FTIR spectroscopy. **2011**, 57, 177-181   17

949   Particle size dependence of polymorphism in spray-dried mannitol. **2011**, 44, 41-8   41

948   Unfolded partial least-squares with residual quadrilinearization: A new multivariate algorithm for processing five-way data achieving the second-order advantage. Application to fourth-order excitation-emission-kinetic-pH fluorescence analytical data. **2011**, 109, 178-185   39

947   Predicting the free radical scavenging activity of curcumin derivatives. **2011**, 109, 207-216   33

946   Simultaneous analysis of three catecholamines by a kinetic procedure: comparison of prediction performance of several different multivariate calibrations. **2011**, 65,   4

945   Sensitive analytical method for simultaneous analysis of some vasoconstrictors with highly overlapped analytical signals. **2011**, 85, 1832-1839

944   Controls on the phosphorus content of fine stream bed sediments in agricultural headwater catchments at the landscape-scale. **2011**, 144, 352-363   14

943   Chemometrics-assisted spectrophotometry method for the determination of chemical oxygen demand in pulping effluent. **2011**, 175, 321-9   6

942   Surfactant-mediated complex formation for determination of traces amounts of zinc, cadmium, and lead with 4-(2-thiazolylazo) resorcinol and chemometric methods. **2011**, 183, 57-63   6

941   Predicting tropical plant physiology from leaf and canopy spectroscopy. **2011**, 165, 289-99   88

940   Potentiality of partial least-squares multivariate calibration in the spectrophotometric analysis of binary mixtures of purine bases. **2011**, 142, 773-778   0

939	A quantitative structure–retention relationship study for prediction of chromatographic relative retention time of chlorinated monoterpenes. **2011**, 9, 87-96	11
938	Quantitative nuclear magnetic resonance for additives determination in an electrolytic nickel bath. **2011**, 399, 1907-15	7
937	Baseline correction combined partial least squares algorithm and its application in on-line Fourier transform infrared quantitative analysis. **2011**, 690, 162-8	16
936	Potential Use of FTIR-ATR Spectroscopic Method for Determination of Virgin Coconut Oil and Extra Virgin Olive Oil in Ternary Mixture Systems. **2011**, 4, 155-162	36
935	Quantifying TiO2 abundance of lunar soils: Partial least squares and stepwise multiple regression analysis for determining causal effect. **2011**, 22, 549-565	4
934	Determination of Sodium Fatty Acid in Soap Formulation Using Fourier Transform Infrared (FTIR) Spectroscopy and Multivariate Calibrations. **2011**, 14, 9-14	3
933	Application of a Portable Handheld Infrared Spectrometer for Quantitation of trans Fat in Edible Oils. **2011**, 88, 1477-1483	36
932	Modelling by partial least squares the relationship between the HPLC mobile phases and analytes on phenyl column. **2011**, 34, 1489-502	11
931	Simultaneous Differential Pulse Adsorptive Stripping Determination of Imipramine and Its Metabolite Desipramine by the PLS-1 Multivariate Method. **2011**, 23, 449-455	8
930	On estimating model complexity and prediction errors in multivariate calibration: generalized resampling by random sample weighting (RSW). **2011**, 25, 51-58	5
929	Kohonen classification applying â missing variablesâ criterion to evaluate the p-boronophenylalanine human-body-concentration decreasing profile of boron neutron capture therapy patients. **2011**, 25, 340-348	1
928	Multivariate quality control solved by one-class partial least squares regression: identification of adulterated peanut oils by mid-infrared spectroscopy. **2011**, 25, 568-574	36
927	Polynomial multivariate least-squares regression for modeling nonlinear data applied to in-depth characterization of chromatographic resolution. **2011**, 25, 575-585	9
926	A spectroscopic and chemometric study of virgin olive oils subjected to thermal stress. **2011**, 127, 216-221	28
925	Application of partial least square regression to differential scanning calorimetry data for fatty acid quantitation in olive oil. **2011**, 127, 1899-1904	27
924	Binary biosorption of Acid Red 14 and Reactive Red 15 onto acid treated okara: Simultaneous spectrophotometric determination of two dyes using partial least squares regression. **2011**, 171, 967-975	37
923	Application of spectra cross-correlation for Type II outliers screening during multivariate near-infrared spectroscopic analysis of whole blood. **2011**, 107, 303-311	4
922	Flatbed scanners as a source of imaging. Brightness assessment and additives determination in a nickel electroplating bath. **2011**, 694, 38-45	10

921	Quantitative estimation of protein fouling of ultra-filtration membranes by photoacoustic spectroscopy. **2011**, 271, 231-235		5
920	Characterisation of transmission Raman spectroscopy for rapid quantitative analysis of intact multi-component pharmaceutical capsules. **2011**, 54, 463-8		38
919	Characterization of forest fuels in a Mass Loss Calorimeter by short open-path FTIR spectroscopy. **2011**, 112, 519-530		10
918	Beer quality screening by FT-IR spectrometry: Impact of measurement strategies, data pre-processings and variable selection algorithms. **2011**, 106, 188-198		23
917	Simultaneous determination of salicylic acid and salicylamide in biological fluids. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2011**, 79, 909-14	4.4	9
916	Comparison of PLS1-DA, PLS2-DA and SIMCA for classification by origin of crude petroleum oils by MIR and virgin olive oils by NIR for different spectral regions. **2011**, 55, 132-140		93
915	The high-quality spectral fingerprint of glucose captured by Raman spectroscopy in non-invasive glucose measurement. **2011**,		0
914	Study on noise filtering. **2011**,		
913	Wavelength selection-based nonlinear calibration for transcutaneous blood glucose sensing using Raman spectroscopy. **2011**, 16, 087009		38
912	Fourier transform infrared spectroscopic analysis of normal and torn rotator-cuff tendons. **2011**, 93, 370-7		10
911	Iris as a reflector for differential absorption low-coherence interferometry to measure glucose level in the anterior chamber. **2011**, 16, 015004		11
910	Determination of Vitamin C by Infrared Spectroscopy Based on Nonlinear Modeling. **2011**, 236-238, 2482-2486		
909	Taxonomy and remote sensing of leaf mass per area (LMA) in humid tropical forests. **2011**, 21, 85-98		117
908	Application of outlier sample analysis. **2011**,		
907	Application of near infrared spectroscopy to estimate selected free amino acids and soluble nitrogen during cheese ripening. **2011**, 80, 293-297		8
906	Rock Fragments Control Size and Saturation of Organic Carbon Pools in Agricultural Topsoil. **2011**, 75, 1898-1907		28
905	Determination of ambroxol hydrochloride, guaifenesin, and theophylline in ternary mixtures and in the presence of excipients in different pharmaceutical dosage forms. *Journal of AOAC INTERNATIONAL*, **2012**, 95, 1629-38	1.7	12
904	Reflectance near-infrared spectroscopic method with Chemometric techniques for simultaneous determination of Chondroitin, glucosamine, and methyl sulfonyl methane. *Journal of AOAC INTERNATIONAL*, **2012**, 95, 1035-42	1.7	5

903	A simple and accurate analytical method for determination of three commercial dyes in different water systems using partial least squares regression. **2012**, 66, 1647-55		15
902	Reflectance near-infrared spectroscopic method with a chemometric technique using partial least squares multivariate calibration for simultaneous determination of chondroitin, glucosamine, and ascorbic acid. *Journal of AOAC INTERNATIONAL*, **2012**, 95, 724-32	1.7	4
901	Application of near infrared spectroscopy in quality control of Irpex lacteus. **2012**,		
900	Visible near infrared diffuse reflectance spectroscopy (VisNIR DRS) for rapid measurement of organic matter in compost. **2012**, 30, 1049-58		9
899	Automatic and rapid discrimination of cotton genotypes by near infrared spectroscopy and chemometrics. **2012**, 2012, 793468		4
898	Comparison of Multivariate Calibrations for the Determination of Soluble Solids Content of Tea Beverage Using UV-VIS-NIR Spectroscopy. **2012**, 236-237, 83-88		0
897	Determination of Propranolol and Naproxen in Urine by using Excitation-Emission Matrix Phosphorescence Coupled with Multivariate Calibration Algorithms. **2012**, 8, 83-92		1
896	Statistical Calibration of Model Solution of Analytes. **2012**, 19, 67-75		
895	Application of Neural Network in the Analysis of Near-Infrared Spectra. **2012**,		
894	HPLC and chemometric methods for the simultaneous determination of miconazole nitrate and nystatin. **2012**, 50, 855-61		10
893	Slice transform-based weight updating strategy for PLS. **2012**, 26, 565-575		10
892	Monitoring chemical impacts on cell cultures by means of image analyses. **2012**, 26, 585-597		9
891	Feasibility of Field Portable Near Infrared (NIR) Spectroscopy to Determine Cyanide Concentrations in Soil. **2012**, 223, 5495-5504		20
890	Preprocessing strategies to improve MCR analyses of hyperspectral images. **2012**, 117, 149-158		32
889	An efficient method for signal improvement in near-infrared spectroscopy measurements during calibration and validation processes. **2012**, 118, 239-245		1
888	Rapid geographical origin analysis of pure West Lake lotus root powder (WL-LRP) by near-infrared spectroscopy combined with multivariate class modeling techniques. **2012**, 49, 771-777		9
887	Quantitative analysis of thiamine hydrochloride in tabletsâComparison of infrared attenuated total reflection, diffuse reflectance infrared and Raman spectroscopy. **2012**, 62, 10-16		8
886	Combining local wavelength information and ensemble learning to enhance the specificity of class modeling techniques: Identification of food geographical origins and adulteration. **2012**, 754, 31-8		21

| 885 | Quantitative analysis of adulteration of extra virgin olive oil using Raman spectroscopy improved by Bayesian framework least squares support vector machines. **2012**, 4, 2772 | 50 |

| 884 | Real-time Raman spectroscopy for in vivo skin cancer diagnosis. **2012**, 72, 2491-500 | 288 |

| 883 | Simultaneous determination of nabumetone and its principal metabolite in medicines and human urine by time-resolved fluorescence. **2012**, 137, 5144-52 | 4 |

345   Stepwise Optimization Strategies Utilizing Recent Univariate and Multivariate Methods for Determination of the Partially Overlapped Mixture Perindopril and Indapamide. **2018**, 8, 486-502   0

344   The Classical Least-Squares Model. **2018**, 19-38

343   The Inverse Least-Squares Model. **2018**, 39-56

342   Principal Component Regression. **2018**, 73-86

341   The Optimum Number of Latent Variables. **2018**, 87-101   2

340   The Partial Least-Squares Model. **2018**, 103-121

339   Sample and Sensor Selection. **2018**, 123-137

338   Development and validation of an in situ and real-time quantification method for bicarbonate, carbonate and orthophosphate ions by ATR FT-IR spectroscopy in aqueous solutions. **2018**, 143, 4387-4393   3

337   Interval LASSO regression based extreme learning machine for nonlinear multivariate calibration of near infrared spectroscopic datasets. **2018**, 10, 3011-3022   4

336   Fast Determination of Copper Content in Tobacco (Nicotina tabacum L.) Leaves Using Laser-Induced Breakdown Spectroscopy with Univariate and Multivariate Analysis. **2018**, 61, 821-829   4

335   Studying pharmacodynamic effects in cell cultures by chemical fingerprinting âSIA electronic tongue versus 2D fluorescence soft sensor. **2018**, 272, 264-273   8

334   Novel Stability-Indicating Chemometric-Assisted Spectrophotometric Methods for the Determination of Chlordiazepoxide and Clidinium Bromide in the Presence of Clidinium Bromide's Alkali-Induced Degradation Product. *Journal of AOAC INTERNATIONAL*, **2018**, 101, 714-722   1.7   2

333   Importance of the spatial extent for using soil properties estimated by laboratory VNIR/SWIR spectroscopy: Examples of the clay and calcium carbonate content. **2018**, 330, 244-253   12

332   Front-face fluorescence excitation-emission matrices in combination with three-way chemometrics for the discrimination and prediction of phenolic response to vineyard agronomic practices. **2019**, 270, 162-172   9

331   Nonlinear least squares with local polynomial interpolation for quantitative analysis of IR spectra. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2019**, 206, 147-153   4.4   7

330   Univariate calibrations with or without chemometric assistance for determination of drugs lacking peak maxima in their zero-order profiles. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2019**, 206, 207-215   4.4   2

329   A new descriptor via bio-mimetic chromatography and modeling for the blood brain barrier (Part II). **2019**, 164, 808-817   3

328   Remotely Sensing Variation in Ecological Strategies and Plant Traits of Willows in Perialpine Floodplains. **2019**, 124, 2090-2106   3

327	Estimating the soil salinity over partially vegetated surfaces from multispectral remote sensing image using non-negative matrix factorization. **2019**, 354, 113887		14
326	Composite-Scattering Plasmonic Nanoprobes for Label-Free, Quantitative Biomolecular Sensing. **2019**, 15, e1901165		14
325	Simultaneous Determination of Over-the-Counter Pain Relievers in Commercial Pharmaceutical Products Utilizing Multivariate Curve Resolution-Alternating Least Squares (MCR-ALS) Multivariate Calibration Model. **2019**, 2019, 1863910		3
324	Complex numbers-partial least-squares applied to the treatment of electrochemical impedance spectroscopy data. **2019**, 1080, 1-11		4
323	Comparison of Raman and Mid-Infrared Spectroscopy for Real-Time Monitoring of Yeast Fermentations: A Proof-of-Concept for Multi-Channel Photometric Sensors. **2019**, 9, 2472		6
322	Validated Univariate and Multivariate Spectrophotometric Methods for Simultaneous Determination of Pioglitazone and Glimepiride in their Binary Mixture and in Tablet Preparation. **2019**, 9, 234-247		
321	At-Line Monitoring of the Extraction Process of Rosmarini Folium via Wet Chemical Assays, UHPLC Analysis, and Newly Developed Near-Infrared Spectroscopic Analysis Methods. *Molecules*, **2019**, 24,	4.8	2
320	Use of H NMR to Detect the Percentage of Pure Fruit Juices in Blends. *Molecules*, **2019**, 24,	4.8	10
319	Univariate and Multivariate Models for Determination of Prasugrel Base in the Formulation of Prasugrel Hydrochloride Using XRPD Method. **2019**, 108, 3575-3581		4
318	A Raman-based serum constituents' analysis for gastric cancer diagnosis: In vitro study. **2019**, 204, 826-832		14
317	Pesticide residues in fruits and vegetables: High-order calibration based on spectrofluorimetric/pH data. *Microchemical Journal*, **2019**, 149, 104042	4.8	5
316	Chemometric Models for Quantification of Carbamazepine Anhydrous and Dihydrate Forms in the Formulation. **2019**, 108, 1211-1219		15
315	Energy profiling of dairy cows from routine milk mid-infrared analysis. **2019**, 102, 11169-11179		10
314	Estimation of six leaf traits of East Asian forest tree species by leaf spectroscopy and partial least square regression. **2019**, 233, 111381		5
313	Simultaneous Determination of Two Alcohols and One Anionic Surfactant in Commercial Liquid Cleaners Using Partial Least Square Regression by Fourier Transform Infrared Spectrometry. **2019**, 56, 25-34		2
312	An improved weighted multiplicative scatter correction algorithm with the use of variable selection: Application to near-infrared spectra. **2019**, 185, 114-121		14
311	110th Anniversary: Slurryability: What Makes a Powder Hard To Incorporate into a Slurry?. **2019**, 58, 14396-14409		
310	Analysis of functional groups in atmospheric aerosols by infrared spectroscopy: systematic intercomparison of calibration methods for US measurement network samples. **2019**, 12, 2287-2312		12

309	Dual Activation Function-Based Extreme Learning Machine (ELM) for Estimating Grapevine Berry Yield and Quality. *Remote Sensing*, **2019**, 11, 740	5	26
308	Estimating speciation of aqueous ammonia solutions of ammonium bicarbonate: application of least squares methods to infrared spectra. **2019**, 4, 1284-1302		19
307	Fast visualization of distribution of chromium in rice leaves by re-heating dual-pulse laser-induced breakdown spectroscopy and chemometric methods. **2019**, 252, 1125-1132		19
306	High-accuracy and fast determination of chromium content in rice leaves based on collinear dual-pulse laser-induced breakdown spectroscopy and chemometric methods. **2019**, 295, 327-333		19
305	PLS Subspace-Based Calibration Transfer for Near-Infrared Spectroscopy Quantitative Analysis. *Molecules*, **2019**, 24,	4.8	7
304	Carbonate determination in soils by mid-IR spectroscopy with regional and continental scale models. **2019**, 14, e0210235		12
303	Combination of fluorescence excitation emission matrices in polar and non-polar solvents to obtain three- and four- way arrays for classification of Tempranillo grapes according to maturation stage and hydric status. **2019**, 199, 652-661		5
302	Stacked ensemble extreme learning machine coupled with Partial Least Squares-based weighting strategy for nonlinear multivariate calibration. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2019**, 215, 97-111	4.4	8
301	Developing a four-dimensional voltammetry as a powerful electroanalytical methodology for simultaneous determination of three colorants in the presence of an uncalibrated interference. **2019**, 189, 27-38		24
300	Prediction of soil salinity with soil-reflected spectra: A comparison of two regression methods. **2019**, 9, 5067		16
299	Imaging Spectroscopy for the Detection, Assessment and Monitoring of Natural and Anthropogenic Hazards. **2019**, 40, 431-470		7
298	Effect of spectral measurement orientation on online prediction of soluble solids content of apple using Vis/NIR diffuse reflectance. **2019**, 97, 467-477		22
297	Energy dispersive inelastic X-ray scattering spectroscopy âA review. **2019**, 154, 10-24		11
296	Online monitoring by infrared spectroscopy using multivariate analysis âbackground theory and application to catalytic dehydrogenative coupling of butanol to butyl butyrate. **2019**, 4, 909-918		4
295	Utilization of FT-NIR Spectroscopy to Check Acidity of Various Types of Cheeses. *Journal of AOAC INTERNATIONAL*, **2019**, 102, 893-897	1.7	2
294	Prediction of surface color of ârystalâguava using UV-Vis-NIR spectroscopy and multivariate analysis. **2019**, 365, 012026		1
293	Prediction and Comparison of Models for Soluble Solids Content Determination in âaâPears Using Optical Properties and Diffuse Reflectance in 900â1700 nm Spectral Region. **2019**, 7, 179199-179211		2
292	Non-destructive Raman spectroscopy as a tool for measuring ASTA color values and Sudan I content in paprika powder. **2019**, 274, 187-193		24

291 Estimating heavy metal concentrations in suburban soils with reflectance spectroscopy. **2019**, 336, 59-67 | 63

290 Removing the moisture effect in soil organic matter determination using NIR spectroscopy and PLSR with external parameter orthogonalization. *Microchemical Journal*, **2019**, 145, 1094-1101 | 4.8 | 18

289 Portable spectroscopic system for in vivo skin neoplasms diagnostics by Raman and autofluorescence analysis. **2019**, 12, e201800400 | 23

288 Simultaneous determination of dihydroxybenzene isomers at nitrogen-doped graphene surface using fast Fourier transform square wave voltammetry and multivariate calibration. *Microchemical Journal*, **2019**, 145, 596-605 | 4.8 | 16

287 Prediction of differential scanning calorimetry curve of theophylline direct compression model tablet using Raman spectra. **2019**, 49, 254-259 | 3

286 Classification of pre-dyed textile fibers exposed to weathering and photodegradation by non-destructive excitation-emission fluorescence spectroscopy paired with discriminant unfolded-partial least squares. **2019**, 12, 25-32 | 6

285 The combination of Raman imaging and LIBS for quantification of original and degradation materials in Cultural Heritage. **2019**, 50, 193-201 | 9

284 Nocturnal Hypoglycemic Alarm Based on Near-Infrared Spectroscopy: In Vivo Studies with a Rat Animal Model. *Analytical Chemistry*, **2019**, 91, 1855-1862 | 7.8 | 1

283 Novel spectrophotometric and factor-based multivariate calibration-prediction techniques for determination of two inhibitors of hepatitis C-virus and hepatocellular carcinoma in pure, human urine, and human plasma. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2019**, 213, 288-300 | 4.4 | 4

282 Influence of moisture variation on the performance of Raman spectroscopy in quantitative pharmaceutical analyses. **2019**, 164, 528-535 | 5

281 Identification and quantification of single constituents in groundwater with Fourier-transform infrared spectroscopy and Positive Matrix Factorization. **2019**, 100, 152-158 | 2

280 Chemometrics-assisted voltammetric determination of timolol maleate and brimonidine tartrate utilizing a carbon paste electrode modified with iron (III) oxide nanoparticles. *Microchemical Journal*, **2019**, 145, 313-329 | 4.8 | 7

279 MATLAB in electrochemistry: A review. **2019**, 194, 205-225 | 28

278 Moving window partial least squares after orthogonal signal correction as a coupling method for determination of uranium and thorium by ultrasound-assisted emulsification microextraction. **2019**, 33, e3083 | 3

277 Quantitative analysis of stibnite content in raw ore by Raman spectroscopy and chemometric tools. **2019**, 50, 454-464 | 7

276 Classification of different animal fibers by near infrared spectroscopy and chemometric models. *Microchemical Journal*, **2019**, 144, 489-494 | 4.8 | 24

275 A comparison of several second-order algorithms for simultaneous determination of neomangiferin and mangiferin with severe spectral overlapping in Anemarrhenae Rhizoma. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2019**, 208, 172-178 | 4.4 | 7

274 Comparison of Near-Infrared Spectroscopy with Needle Indentation and Histology for the Determination of Cartilage Thickness in the Large Animal Model Sheep. **2019**, 10, 173-185 | 5

273	Novel application of multivariate standard addition method based on net analyte signal for quantification of artificial sweeteners in complex food matrices. **2020**, 14, 78-87		4
272	Determination of total carbon in biosolids using MID-infrared spectroscopy. **2020**, 698, 134195		2
271	Rapid and simultaneous determination of physical and chemical properties of asphalt by ATR-FTIR spectroscopy combined with a novel calibration-free method. **2020**, 230, 116950		15
270	Observation of nutrient uptake at the adaxial surface of leaves of tomato (Solanum lycopersicum) using Raman spectroscopy. **2020**, 53, 536-562		3
269	Quantification of melamine in infant formula using a handheld Raman spectrometer - Performance boost with customized Arduino-controlled rotation setup. **2020**, 209, 120488		8
268	Principal component analysis or kernel principal component analysis based joint spectral subspace method for calibration transfer. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 227, 117653	4.4	7
267	Digital bandstop filtering in the quantitative analysis of glucose from near-infrared and midinfrared spectra. **2020**, 34, e3206		3
266	A selective ensemble preprocessing strategy for near-infrared spectral quantitative analysis of complex samples. **2020**, 197, 103916		28
265	Modelling of bioprocess non-linear fluorescence data for at-line prediction of etanercept based on artificial neural networks optimized by response surface methodology. **2020**, 210, 120664		10
264	Moldy Peanut Kernel Identification Using Wavelet Spectral Features Extracted from Hyperspectral Images. **2020**, 13, 445-456		8
263	Non-destructive fluorescence spectroscopy combined with second-order calibration as a new strategy for the analysis of the illegal Sudan I dye in paprika powder. *Microchemical Journal*, **2020**, 154, 104539	4.8	5
262	A Chemometric-Assisted Voltammetric Method for Simultaneous Determination of Four Antioxidants in Biodiesel Samples. **2020**, 34, 412-418		6
261	Multi-attribute quality screening of immunoglobulin G using polarized Excitation Emission Matrix spectroscopy. **2020**, 1101, 99-110		4
260	Green approach for simultaneous determination of multi-pesticide residue in environmental water samples using excitation-emission matrix fluorescence and multivariate calibration. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 228, 117801	4.4	9
259	Application of Vis-NIR spectroscopy for determination the content of organic matter in saline-alkali soils. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 229, 117863	4.4	16
258	Determination of ethyl glucuronide (EtG) in blood samples using partial least squares discriminant analysis applied to surface-enhanced Raman spectroscopy. **2020**, 106, 103012		0
257	Evolution of polyphenols content in plum fruits (Prunus salicina) with harvesting time by second-order excitation-emission fluorescence multivariate calibration. *Microchemical Journal*, **2020**, 158, 105299	4.8	7
256	Noninvasive Cellular Oxygenation Measurement During Graded Hypoxia Using Visible-Near-Infrared Spectroscopy. **2020**, 74, 1263-1273		

255	Linear Regression Modeling: Variable Selection. **2020**, 249-293		2
254	Monitoring the molecular composition of live cells exposed to electric pulses via label-free optical methods. **2020**, 10, 10471		2
253	Gaussian Beam Shaping and Multivariate Analysis in Plasmonic Sensing. *Analytical Chemistry*, **2020**, 92, 16236-16244	7.8	0
252	Using Proximal Hyperspectral Sensing to Predict Herbage Nutritive Value for Dairy Farming. **2020**, 10, 1826		9
251	Genetic Algorithm with Model-Updating-Based PLS Regression for the Spectrophotometric Determination of Clopidogrel, Atorvastatin, and Aspirin in the Presence of its Degradation Product. **2020**, 87, 568-578		1
250	A comparative study of two analytical techniques for the simultaneous determination of amprolium HCl and ethopabate from combined dosage form and in presence of their alkaline degradation. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 243, 118756	4.4	5
249	Development of gas chromatographic pattern recognition and classification tools for compliance and forensic analyses of fuels: A review. **2020**, 1132, 157-186		22
248	A comparative study of ATR-FTIR, UV-visible and fluorescence spectroscopy combined with chemometrics for quantification of squalene in extra virgin olive oils. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 241, 118714	4.4	8
247	Classification of Mosquitoes with Infrared Spectroscopy and Partial Least Squares-Discriminant Analysis. **2020**, 74, 900-912		2
246	Spectrophotometric Simultaneous Determination of Benazepril and Hydrochlorothiazide in Commercial Pharmaceutical by Chemometric Methods. **2020**,		
245	The Sample, the Spectra and the Maths-The Critical Pillars in the Development of Robust and Sound Applications of Vibrational Spectroscopy. *Molecules*, **2020**, 25,	4.8	12
244	Visible and Near-Infrared Reflectance Spectroscopy for Assessment of Soil Properties in the Caucasus Mountains, Azerbaijan. **2020**, 51, 2111-2136		3
243	Estimation of main chemical content of nutmeg oleoresin by using near infrared spectroscopy. **2020**, 542, 012019		0
242	Sensitivity for Multivariate Calibration Based on Multilayer Perceptron Artificial Neural Networks. *Analytical Chemistry*, **2020**, 92, 12265-12272	7.8	11
241	Development of Advanced Chemometric-Assisted Spectrophotometric Methods for the Determination of Cromolyn Sodium and Its Alkaline Degradation Products. *Molecules*, **2020**, 25,	4.8	1
240	FTIR Spectrometry with PLS Regression for Rapid TBN Determination of Worn Mineral Engine Oils. **2020**, 13, 6438		4
239	Using Data Science to Improve the Identification of Plant Nutritional Status. **2020**,		0
238	Online milk composition analysis with an on-farm near-infrared sensor. **2020**, 178, 105734		8

237	Simultaneous measurement of phenols by three-way fluorescence spectroscopy: A comparison of N-PLS/RBL, U-PLS/RBL and PARAFAC. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 239, 118511	4.4	0
236	Distinct controls over the temporal dynamics of soil carbon fractions after land use change. **2020**, 26, 4614-4625		22
235	A predictive model for elemental carbon, organic carbon and total carbon based on laser induced breakdown spectroscopy measurements of filter-collected diesel particulate matter. **2020**, 168, 105871-105871		9
234	Optimization and comparison of models for prediction of soluble solids content in apple by online Vis/NIR transmission coupled with diameter correction method. **2020**, 201, 104017		15
233	A comparison of experimental designs for calibration. **2020**, 202, 104025		0
232	Second-order calibration in combination with fluorescence fibre-optic data modelling as a novel approach for monitoring the maturation stage of plums. **2020**, 199, 103980		2
231	Simultaneous determination of phenazopyridine HCl and trimethoprim in presence of phenazopyridine HCl impurity by univariate and multivariate spectrophotometric methods - Quantification of phenazopyridine HCl impurity by univariate methods. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 239, 118516	4.4	
230	Fast track diagnostics: hyperspectral reflectance differentiates disease from drought stress in trees. **2020**, 40, 1143-1146		2
229	Vis/NIR hyperspectral imaging distinguishes sub-population, production environment, and physicochemical grain properties in rice. **2020**, 10, 9284		14
228	Coupling of digital image processing and three-way calibration to assist a paper-based sensor for determination of nitrite in food samples.. **2020**, 10, 14422-14430		9
227	Sources of error in open-path FTIR measurements of N_2O and CO_2 emitted from agricultural fields. **2020**, 13, 2001-2013		4
226	Linear Support Vector Regression and Partial Least-Squares for Determination of Dapoxetine Hydrochloride and Tadalafil in Binary Pharmaceutical Mixtures. *Journal of AOAC INTERNATIONAL*, **2020**, 103, 132-139	1.7	4
225	Rapid Identification and Prediction of Cadmium-Lead Cross-Stress of Different Stress Levels in Rice Canopy Based on Visible and Near-Infrared Spectroscopy. *Remote Sensing*, **2020**, 12, 469	5	5
224	Fast Quantification of Honey Adulteration with Laser-Induced Breakdown Spectroscopy and Chemometric Methods. **2020**, 9,		11
223	Partial Least Square Model (PLS) as a Tool to Predict the Diffusion of Steroids Across Artificial Membranes. *Molecules*, **2020**, 25,	4.8	1
222	Structural insights into the origin of phosphoinositide 3-kinase inhibition. **2020**, 31, 1505-1522		3
221	The use of green spectroscopy with multivariate calibration models for simultaneous analysis of ternary drug mixture in combined oral antidiabetic pill. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 241, 118638	4.4	1
220	A Performance Comparison of Low-Cost Near-Infrared (NIR) Spectrometers to a Conventional Laboratory Spectrometer for Rapid Biomass Compositional Analysis. **2020**, 13, 1121-1129		3

219	Application of a Spectroscopic Analysis-Based Portable Sensor for Phosphate Quantitation in Hydroponic Solutions. **2020**, 2020, 1-9		3
218	Tuning support vector machines regression models improves prediction accuracy of soil properties in MIR spectroscopy. **2020**, 365, 114227		33
217	Rapid Synergistic Cloud Point Extraction (RS-CPE) with Partial Least Squares (PLS) for the Simultaneous Determination of Chlorophenols (CPs) in Environmental Water Samples Using a Microplate Assay (MPA). **2020**, 53, 1719-1733		5
216	Chemical fingerprinting and quantitative monitoring of the doping drugs bambuterol and terbutaline in human urine samples using ATR-FTIR coupled with a PLSR chemometric tool.. **2020**, 10, 7146-7154		4
215	Development of a general strategy for the quantification of pseudopolymorphs: analysis of cefadroxil monohydrate in commercial products. **2020**, 50, 425-433		
214	Effect of Genetic Algorithm-Based Wavelength Selection as a Preprocessing Tool on Multivariate Simultaneous Determination of Paracetamol, Orphenadrine Citrate, and Caffeine in the Presence of p-Aminophenol Impurity. *Journal of AOAC INTERNATIONAL*, **2020**, 103, 250-256	1.7	3
213	A chemometric study combined with spectroscopy for the quantification of secondary structure of flagellar-associated protein 174 (FAP174). **2020**, 34, e3221		0
212	Analysis of quinary therapy targeting multiple cardiovascular diseases using UV spectrophotometry and chemometric tools. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2020**, 238, 118415	4.4	9
211	Surface enhanced infrared absorption spectroscopy (SEIRA) as a green analytical chemistry approach: Coating of recycled aluminum TLC sheets with citrate capped silver nanoparticles for chemometric quantitative analysis of ternary mixtures as a green alternative to the traditional methods. **2020**, 1117, 60-73		11
210	Quantitative in situ mapping of elements in deep-sea hydrothermal vents using laser-induced breakdown spectroscopy and multivariate analysis. **2020**, 158, 103232		11
209	Geological and petrophysical applications of imaging infrared spectroscopy for mineralogical analysis of core and cuttings: examples from the North Sea, Norwegian Sea and Barents Sea. **2020**, SP495-2018-168		0
208	Estimating the distribution trend of soil heavy metals in mining area from HyMap airborne hyperspectral imagery based on ensemble learning. **2021**, 401, 123288		25
207	Spectrally defined plant functional types adequately capture multidimensional trait variation in herbaceous communities. **2021**, 120, 106970		1
206	Mapping leaf area index in a mixed temperate forest using Fenix airborne hyperspectral data and Gaussian processes regression. **2021**, 95, 102242		10
205	HR- H NMR spectroscopy and multivariate statistical analysis to determine the composition of herbal mixtures for infusions. **2021**, 32, 544-553		5
204	Estimation of Soil Salinity Under Various Soil Moisture Conditions Using Laboratory Based Thermal Infrared Spectra. **2021**, 49, 959-969		0
203	Univariate and multivariate assisted spectrophotometric methods for determination of rosuvastatin calcium and fenofibrate in bulk powders and tablets along with their degradation products. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2021**, 248, 119163	4.4	2
202	Silver-Coated Disordered Silicon Nanowires Provide Highly Sensitive Label-Free Glycated Albumin Detection through Molecular Trapping and Plasmonic Hotspot Formation. **2021**, 10, e2001110		8

201	Tackling quantitative polymorphic analysis through fixed-dose combination tablets production. Pyrazinamide polymorphic assessment. **2021**, 194, 113786		1
200	Near infrared hyperspectral imaging as a tool for quantifying atmospheric carbonaceous aerosol. *Microchemical Journal*, **2021**, 160, 105619	4.8	4
199	Does Variability Affect the Performance of Front-Face Fluorescence Spectroscopy? A Study Case on Commercial Lebanese Olive Oil. **2021**, 31, 107-118		
198	Multivariate Modeling for Quantifying Adulteration of Sunflower Oil with Low Level of Safflower Oil Using ATR-FTIR, UV-Visible, and Fluorescence Spectroscopies: A Comparative Approach. **2021**, 14, 361-371		1
197	A facile solvent extraction method facilitating surface-enhanced Raman spectroscopic detection of ochratoxin A in wine and wheat. **2021**, 224, 121792		6
196	An evaluation of different bio-inspired feature selection techniques on multivariate calibration models in spectroscopy. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2021**, 246, 119042	4.4	4
195	Fluorescence Study of Four Olive Varieties Paste According to Sampling Dates and the Control in the Elaboration of Table Olives of âAscolana teneraâ**2021**, 14, 307-318		0
194	Predicting the growth of lettuce from soil infrared reflectance spectra: the potential for crop management. **2021**, 22, 226-248		3
193	Full spectrum and genetic algorithm-selected spectrum-based chemometric methods for simultaneous determination of azilsartan medoxomil, chlorthalidone, and azilsartan: Development, validation, and application on commercial dosage form. **2021**, 19, 205-213		1
192	Data analysis methods for gas chromatography. **2021**, 525-546		0
191	Development of a rapid polarized total synchronous fluorescence spectroscopy (pTSFS) method for protein quantification in a model bioreactor broth. **2021**, 118, 1805-1817		3
190	In vivo diagnosis of skin cancer with a portable Raman spectroscopic device. **2021**, 30, 652-663		7
189	Grandite-based resource characterization of the skarn-hosted Cu-Zn-Mo deposit of Antamina, Peru. 1		2
188	Predictive Modeling of Lignin Content for the Screening of Suitable Poplar Genotypes Based on Fourier Transform-Raman Spectrometry. *ACS Omega*, **2021**, 6, 8578-8587	3.9	6
187	Spectral Assessment of Organic Matter with Different Composition Using Reflectance Spectroscopy. *Remote Sensing*, **2021**, 13, 1549	5	3
186	Multivariate Calibration of Sulfur in Sour Crude Oils via Near-Infrared Spectra. **2021**, 35, 6673-6680		0
185	A comprehensive approach toward concomitant triclabendazole polymorphism in pharmaceutical products. **2021**, 62, 102386		4
184	Multiscale mapping of plant functional groups and plant traits in the High Arctic using field spectroscopy, UAV imagery and Sentinel-2A data. **2021**, 16, 055006		10

183	Chemo-metric assisted UV-spectrophotometric methods for simultaneous estimation of Darunavir ethanolate and Cobicistat in binary mixture and their tablet formulation. *Spectrochimica Acta - Part A: Molecular and Biomolecular Spectroscopy*, **2021**, 250, 119383	4.4	2
182	Applicability of optimized hyperspectral indices for estimating Betalain content in Suaeda salsa. **2021**, 42, 5211-5231		1
