Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
819	Consensus Paper on the Surveillance of Surgical Wound Infections. <i>Infection Control and Hospital Epidemiology</i> , 1992 , 13, 599-605	2	121
818	Nosocomial infections in surgical patients in the United States, January 1986-June 1992. National Nosocomial Infections Surveillance (NNIS) System. <i>Infection Control and Hospital Epidemiology</i> , 1993 , 14, 73-80	2	105
817	Surveillance for surgical site infections: the uses of antibiotic exposure. <i>Infection Control and Hospital Epidemiology</i> , 1994 , 15, 717-23	2	6
816	Wound Infection Following Trauma and Burn Injuries. 1995 , 7, 627-642		24
815	Toward further reducing wound infections in cardiac operations. 1996 , 62, 1783-9		31
814	Nosocomial Infections in Spain: Results of Five Nationwide Serial Prevalence Surveys (EPINE Project, 1990-1994). <i>Infection Control and Hospital Epidemiology</i> , 1996 , 17, 293-297	2	
813	Reduction of Surgical-Site Infections in Cardiothoracic Surgery by Elimination of Nasal Carriage of <i>Staphylococcus aureus</i> . <i>Infection Control and Hospital Epidemiology</i> , 1996 , 17, 780-785	2	37
812	Risk factors for neurosurgical site infections after craniotomy: a prospective multicenter study of 2944 patients. The French Study Group of Neurosurgical Infections, the SEHP, and the C-CLIN Paris-Nord. <i>Service Epidémiologie Hygiène et Prévention</i> . 1997 , 41, 1073-9; discussion 1079-81		251
811	Coagulase-negative staphylococcal sternal wound infections after open heart operations. 1997 , 63, 395-401		85
810	Surgical site infection: rates, etiology and resistance patterns to antimicrobials among strains isolated at Rio de Janeiro University Hospital. 1997 , 25, 217-20		17
809	Bloodstream, respiratory, and deep surgical wound infections after open heart surgery. 1998 , 13, 252-9		28
808	The effect of traffic patterns in the OR on surgical site infections. 1998 , 68, 649-60		56
807	Comparison of Vancomycin and Cefuroxime for Infection Prophylaxis in Coronary Artery Bypass Surgery. <i>Infection Control and Hospital Epidemiology</i> , 1998 , 19, 234-239	2	37
806	Risk Features for Surgical-Site Infections in Coronary Artery Bypass Surgery. <i>Infection Control and Hospital Epidemiology</i> , 1998 , 19, 240-247	2	71
805	Profilaxia antimicrobiana em cirurgia do aparelho digestivo: uma proposta de adequação. 1998 , 25, 185-192		0
804	Infecção de sítio cirúrgico: estudo prospectivo de 2.149 pacientes operados. 1999 , 26, 109-113		4
803	The usefulness of conducting investigations on intra-abdominal bacterial contamination in digestive tract operations. 1999 , 29, 701-6		8

802	Cost reduction with successful implementation of an antibiotic prophylaxis program in a private hospital in Ribeirão Preto, Brazil. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 77-9	2	4
801	The impact of surgical-site infections in the 1990s: attributable mortality, excess length of hospitalization, and extra costs. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 725-30	2	1229
800	Infection surveillance and control and coronary artery bypass surgery. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 788-90	2	1
799	How many nosocomial infections are missed if identification is restricted to patients with either microbiology reports or antibiotic administration?. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 124-7	2	31
798	The effect of frequency of chart review on the sensitivity of nosocomial infection surveillance in general surgery. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 208-12	2	4
797	Guideline for prevention of surgical site infection, 1999. Hospital Infection Control Practices Advisory Committee. <i>Infection Control and Hospital Epidemiology</i> , 1999 , 20, 250-78; quiz 279-80	2	3100
796	Guest editorial. 1999 , 4, 5-6		2
795	Staphylococcus aureus bacteremia in the surgical patient: a prospective analysis of 73 postoperative patients who developed Staphylococcus aureus bacteremia at a tertiary care facility. 2000 , 190, 50-7		61
794	Modifiable risk factors associated with deep sternal site infection after coronary artery bypass grafting. 2000 , 119, 108-14		165
793	Prolonged antibiotic prophylaxis after cardiovascular surgery and its effect on surgical site infections and antimicrobial resistance. 2000 , 101, 2916-21		404
792	Risk Factors for Postcesarean Surgical Site Infection. 2000 , 95, 367-371		6
791	Risk factors for radial artery harvest site infection following coronary artery bypass graft surgery. 2000 , 30, 270-5		49
790	Nonrespiratory Stenotrophomonas maltophilia infection at a children's hospital. 2000 , 31, 1321-30		60
789	Comparison between closed drainage techniques for the treatment of postoperative mediastinitis. 2000 , 70, 924-9		55
788	Coagulase-negative staphylococci and sternal infections after cardiac operation. 2000 , 69, 1104-9		95
787	Evaluation of two retrospective active surveillance methods for the detection of nosocomial infection in surgical patients. <i>Infection Control and Hospital Epidemiology</i> , 2000 , 21, 24-7	2	11
786	Applicability of two surgical-site infection risk indices to risk of sepsis in surgical patients. <i>Infection Control and Hospital Epidemiology</i> , 2000 , 21, 633-8	2	12
785	Epidemiological differences between sepsis syndrome with bacteremia and culture-negative sepsis. <i>Infection Control and Hospital Epidemiology</i> , 2000 , 21, 639-44	2	12

784	An operating surveillance system of surgical-site infections in The Netherlands: results of the PREZIES national surveillance network. Preventie van Ziekenhuisinfecties door Surveillance. <i>Infection Control and Hospital Epidemiology</i> , 2000 , 21, 311-8	2	97
783	How to survey nosocomial infections. <i>Infection Control and Hospital Epidemiology</i> , 2000 , 21, 366-70	2	39
782	Impact of active monitoring of infection control practices on deep sternal infection after open-heart surgery. 2001 , 72, 515-20		37
781	Epidemiology of surgical-site infections diagnosed after hospital discharge: a prospective cohort study. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 24-30	2	92
780	Converting incidence and prevalence data of nosocomial infections: results from eight hospitals. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 31-4	2	47
779	The association of diabetes and glucose control with surgical-site infections among cardiothoracic surgery patients. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 607-12	2	402
778	A hospital epidemic of vancomycin-resistant Enterococcus: risk factors and control. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 140-7	2	100
777	Suitability of the NNIS index for estimating surgical-site infection risk at a small university hospital in Brazil. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 268-72	2	28
776	Surveillance of hospital-acquired infection in England, Germany, and The Netherlands: will international comparison of rates be possible?. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 393-7	2	47
775	Incidence and predictors of surgical-site infections in Vietnam. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 485-92	2	36
774	Postdischarge nosocomial infections in primary care. <i>Infection Control and Hospital Epidemiology</i> , 2001 , 22, 493-8	2	8
773	Effect of single-dose prophylactic ampicillin and sulbactam on wound infection after tension-free inguinal hernia repair with polypropylene mesh: the randomized, double-blind, prospective trial. 2001 , 233, 26-33		138
772	Risk assessment for surgical site infections following total hip and total knee prostheses. 2001 , 13 Spec No 1, 42-7		21
771	Clinical presentations of soft-tissue infections and surgical site infections. 2001 , 33 Suppl 2, S84-93		84
770	Serum concentrations of cefuroxime after continuous infusion in coronary bypass graft patients. 2001 , 35, 409-13		14
769	Surfactant protein D binds selectively to <i>Klebsiella pneumoniae</i> lipopolysaccharides containing mannose-rich O-antigens. 2002 , 169, 3267-74		48
768	Surgical site infections in orthopedic surgery: the effect of mupirocin nasal ointment in a double-blind, randomized, placebo-controlled study. 2002 , 35, 353-8		263
767	A randomized, prospective, double-blinded evaluation of selective bowel decontamination in liver transplantation. 2002 , 73, 1904-9		83

766	Clinical epidemiology of <i>Stenotrophomonas maltophilia</i> colonization and infection: a multicenter study. 2002 , 81, 228-39		54
765	The impact of surgical-site infections following orthopedic surgery at a community hospital and a university hospital: adverse quality of life, excess length of stay, and extra cost. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 183-9	2	621
764	Clinical, microbiological, and economic benefit of a change in antibiotic prophylaxis for cardiac surgery. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 402-4	2	38
763	Glove punctures and postoperative skin flora of hands in cardiac surgery. 2002 , 74, 149-53		45
762	Prospective surveillance applying the national nosocomial infection surveillance methods in a Brazilian pediatric public hospital. 2002 , 30, 1-7		216
761	Prevalence of surgical-site infections and patterns of antimicrobial use in a large tertiary-care hospital in Ho Chi Minh City, Vietnam. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 382-7	2	30
760	Use of censored data to monitor surgical-site infections. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 368-71	2	14
759	Sixteen years' surveillance of surgical sites in an Irish acute-care hospital. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 36-40	2	9
758	A quality management project in 8 selected hospitals to reduce nosocomial infections: a prospective, controlled study. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 91-7	2	36
757	How many nosocomial infections are associated with cross-transmission? A prospective cohort study in a surgical intensive care unit. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 127-32	2	92
756	Incidence of nosocomial infection in a brand-new hospital. <i>Infection Control and Hospital Epidemiology</i> , 2002 , 23, 299-300	2	0
755	The economic costs of surgical site infection. 2002 , 3 Suppl 1, S37-43		90
754	Infecçã de sítio cirúrgico em pacientes submetidos a artroplastias de quadril. 2002 , 10, 157-165		11
753	Methicillin-resistant <i>Staphylococcus aureus</i> infection in a cardiac surgical unit. 2002 , 123, 40-4		45
752	The risk factors for deep and superficial chest surgical-site infections after coronary artery bypass graft surgery are different. 2002 , 124, 136-45		163
751	Procalcitonin and neopterin as indicators of infection in critically ill patients. 2002 , 46, 398-404		78
750	Analysis of risk factors for nosocomial sepsis in surgical patients. 2000 , 87, 1076-81		19
749	[Incidence of surgical site infection in ambulatory surgery: results of the INCISCO surveillance network in 1999-2000]. 2002 , 127, 262-7		10
