Journal of Biomolecular 560 3.5 0 Structure and Dynamics, 2021, , 1-11. <i>Perilla</i> seed oil in combination with nobiletin-rich ponkan powder enhances cognitive function in healthy elderly Japanese individuals: a possible supplement for brain health in the elderly. Food and 4.6 Function, 2022, 13, 2768-2781. Dietary PUFAs drive diverse system-level changes in lipid metabolism. Molecular Metabolism, 2022, 59, 562 6.5 3 101457. Methylxanthines Induce a Change in the AD/Neurodegeneration-Linked Lipid Profile in Neuroblastoma 4.1 Cells. International Journal of Molecular Sciences, 2022, 23, 2295. Intranasal delivery of pro-resolving lipid mediators rescues memory and gamma oscillation 564 4.4 25 impairment in AppNL-G-F/NL-G-F mice. Communications Biology, 2022, 5, 245. The Impact of Medium Chain and Polyunsaturated ω-3-Fatty Acids on Amyloid-Î<sup>2</sup> Deposition, Oxidative 5.1 Stress and Metabolic Dysfunction Associated with Alzheimer's Disease. Antioxidants, 2021, 10, 1991. Convergent pathways of the gut microbiota–brain axis and neurodegenerative disorders. 568 1.3 16 Gastroenterology Report, 2022, 10, goac017. PACTS-Assisted Thermal Proteome Profiling for Use in Identifying Peptide-Interacting Proteins. 6.5 Analytical Chemistry, 2022, 94, 6809-6818 Amyloid Î<sup>2</sup> Dodecamer Disrupts the Neuronal Membrane More Strongly than the Mature Fibril: Understanding the Role of Oligomers in Neurotoxicity. Journal of Physical Chemistry B, 2022, 126, 570 2.6 9 3659-3672. The association between long-chain polyunsaturated fatty acid intake and changes in brain volumes among older community-dwelling Japanese people. Neurobiology of Aging, 2022, 117, 179-188. 571 3.1 DHA Ameliorates Cognitive Ability, Reduces Amyloid Deposition, and Nerve Fiber Production in 572 9 3.7 Alzheimer's Disease. Frontiers in Nutrition, Ó, 9, . Changes in Phospholipid Composition of the Human Cerebellum and Motor Cortex during Normal Ageing. Nutrients, 2022, 14, 2495. αâ€Glycerylâ€phosphorylâ€ethanolamine protects human hippocampal neurons from ageingâ€induced cellular 574 2.6 1 alterations. European Journal of Neuroscience, 2022, 56, 4514-4528. Diet, nutrition, and cognitive function: A narrative review of Japanese longitudinal studies. Geriatrics 1.5 and Gerontology International, 2022, 22, 825-831.
