

CITATION REPORT

List of articles citing

Weathering by segregation ice growth in microcracks at sustained subzero temperatures: Verification from an experimental study using acoustic emissions

DOI: 10.1002/ppp.3430020404

Permafrost and Periglacial Processes, 1991, 2, 283-300.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
