

# CITATION REPORT

List of articles citing

Comparison of the predictive characteristics of heart rate variability index and left ventricular ejection fraction for all-cause mortality, arrhythmic events and sudden death after acute myocardial infarction

DOI: 10.1016/0002-9149(91)90774-f  
American Journal of Cardiology, 1991, 68, 434-9.

**Source:** <https://exaly.com/paper-pdf/22434616/citation-report.pdf>

**Version:** 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
