

CITATION REPORT

List of articles citing

Relationship between wind speed and gas exchange over the ocean

DOI: 10.1029/92jc00188

Journal of Geophysical Research, 1992, 97, 7373.

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

| 1639 | Preface. 2005 , xiii-xiii | |

1638 Atmospheric structure, composition, and thermodynamics. **2005**, 12-60 1

1637 The momentum equation in Cartesian and spherical coordinates. **2005**, 82-137

1636 Boundary-layer and surface processes. **2005**, 228-272 0

1635 Gas-phase species, chemical reactions, and reaction rates. **2005**, 336-356

1634 Urban, free-tropospheric, and stratospheric chemistry. **2005**, 357-417

1633 Methods of solving chemical ordinary differential equations. **2005**, 418-445

1632 Particle components, size distributions, and size structures. **2005**, 446-469

1631 Aerosol emission and nucleation. **2005**, 470-493 1

1630 Condensation, evaporation, deposition, and sublimation. **2005**, 525-552

1629 Cloud thermodynamics and dynamics. **2005**, 598-644

1628 Sedimentation, dry deposition, and air-sea exchange. **2005**, 661-680 2

1627 Model design, application, and testing. **2005**, 681-708 1

1626 Appendix A Conversions and constants. **2005**, 709-713

1625 Introduction. **2005**, 1-11 1

1624 The continuity and thermodynamic energy equations. **2005**, 61-81

1623 Vertical-coordinate conversions. **2005**, 138-168

1622 Numerical solutions to partial differential equations. **2005**, 169-203

1621 Finite-differencing the equations of atmospheric dynamics. **2005**, 204-227
