

CITATION REPORT

List of articles citing

Development and validation of swine embryonic stem cells: a review

DOI: 10.1071/rd9940563

Reproduction, Fertility and Development, 1994, 6, 563-8.

Source: <https://exaly.com/paper-pdf/24828355/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
140	Studies of in vitro differentiation with embryonic stem cells. <i>Reproduction, Fertility and Development</i> , 1994 , 6, 543-52	1.8	39
139	Systems for production of calves from cultured bovine embryonic cells. <i>Reproduction, Fertility and Development</i> , 1994 , 6, 553-62	1.8	47
138	Progress and emerging problems in livestock transgenesis: a summary perspective. <i>Reproduction, Fertility and Development</i> , 1994 , 6, 653-7	1.8	7
137	Transgenic livestock as genetic models of human disease. <i>Reproduction, Fertility and Development</i> , 1994 , 6, 643-5	1.8	25
136	Site-specific transgene insertion: an approach. <i>Reproduction, Fertility and Development</i> , 1994 , 6, 585-8	1.8	8
135	Isolation of embryonic cell-lines from porcine blastocysts. <i>Animal Biotechnology</i> , 1995 , 6, 1-14	1.4	45
134	Contributions to somatic and germline lineages of chicken blastodermal cells maintained in culture. 1996 , 45, 291-8		43
133	Identification, isolation and culture of pluripotent cells from the porcine inner cell mass. 1996 , 113, 427-436		7
132	Recombinant protein production in transgenic animals. 1996 , 7, 536-40		46
131	Selective ablation of differentiated cells permits isolation of embryonic stem cell lines from murine embryos with a non-permissive genetic background. 1996 , 14, 223-6		107
130	The origin of the avian germ line and transgenesis in birds. 1997 , 76, 1084-92		19
129	Human factor IX transgenic sheep produced by transfer of nuclei from transfected fetal fibroblasts. 1997 , 278, 2130-3		714
128	Transgenic dairy cattle: genetic engineering on a large scale. 1997 , 80, 2213-24		102
127	Recent advances in transgenic technology. 1997 , 7, 253-65		5
126	Modification and repression of genes expressed in the mammary gland using gene targeting and other technologies. 1998 , 3, 351-62		2
125	Genetic engineering in the pig. Gene knockout and alternative techniques. 1998 , 862, 28-36		5
124	Derivation of pluripotent stem cells from cultured human primordial germ cells. 1998 , 95, 13726-31		1137

123	Cloning sheep from cultured embryonic cells. <i>Reproduction, Fertility and Development</i> , 1998 , 10, 615-26	1.8	23
122	EXPRESSION OF RECOMBINANT PROTEINS IN THE MILK OF TRANSGENIC ANIMALS. 1999 , 399-427		9
121	Use of embryonic and somatic cells for production of transgenic domestic animals. 1999 , 1, 73-87		12
120	Building brains: neural chimeras in the study of nervous system development and repair. 1999 , 9, 527-45		35
119	Embryonic stem cell differentiation models: cardiogenesis, myogenesis, neurogenesis, epithelial and vascular smooth muscle cell differentiation in vitro. <i>Cytotechnology</i> , 1999 , 30, 211-26	2.2	77
118	Emerging strategies for enhancing growth: is there a biotechnology better than somatotropin?. 1999 , 17, 171-9		8
117	Establishment of pluripotent cell lines from porcine preimplantation embryos. <i>Theriogenology</i> , 1999 , 52, 195-212	2.8	131
