

The roles of dynamical and chemical processes in determining the concentration of ozone in one-dimensional and two-dimensional models

Journal of Geophysical Research

94, 9889-9896

DOI: [10.1029/jd094id07p09889](https://doi.org/10.1029/jd094id07p09889)

Citation Report

| # | ARTICLE | IF | CITATIONS |
|----|---|-----|-----------|
| 1 | Stratospheric ozone: Impact of human activity. Planetary and Space Science, 1989, 37, 1653-1672. | 1.7 | 23 |
| 2 | Response of an interactive two-dimensional model to ozone changes: An estimate of the radiative dynamical feedback effect. Journal of Geophysical Research, 1990, 95, 5657-5668. | 3.3 | 7 |
| 3 | The space shuttle's impact on the stratosphere. Journal of Geophysical Research, 1990, 95, 18583-18590. | 3.3 | 50 |
| 4 | Use of satellite data to constrain the model-calculated atmospheric lifetime for N ₂ O: Implications for other trace gases. Journal of Geophysical Research, 1991, 96, 7547-7552. | 3.3 | 47 |
| 5 | Infrared measurements of HF and HCl total column abundances above Kitt Peak, 1977-1990: Seasonal cycles, long-term increases, and comparisons with model calculations. Journal of Geophysical Research, 1991, 96, 15523-15540. | 3.3 | 69 |
| 6 | The chlorine budget of the present-day atmosphere: A modeling study. Journal of Geophysical Research, 1992, 97, 2547-2559. | 3.3 | 30 |
| 7 | Variations of stratospheric ozone concentrations above Spitsbergen in summer 1989. Journal of Geophysical Research, 1992, 97, 8115-8126. | 3.3 | 0 |
| 8 | Interrelationships between mixing ratios of long-lived stratospheric constituents. Journal of Geophysical Research, 1992, 97, 10145-10156. | 3.3 | 343 |
| 9 | Cross-tropopause transport of excess ¹⁴ C in a two-dimensional model. Journal of Geophysical Research, 1993, 98, 18599-18606. | 3.3 | 10 |
| 10 | A two-dimensional model with coupled dynamics, radiation, and photochemistry: 1. Simulation of the middle atmosphere. Journal of Geophysical Research, 1993, 98, 20429-20440. | 3.3 | 12 |
| 11 | Ozone response to enhanced heterogeneous processing after the eruption of Mt. Pinatubo. Geophysical Research Letters, 1994, 21, 209-212. | 4.0 | 62 |
| 12 | Aerosol-associated changes in tropical stratospheric ozone following the eruption of Mount Pinatubo. Journal of Geophysical Research, 1994, 99, 8197. | 3.3 | 95 |
| 13 | Seasonal evolutions of N ₂ O, O ₃ , and CO ₂ : Three-dimensional simulations of stratospheric correlations. Journal of Geophysical Research, 1995, 100, 16699. | 3.3 | 42 |
| 14 | Ozone production and loss rate measurements in the middle stratosphere. Journal of Geophysical Research, 1996, 101, 28785-28792. | 3.3 | 38 |
| 15 | The effects of tropical cirrus clouds on the abundance of lower stratospheric ozone. Journal of Atmospheric Chemistry, 1996, 23, 209-220. | 3.2 | 20 |
| 16 | Response of summertime odd nitrogen and ozone at 17 mbar to Mount Pinatubo aerosol over the southern midlatitudes: Observations from the Halogen Occultation Experiment. Journal of Geophysical Research, 1997, 102, 23573-23582. | 3.3 | 9 |
| 17 | Evaluation and intercomparison of global atmospheric transport models using ²²² Rn and other short-lived tracers. Journal of Geophysical Research, 1997, 102, 5953-5970. | 3.3 | 267 |
| 18 | Title is missing!. Journal of Atmospheric Chemistry, 1998, 29, 119-134. | 3.2 | 13 |
