

CITATION REPORT

List of articles citing

Right bundle branch block, persistent ST segment elevation and sudden cardiac death: a distinct clinical and electrocardiographic syndrome. A multicenter report

DOI: 10.1016/0735-1097(92)90253-j
Journal of the American College of Cardiology, 1992,
20, 1391-6.

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
