

CITATION REPORT

List of articles citing

A simultaneous evaluation of 10 commonly used physical activity questionnaires

DOI: 10.1249/00005768-199301000-00012

Medicine and Science in Sports and Exercise, 1993, 25, 81-91.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1208	Social class and health behaviour in Danish adults: a longitudinal study. 1993 , 107, 251-60		63
1207	Accuracy of the College Alumnus Physical Activity Questionnaire. 1993 , 46, 1403-11		247
1206	Physical activity habits of African-American college students. 1994 , 65, 207-12		16
1205	Life-time occupational exposure to heavy work and individual physical capacity. 1994 , 14, 365-372		16
1204	Comprehensive evaluation of the Minnesota Leisure Time Physical Activity Questionnaire. 1994 , 47, 271-81		272
1203	Relation of leisure-time physical activity and cardiorespiratory fitness to the risk of acute myocardial infarction. 1994 , 330, 1549-54		619
1202	Associations of physical activity with performance-based and self-reported physical functioning in older men: the Honolulu Heart Program. 1995 , 43, 845-54		59
1201	Internal validity of the physical activity index over 26 years in middle-aged and older men. 1995 , 43, 999-1006	10	
1200	Assessment of ability to recall physical activity of several years ago. 1995 , 5, 292-6		99
1199	Relationship between Self-Reported and Physiological Indicators of Exercise Behavior in Older Women. 1996 , 4, 377-389		1
1198	Validation of a physical activity questionnaire in the elderly. 1996 , 74, 528-33		32
1197	Relationship between a 14-day recall measure of leisure-time physical activity and a submaximal test of physical work capacity in a population sample of Australian adults. 1996 , 67, 221-7		60
1196	Physical activity assessment: a review of methods. 1996 , 36, 385-96		123
1195	How much physical activity do we need to maintain health and prevent disease? Different diseases--different mechanisms. 1996 , 67, 209-12		9
1194	Relationship Between Exercise During Treatment and Current Quality of Life Among Survivors of Breast Cancer. 1997 , 15, 35-57		133
1193	Relationship between exercise pattern across the cancer experience and current quality of life in colorectal cancer survivors. 1997 , 3, 215-26		201
1192	An evaluation of the effectiveness of three interventions in promoting physical activity in a sedentary population. 1997 , 56, 154-165		30

1191	Feasibility of heart-rate monitoring to estimate total level and pattern of energy expenditure in a population-based epidemiological study: the Ely Young Cohort Feasibility Study 1994-5. 1997 , 78, 889-900	85
1190	Recent and past physical activity and prevalence of colorectal adenomas. 1997 , 75, 740-5	17
1189	Relative validity and repeatability of a new questionnaire on physical activity. 1997 , 26, 37-43	40
1188	Correlates of changes in leisure time physical activity over 2 years: the Healthy Worker Project. 1997 , 26, 570-9	56
1187	Physical activity protects against coronary death and deaths from all causes in middle-aged men. Evidence from a 20-year follow-up of the primary prevention study in GÖteborg. 1997 , 7, 69-75	178
1186	Physical activity, functional limitations, and the risk of fall-related fractures in community-dwelling elderly. 1997 , 7, 54-61	85
1185	Relationship between changes in physical activity and plasma insulin during a 2.5-year follow-up study. 1997 , 46, 1418-23	10
1184	Blood pressure, lipids, lipoproteins, body fat and physical activity of Singapore children. 1997 , 33, 484-90	15
1183	Physical activity and predisposition for hip fractures: a review. 1997 , 7, 503-13	92
1182	Methodological aspects of physical activity assessment in epidemiological studies. 1998 , 14, 63-70	47
1181	Physical activity and cancer etiology: associations and mechanisms. 1998 , 9, 487-509	204
1180	The Tromsø Study: physical activity and the incidence of fractures in a middle-aged population. 1998 , 13, 1149-57	70
1179	Physical activity and breast cancer. 1998 , 83, 611-620	54
1178	Efficacy of an individualized, motivationally-tailored physical activity intervention. 1998 , 20, 174-80	306
1177	Personality correlates of exercise behavior, motives, barriers and preferences: An application of the five-factor model. 1998 , 24, 625-633	173
1176	The relation between religiosity, selected health behaviors, and blood pressure among adult females. 1998 , 27, 545-52	42
1175	Predictors of referral to cardiac rehabilitation and cardiac exercise self-efficacy. 1998 , 7, 147-63	38
1174	The validation of physical activity instruments for measuring energy expenditure: problems and pitfalls. 1998 , 1, 265-71	89

1173	Relationships among the theory of planned behavior, stages of change, and exercise behavior in older persons over a three year period. 1998 , 13, 355-367	55
1172	Leisure-time physical activity and psychosocial well-being in adolescents after cancer diagnosis. 1999 , 16, 180-8	48
1171	Physical exercise and quality of life in postsurgical colorectal cancer patients. 1999 , 4, 181-187	47
1170	Self-efficacy and participation in vigorous physical activity by high school students. 1999 , 26, 12-24	57
1169	Physical exercise and quality of life following cancer diagnosis: a literature review. 1999 , 21, 171-9	289
1168	[Freiburg Questionnaire of physical activity--development, evaluation and application]. 1999 , 44, 55-64	178
1167	Diet and physical activity patterns of Lakota Indian adults. 1999 , 99, 829-35	32
1166	Utility of the theory of planned behavior for understanding exercise during breast cancer treatment. 1999 , 8, 112-22	123
1165	Associations between daily physical activity and physical fitness in Flemish males: A cross-sectional analysis. 1999 , 11, 587-597	14
1164	Does the Theory of Planned Behavior Mediate the Relation Between Personality and Exercise Behavior?. 1999 , 21, 317-324	107
