

CITATION REPORT

List of articles citing

Suggestive evidence that pelvic endometriosis is a progressive disease, whereas deeply infiltrating endometriosis is associated with pelvic pain

DOI: 10.1016/s0015-0282(16)54244-7
Fertility and Sterility, 1991, 55, 759-65.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
