

# CITATION REPORT

List of articles citing

Innervation of lymphoid organs and implications in development, aging, and autoimmunity

DOI: 10.1016/0192-0561(92)90162-e  
International Journal of Immunopharmacology, 1992,  
14, 329-44.

**Source:** <https://exaly.com/paper-pdf/23571722/citation-report.pdf>

**Version:** 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
109	Noradrenergic and peptidergic innervation of lymphoid organs in the beluga, <i>Delphinapterus leucas</i> : an anatomical link between the nervous and immune systems. <b>1994</b> , 221, 243-59		30
108	Histopathology of the immune system as a tool to assess immunotoxicity. <b>1994</b> , 86, 187-212		59
107	Immunohistochemical detection of substance P and vasoactive intestinal peptide fibres in the auricular lymph nodes of sensitized guinea pigs and mice. <b>1994</b> , 96, 15-8		2
106	Immune System. <b>1995</b> , 555-590		6
105	Beta-adrenoceptor antagonist therapy in hyperthyroidism: effects on lymphocyte metabolic activity and the relation between aerobic and anaerobic metabolism in lymphocytes. <b>1995</b> , 251, 191-197		6
104	Neuroendocrinology and pathophysiology of the stress system. <b>1995</b> , 771, 1-18		348
103	Psychoneuroimmunology: interactions between the nervous system and the immune system. <b>1995</b> , 345, 99-103		576
102	Beta-blockade enhances adrenergic immunosuppression in rats via inhibition of melatonin release. <b>1996</b> , 67, 137-42		15
101	Diurnal rhythm in ornithine decarboxylase activity and noradrenergic and cholinergic markers in rat submaxillary lymph nodes. <b>1996</b> , 711, 153-62		25
100	Is the pretreatment effect of low dose Freund's adjuvant on adjuvant arthritis due to an activation of the nervous system?. <b>1996</b> , 30, 405-11		5
99	Differential effects of 2,3,7,8-tetrachlorodibenzo-p-dioxin, bis(tri-n-butyltin) oxide and cyclosporine on thymus histophysiology. <b>1997</b> , 27, 381-430		37
98	Effect of local autonomic denervation on in vitro responsiveness of lymphocytes from rat submaxillary lymph nodes. <b>1997</b> , 62, 155-62		3
97	Effect of pinealectomy, superior cervical ganglionectomy, or melatonin treatment on 24-hour rhythms in ornithine decarboxylase and tyrosine hydroxylase activities of rat spleen. <b>1997</b> , 22, 210-20		20
96	Influence of interleukin-6 on neural activity and transcription of the gene encoding corticotrophin-releasing factor in the rat brain: an effect depending upon the route of administration. <b>1997</b> , 9, 1461-72		42
95	Changes in neurotransmitters in multiple sclerosis. <b>1998</b> , 28, 341-4		48
94	Involvement of NGF in the induction of increased noradrenergic innervation of the ureter in neonatally capsaicin-treated rats. <b>1998</b> , 73, 46-53		7
93	The sympathetic nervous system tonically inhibits peripheral interleukin-1beta and interleukin-6 induction by central lipopolysaccharide. <b>1998</b> , 83, 1245-50		44

92	Immunoreactivity of neural crest-derived cells in thymic tissue developing under the rat kidney capsule. <b>1998</b> , 12, 163-80	13
91	Role of the brain in interleukin-6 modulation. <b>1998</b> , 5, 214-9	25
90	Fast acting nervous regulation of immunoglobulin A secretion from isolated perfused porcine ileum. <b>1999</b> , 45, 679-85	22
89	Effects of EDTA-induced hypocalcaemia and stress on plasma TNF-alpha, IL-1-ra, G-CSF, GM-CSF and S-100 in dairy cows. <b>1999</b> , 23, 299-306	2
88	Interactions between the sympathetic nervous system and the immune system. <b>1999</b> , 13, 271-8	34
87	Patients with systemic lupus erythematosus differ from healthy controls in their immunological response to acute psychological stress. <b>1999</b> , 13, 287-302	49
86	Neural immunoregulation: emerging roles for nerves in immune homeostasis and disease. <b>2000</b> , 21, 281-9	214
85	Acetylcholinesterase activity in rat thymus after immunostimulation with interleukin beta. <b>2000</b> , 182, 243-8	7
84	IL-4 and IFN-gamma up-regulate substance P receptor expression in murine peritoneal macrophages. <b>2000</b> , 165, 182-91	80
83	Neuroendocrine regulation of autoimmune/inflammatory disease. <b>2001</b> , 169, 429-35	229
82	Lymphoid Organs. <b>2001</b> , 198-231	
81	Expression of authentic substance P receptors in murine and human dendritic cells. <b>2001</b> , 114, 131-41	70
80	Effects of interleukin-2 on the expression of corticotropin-releasing hormone in nerves and lymphoid cells in secondary lymphoid organs from the Fischer 344 rat. <b>2001</b> , 119, 37-50	7
