

CITATION REPORT

List of articles citing

Appearance of lit environment and its relevance in lighting design: Experimental study

DOI: 10.1177/096032719402600301

Lighting Research and Technology, 1994, 26, 119-133.

Source: <https://exaly.com/paper-pdf/24754073/citation-report.pdf>

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
116	The perception of lighting quality in a non-uniformly lit office environment. 1999 , 17, 476-484		6
115	Psychological Processes Influencing Lighting Quality. 2001 , 30, 124-140		100
114	Lighting quality recommendations for VDT offices: a new method of derivation. <i>Lighting Research and Technology</i> , 2001 , 33, 97-113	2	43
113	The Luminance Differences index: a new indicator of user preferences in daylit spaces. <i>Lighting Research and Technology</i> , 2002 , 34, 53-66	2	28
112	Perceived performance of daylighting systems: lighting efficacy and agreeableness. 2002 , 73, 83-94		34
111	A qualitative study of occupant controlled office lighting. <i>Lighting Research and Technology</i> , 2003 , 35, 297-314	2	8
110	A STUDY ON THE REPRODUCIBILITY OF BRIGHTNESS IN THE VIRTUAL REALITY SYSTEM : Focusing on the luminance adaptation and background luminance(Information Systems Technology). 2003 , 9, 383-386		
109	Task Lighting Effects on Office Worker Satisfaction and Performance, and Energy Efficiency. <i>LEUKOS - Journal of Illuminating Engineering Society of North America</i> , 2005 , 1, 7-26	3.5	4
108	The difference among generations in evaluating interior lighting environment. 2005 , 24, 87-91		5
107	"Impression of Brightness of a Space" Judged by Information from the Entire Space. 2005 , 29, 123-134		6
106	Lighting quality research using rendered images of offices. <i>Lighting Research and Technology</i> , 2005 , 37, 93-112	2	35
105	The Effect of Adaptation Levels and Daylight Glare on Office Workers' Perception of Lighting Quality in Open Plan Offices. 2005 , 48, 229-237		1
104	Occupant use of switching and dimming controls in offices. <i>Lighting Research and Technology</i> , 2006 , 38, 358-376	2	96
103	Scoping Study for Daylight Metrics from Luminance Maps. <i>LEUKOS - Journal of Illuminating Engineering Society of North America</i> , 2007 , 3, 201-215	3.5	13
102	A study on subjective preference to daylit residential indoor environment using conjoint analysis. <i>Building and Environment</i> , 2008 , 43, 2101-2111	6.5	31
101	Width or Height? Which has the Strongest Impact on the Size Impression of Rooms? Results from Full-Scale Studies and Computer Simulations. 2008 , 51, 165-172		8
100	Energy efficiency in lighting : considerations and possibilities. <i>Lighting Research and Technology</i> , 2009 , 41, 209-218	2	25

99	A camera as a sensor for lighting and shading control. <i>Lighting Research and Technology</i> , 2009 , 41, 143-163	46
98	Towards the third stage of the lighting profession. <i>Lighting Research and Technology</i> , 2010 , 42, 73-93	2 69
97	On the calibration of high dynamic range photography for luminance measurements in indoor daylit scenes. 2011 , 54, 39-49	1
96	Lighting in offices: lamp spectrum and brightness. 2011 , 127, 114-120	14
95	Predicting lamp spectrum effects at mesopic levels. Part 1: Spatial brightness. <i>Lighting Research and Technology</i> , 2011 , 43, 143-157	2 48
