

CITATION REPORT

List of articles citing

Relation of meat, fat, and fiber intake to the risk of colon cancer in a prospective study among women

DOI: 10.1056/nejm199012133232404

New England Journal of Medicine, 1990, 323, 1664-72.

Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1063	1: Is colon cancer really linked to a daily diet of red meat?. 1991 , 16, 60-61		1
1062	A prospective cohort study of nutrient intake and age at menarche. 1991 , 54, 649-56		106
1061	Calcium and the prevention of colon cancer. 1991 , 188, 52-9		9
1060	Meat, cooking methods and colorectal cancer: a case-referent study in Stockholm. 1991 , 49, 520-5		273
1059	Colon cancer incidence: recent trends in the United States. 1991 , 2, 419-25		22
1058	Vegetables, fruit, and cancer. II. Mechanisms. 1991 , 2, 427-42		719
1057	Toward the primary prevention of cancer. 1991 , 254, 1131-8		315
1056	Formation of a glutathione conjugate and a semistable transportable glucuronide conjugate of N2-oxidized species of 2-amino-1-methyl-6-phenylimidazo[4,5-b]pyridine (PhIP) in rat liver. 1991 , 12, 2239-45		86
1055	High-risk health behaviors associated with various dietary patterns. <i>Nutrition and Cancer</i> , 1991 , 16, 135-51		46
1054	More on chewing the fat. The good fat and the good cholesterol. <i>New England Journal of Medicine</i> , 1991 , 325, 1740-2	59.2	39
1053	Relation of meat, fat, and fiber intake to the risk of colon cancer in women. <i>New England Journal of Medicine</i> , 1992 , 326, 199; author reply 201-2	59.2	1
1052	Entrapment by magnetic microcapsules of the protein pyrolysates IQ, PhIP and Glu-P-1, and alteration of IQ metabolite exposure within the rat gastrointestinal tract by risk-modulating components of the human diet. 1992 , 13, 2353-9		5
1051	Racial differences in the anatomical distribution of colon cancer. 1992 , 127, 1241-5		31
1050	Reconciling the Epidemiology, Physiology, and Molecular Biology of Colon Cancer. 1992 , 268, 1573		50
1049	No effect of adult dietary fat on tumors induced prenatally by diethylstilbestrol. <i>Nutrition and Cancer</i> , 1992 , 17, 161-9	2.8	5
1048	Dietary patterns and colon cancer in western New York. <i>Nutrition and Cancer</i> , 1992 , 18, 265-76	2.8	81
1047	Effect of dietary fiber on the disposition and excretion of a food carcinogen (2-14C-labeled MeIQx) in rats. <i>Nutrition and Cancer</i> , 1992 , 17, 139-51	2.8	14

1046	Glutathione in foods listed in the National Cancer Institute's Health Habits and History Food Frequency Questionnaire. <i>Nutrition and Cancer</i> , 1992 , 17, 57-75	2.8	134
1045	Tropical oils: nutritional and scientific issues. 1992 , 31, 79-102		80
1044	Effect of omega-3 fatty acids on rectal mucosal cell proliferation in subjects at risk for colon cancer. 1992 , 103, 883-91		186
1043	Calcium supplementation decreases rectal epithelial cell proliferation in subjects with sporadic adenoma. 1992 , 103, 92-7		77
1042	Effect of dietary fiber on colonic bacterial enzymes and bile acids in relation to colon cancer. 1992 , 102, 1475-82		156
