

CITATION REPORT

List of articles citing

A new approach to the maximum-flow problem

DOI: 10.1145/48014.61051

Journal of the ACM, 1988, 35, 921-940.

Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1283	Tractable Valued Constraints. 105-140		
1282	Bibliography. 357-370		
1281	Energy Minimization of Discrete Protein Titration State Models Using Graph Theory.		
1280	Power transmission control using distributed max-flow.		14
