Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2303	A comparison of neural ICA algorithms using real-world data.		
2302	Non-contact, automated cardiac pulse measurements using video imaging and blind source separation.. 2010 , 18, 10762		
2301	Non-contact, automated cardiac pulse measurements using video imaging and blind source separation.. 2010 , 18, 10762		
2300	Non-contact, automated cardiac pulse measurements using video imaging and blind source separation.. 2010 , 18, 10762		
2299	Effects of ICA on the estimation of fractal sources.		1
2298	Spatio-temporal processing for distant speech recognition.		
2297	Blind separation of biosignals by a novel ICA algorithm based on information theory.		
2296	Bayesian Ying-Yang harmony learning, information theory and information geometry.		
2295	Two approaches to estimation of overcomplete independent component bases.		
2294	Modeling CMOS gate characteristics using independent component analysis.		1
2293	The least statistically-dependent basis and its applications.		2
2292	Criteria for blind deconvolution of multichannel linear time-invariant systems.		5
2291	.		1
2290	.		24
2289	Blind adaptive separation of wide-band sources.		
2288	Equivariant algorithms for selective transmission.		
2287	A new feed forward multilevel and spectrum difference separation BSS denoising method.		

2286	Dimensionality reduction of face images for gender classification.	6
2285	Neural blind separation of complex sources by extended APEX algorithm (EAPEX).	1
2284	Acceleration Accuracy: Analyses of High-Speed Camera Film. 1956 , 65, 96-99	1
2283	A 16-Kilobit CCD Memory. 1976 ,	
2282	A Unified Approach for a TV Graphics Animation Suite. 1991 , 100, 691-694	1
2281	.	
2280	.	8
2279	. 1993 , 39, 504-519	198
2278	High resolution time-scale & time-frequency representations based on hos.	
2277	Blind identification of a linear-quadratic mixture: application to quadratic phase coupling estimation.	4
2276	.	35
2275	.	1
2274	.	25
2273	. 1993 , 41, 2461-2470	129
2272	.	2
2271	.	1
2270	.	3
2269	.	1

2267	.			22
2266	.	1994 , 42, 898-913		103
2265	.	1994 , 42, 2158-2168		111
2264		Trends in spectral analysis: higher order and cyclic statistics. 1995 ,		
2263		Generalizations of principal component analysis, optimization problems, and neural networks. 1995 , 8, 549-562		182
2262		Adaptive blind separation of independent sources: A deflation approach. <i>Signal Processing</i> , 1995 , 45, 59-83	4.4	360
2261		Separation of sources: A geometry-based procedure for reconstruction of n-valued signals. <i>Signal Processing</i> , 1995 , 46, 267-284	4.4	30
2260		Cumulant-based autocorrelation estimates of non-Gaussian linear processes. <i>Signal Processing</i> , 1995 , 47, 1-17	4.4	6
2259		An information-maximization approach to blind separation and blind deconvolution. 1995 , 7, 1129-59		5872
2258		Blind separation and blind deconvolution: an information-theoretic approach.		19
2257		Blind separation of wide-band sources in the frequency domain.		29
2256	.	1995 , 42, 65-77		19
2255		Nonlinear PCA type approaches for source separation and independent component analysis.		18
2254		A bigradient optimization approach for robust PCA, MCA, and source separation.		14
2253		On local convergence of a class of blind separation algorithms. 1995 , 43, 3054-3058		9
2252		Redundancy reduction with information-preserving nonlinear maps. 1995 , 6, 61-72		16
2251	.	1995 , 43, 2022-2025		37

2250	Multichannel signal separation: methods and analysis. 1996 , 44, 106-118	86
2249	. 1996 , 44, 562-571	143
2248	A direct solution for blind separation of sources. 1996 , 44, 746-748	19
2247	Blind separation of instantaneous mixture of sources via an independent component analysis. 1996 , 44, 2768-2779	99
2246	Equivariant adaptive source separation. 1996 , 44, 3017-3030	746
2245	Blind separation of convolved sources based on information maximization.	62
2244	Fourth-order cumulant based blind source separation. 1996 , 3, 312-314	16
2243	Contrasts for multichannel blind deconvolution. 1996 , 3, 209-211	86
2242	Independent component analysis, a survey of some algebraic methods.	17
2241	. 1996 , 13, 24-49	89
2240	Robust neural networks with on-line learning for blind identification and blind separation of sources. 1996 , 43, 894-906	135
2239	Blind separation of delayed sources based on information maximization.	32
2238	On blind separation of convolutive mixtures of independent linear signals.	10
2237	Blind source separation of convolutive mixtures.	2
2236	Independent component analysis based on higher-order statistics only.	19
2235	Multichannel blind signal deconvolution using high order statistics.	5
2234	Higher Order Cumulant Maximisation using Non-linear Hebbian and Anti-Hebbian Learning for Adaptive Blind Separation of Source Signals. 1996 , 141-144	3
2233	An Objective Function for Independence.	4

2232	A neuron that learns to separate one signal from a mixture of independent sources.	1
2231	Spatiotemporal signal processing for blind separation of multichannel signals. 1996,	5
2230	Blind multi-channel system identification and deconvolution: performance bounds.	7
2229	A temporal model of linear anti-Hebbian learning. 1996, 4, 139-148	18
2228	An information theory based learning paradigm for linear feature extraction. 1996, 12, 203-221	4
2227	Decomposition of quantics in sums of powers of linear forms. <i>Signal Processing, 1996, 53,</i> 93-107	4.4 116
2226	Simultaneous spatial separation and direction-of-arrival estimation of wideband sources using bootstrapped algorithms. 1996, 43, 316-328	1
2225	On optimal source separation based on second and fourth order cumulants.	13
2224	A stochastic natural gradient descent algorithm for blind signal separation.	1
2223	Blind identification of a linear-quadratic mixture of independent components based on joint diagonalization procedure. 1996,	12
2222	New geometrical approach for blind separation of sources mapped to a neural network.	
2221	A unified algorithm for blind separation of independent sources.	2
2220	Extended anti-Hebbian adaptation for unsupervised source extraction.	3
2219	Conditions on source signals for blind separation.	
2218	Learning the higher-order structure of a natural sound. 1996, 7, 261-266	46
2217	On the performance output cumulant matching based source separation methods in noise.	0
2216	Blind equalization of multichannel IIR system using second order statistics.	3
2215	Second order blind equalization in multiple input multiple output FIR systems: a weighted least squares approach.	29

2214	An unconstrained single stage criterion for blind source separation.	1
2213	Blind separation of convolutive mixtures using second and fourth order moments.	7
2212	Local feature analysis: a general statistical theory for object representation. 1996 , 7, 477-500	113
2211	Statistical Independence and Novelty Detection with Information Preserving Nonlinear Maps. 1996 , 8, 260-269	93
2210	Blind signal processing: an introduction.	3
2209	Stochastic ICA contrast maximisation using OJA's nonlinear PCA algorithm. 1997 , 8, 661-78	15
2208	Analytical method for blind binary signal separation.	
2207	Redundancy Reduction and Independent Component Analysis: Conditions on Cumulants and Adaptive Approaches. 1997 , 9, 1421-1456	25
2206	Adaptive separation of an unknown number of sources.	2
2205	Blind source separation of nonlinear mixing models.	6
2204	Near-field localization using inverse filter criteria-based blind separation and cumulant matching.	1
2203	On the direct estimation of the Wiener beamformer using second and fourth order cumulants.	0
2202	Foetal ECG separation. 1997 ,	2
2201	Pre-filtering non-stationary signals to improve blind source separation.	0
2200	Robust PCA based on neural networks.	7
2199	Blind equalization of switching channels by ICA and learning of learning rate.	
2198	A contextual blind separation of delayed and convolved sources.	3
2197	Algorithms for blind signal separation and recovery in static and dynamic environments.	5

2196	Blind signal separation revisited.	
2195	New formulation of the carrier phase tracking problem.	
2194	Unsupervised learning for blind source separation: an information-theoretic approach.	0
2193	Applications of neural blind separation to signal and image processing.	37
2192	A first application of independent component analysis to extracting structure from stock returns. 1997, 8, 473-84	158
2191	On-line tracking for blind source separation using zero-point probability. 1997,	
2190	Blind methods for interference cancellation in array processing.	2
2189	Generalized contrasts for multichannel blind deconvolution of linear systems. 1997, 4, 182-183	46
2188	Least-squares methods for blind source separation based on nonlinear PCA. 1997, 8, 601-12	20
2187	Blind separation of auditory event-related brain responses into independent components. 1997, 94, 10979-84	887
2186	Blind separation of convolutive mixtures: a Gauss-Newton algorithm.	1
2185	An iterative blind source separation technique: implementation and performance.	0
2184	Blind source separation using joint signal representations for arbitrary variables. 1997,	1
2183	Extracting structure from Wake EEG using neural networks. 1997,	
2182	Mixed acoustic events classification using ICA and subspace classifier.	3
2181	Application of the MEC network to principal component analysis and source separation. 1997, 571-576	5
2180	From neural principal components to neural independent components. 1997, 517-528	2
2179	Entropy optimization. 1997, 529-534	9

2178	Improving the performance of infomax using statistical signal processing techniques. 1997 , 535-540	1
2177	Semi-blind source parameter separation. 1997 , 577-582	1
2176	Blind separation of surface EMG signals.	
2175	Hippocampal formation trains independent components via forcing input reconstruction. 1997 , 163-168	
2174	Learning as Extraction of Low-Dimensional Representations. 1997 , 36, 353-380	17
2173	Maximum likelihood for blind separation and deconvolution of noisy signals using mixture models.	59
2172	Blind source separation of real world signals.	46
2171	Self-organizing algorithm of robust PCA based on single-layer NN.	
2170	Local independent component analysis by the self-organizing map. 1997 , 553-558	1
2169	Higher order blind source separation using the cyclostationarity property of the signals.	7
2168	Blind unitary source separation using a multidimensional phase-locked loop.	
2167	A block algorithm for blind signal deconvolution.	2
2166	Blind source separation and tracking using nonlinear PCA criterion: a least-squares approach.	6
2165	Bayesian Ying-Yang learning based ICA models.	3
2164	Separation of sinusoidal sources.	
2163	A network structure approach to blind source separation using second order cyclic statistics.	
2162	A new least squares approach to blind beamforming.	3
2161	Independence/decorrelation measures with applications to optimized orthonormal representations.	3

2160	A least-squares approach to joint diagonalization. 1997 , 4, 52-53	59
2159	Estimating equations for source separation.	6
2158	Blind source separation using time-frequency distributions: algorithm and asymptotic performance.	8
2157	A test statistic for sequential identification of co-channel digital signals using a deflation approach.	1
2156	Multi-stage receiver for multipath and interference suppression in multi-user CDMA.	
2155	Blind source separation and deconvolution by dynamic component analysis.	5
2154	Interference mitigation in spread spectrum communications using blind source separation.	0
2153	Sequential approach to blind source separation using second order statistics.	8
2152	Behaviour of higher order blind source separation methods in the presence of cyclostationary correlated multipaths.	3
2151	Subspace-based techniques for blind separation of convolutive mixtures with temporally correlated sources. 1997 , 44, 813-820	90
2150	Narrow band source separation in wide band context applications to array signal processing.	0
2149	Performance analysis of a CMA-based adaptive multiuser detector.	3
2148	Maximizing the information transfer for adaptive unsupervised source separation.	8
2147	One-unit contrast functions for independent component analysis: a statistical analysis.	31
2146	Compression of generalised Gaussian sources. 1997 ,	
2145	On the relationship between blind deconvolution and blind source separation.	5
2144	Information backpropagation for blind separation of sources in nonlinear mixture.	4
2143	Separation of narrowband digital communication signals: a maximum likelihood approach.	1

2142 Blind source separation with noisy sources.

2141 Blind source separation: are information maximization and redundancy minimization different?. 0

2140 Towards non symmetrical optimal source separation contrasts. 1

2139 Dimensionality reduction in higher-order-only ICA. 9

2138 Blind EGG separation using ICA neural networks.

2137 Parallel bit-stream neurohardware for blind separation of sources. 1

2136 A fast sequential source separation algorithm for digital cochannel signals. **1997**, 4, 58-61 7

2135 A fast algorithm for the blind separation of digital co-channel signals. 1

2134 Neural network based processing for smart sensors arrays. **1997**, 565-570 3

2133 Blind system identification. **1997**, 85, 1310-1322 187

2132 Identification and deconvolution of multichannel linear non-Gaussian processes using higher order statistics and inverse filter criteria. **1997**, 45, 658-672 154

2131 Self-adaptive source separation .I. Convergence analysis of a direct linear network controlled by the Herault-Jutten algorithm. **1997**, 45, 918-926 17

2130 Analytical method for blind binary signal separation. **1997**, 45, 1078-1082 60

2129 A blind signal separation method for multiuser communications. **1997**, 45, 1343-1348 54

2128 Normal bases expansion of the discrete cosine transform. **1997**, 45, 1348-1350 1

2127 Blind separation of mixture of independent sources through a quasi-maximum likelihood approach. **1997**, 45, 1712-1725 276

2126 Blind carrier phase tracking with guaranteed global convergence. **1997**, 45, 1889-1894 13

2125 Matrix fitting approach to direction of arrival estimation with imperfect spatial coherence of wavefronts. **1997**, 45, 1894-1899 63

2124	Applications of cumulants to array processing. III. Blind beamforming for coherent signals. 1997 , 45, 2252-2264	39
2123	Blind source separation-semiparametric statistical approach. 1997 , 45, 2692-2700	140
2122	Neural networks for blind decorrelation of signals. 1997 , 45, 2829-2842	47
2121	Source separation when the input sources are discrete or have constant modulus. 1997 , 45, 3062-3072	17
2120	Multichannel blind signal separation and reconstruction. 1997 , 5, 515-528	24
2119	A class of neural networks for independent component analysis. 1997 , 8, 486-504	228
2118	Generalised independent component analysis through unsupervised learning with emergent Bussgang properties.	8
2117	The "independent components" of natural scenes are edge filters. 1997 , 37, 3327-38	1395
2116	Sparse coding with an overcomplete basis set: a strategy employed by V1?. 1997 , 37, 3311-25	2196
2115	Adaptive Online Learning Algorithms for Blind Separation: Maximum Entropy and Minimum Mutual Information. 1997 , 9, 1457-1482	197
2114	Infomax and maximum likelihood for blind source separation. 1997 , 4, 112-114	417
2113	A family of fixed-point algorithms for independent component analysis.	53
2112	A neural network approach to blind source separation.	2
2111	Performance of contrast-based blind source separation.	11
2110	The nonlinear PCA learning rule in independent component analysis. 1997 , 17, 25-45	151
2109	Extraction of independent signal sources using a deflationary exploratory projection pursuit network with lateral inhibition. 1997 , 144, 299	25
2108	A subspace algorithm for certain blind identification problems. 1997 , 43, 499-511	158
2107	A hyperplane-based algorithm for the digital co-channel communications problem. 1997 , 43, 1536-1548	14

2106	Extraction of ocular artefacts from EEG using independent component analysis. 1997 , 103, 395-404	454
2105	A Fast Fixed-Point Algorithm for Independent Component Analysis. 1997 , 9, 1483-1492	2105
2104	. 1997 , 45, 434-444	1621
2103	Stability Analysis of Learning Algorithms for Blind Source Separation. 1997 , 10, 1345-1351	192
2102	An extended exploratory projection pursuit network with linear and nonlinear anti-hebbian lateral connections applied to the cocktail party problem. 1997 , 10, 1607-1618	18
2101	Bibliography on higher-order statistics. <i>Signal Processing</i> , 1997 , 60, 65-126	4.4 66
2100	Nonlinear independent component analysis and multivariate time series analysis. 1997 , 108, 335-349	8
2099	Retinal neurocomputing principles for real time track identification. 1997 , 389, 258-263	
2098	Selection of relevant features and examples in machine learning. 1997 , 97, 245-271	1946
2097	The Latent Variable Data Model for Exploratory Data Analysis and Visualisation: A Generalisation of the Nonlinear Infomax Algorithm. 1998 , 8, 27-39	3
2096	On the Use of Spatial Time Frequency Distributions for Signal Extraction. 1998 , 9, 349-354	2
2095	Neural net approach for blind separation of sources based on geometric properties. 1998 , 18, 141-164	30
2094	Developments of the generative topographic mapping. 1998 , 21, 203-224	134
2093	The nonlinear PCA criterion in blind source separation: Relations with other approaches. 1998 , 22, 5-20	65
2092	Blind source separation using algorithmic information theory. 1998 , 22, 35-48	34
2091	Independent component analysis in the presence of Gaussian noise by maximizing joint likelihood. 1998 , 22, 49-67	100
2090	Learned parametric mixture based ICA algorithm. 1998 , 22, 69-80	51
2089	Bayesian Kullback YingYang dependence reduction theory. 1998 , 22, 81-111	28

2088	Robust techniques for independent component analysis (ICA) with noisy data. 1998 , 22, 113-129		57
2087	Searching for a binary factorial code using the ICA framework. 1998 , 22, 131-144		
2086	A method of blind separation for convolved non-stationary signals. 1998 , 22, 157-171		71
2085	Removing artifacts from electrocardiographic signals using independent components analysis. 1998 , 22, 173-186		120
2084	From neural learning to independent components. 1998 , 22, 187-199		8
2083	Independent component analysis: source assessment and separation, a Bayesian approach. 1998 , 145, 149		45
2082	Model-free analysis of mixtures by NMR using blind source separation. 1998 , 133, 358-63		43
2081	Analysis of fMRI data by blind separation into independent spatial components. 1998 , 6, 160-88		1334
2080	Independent component analysis of fMRI data: examining the assumptions. 1998 , 6, 368-72		355
2079	Forming independent components via temporal locking of reconstruction architectures: a functional model of the hippocampus. 1998 , 79, 263-75		13
2078	The smart antennas at Thomson-Csf Communications: concepts, implementations, performances and applications. 1998 , 53, 466-482		4
2077	Principal component neural networks □Theory and applications. 1998 , 1, 74-75		5
2076	Separation of real-world signals. <i>Signal Processing</i> , 1998 , 64, 103-113	4.4	13
2075	Information□theoretic approach to blind separation of sources in non-linear mixture. <i>Signal Processing</i> , 1998 , 64, 291-300	4.4	107
2074	Independent component analysis by general nonlinear Hebbian-like learning rules. <i>Signal Processing</i> , 1998 , 64, 301-313	4.4	161
2073	A neural learning algorithm for blind separation of sources based on geometric properties. <i>Signal Processing</i> , 1998 , 64, 315-331	4.4	22
2072	Estimation of time delays between unknown colored signals. <i>Signal Processing</i> , 1998 , 69, 93-100	4.4	13
2071	On-line blind equalization via on-line blind separation. <i>Signal Processing</i> , 1998 , 68, 271-281	4.4	17

2070	A fast algorithm for blind separation of sources based on the cross-cumulant and Levenberg-Marquardt method.	
2069	Blind signal separation: statistical principles. 1998 , 86, 2009-2025	990
2068	Algebraic methods for deterministic blind beamforming. 1998 , 86, 1987-2008	108
2067	Modelling signals of arbitrary kurtosis for testing BSS methods. 1998 , 34, 29	3
2066	Speech separation by kurtosis maximization.	19
2065	Novel scheme for blind symbol separation in CDMA downlink.	5
2064	Statistical inference: learning in artificial neural networks. 1998 , 2, 4-10	8
2063	Soft decision feedback receiver for CDMA communication in multipath.	
2062	An adaptive robust PCA neural network.	2
2061	Learning algorithms for blind multiuser detection in CDMA downlink.	13
2060	Gradient adaptation under unit-norm constraints.	6
2059	Feature space embeddings for extracting structure from single channel wake EEG using RBF networks.	2
2058	Natural Gradient Works Efficiently in Learning. 1998 , 10, 251-276	1330
2057	Adaptive unsupervised extraction of one component of a linear mixture with a single neuron. 1998 , 9, 123-38	18
2056	Flexible independent component analysis.	6
2055	Noisy independent component analysis, maximum likelihood estimation, and competitive learning.	3
2054	Blind deconvolution/equalization using state-space models.	3
2053	Information maximization and independent component analysis; is there a difference?. 1998 , 10, 2085-101	22

2052 Kuicnet Algorithms for Blind Deconvolution. **1998**,

2051 Direct blind separation of independent non-Gaussian signals with dynamic channels. 4

2050 . 2

2049 What drives stock returns?-an independent component analysis. 0

2048 Dynamic behavior of the whitening process. **1998**, 5, 25-26 7

2047 Multidimensional independent component analysis. 139

2046 Blind equalization: direct estimation of a zero-forcing equalizer.

2045 Image feature extraction by sparse coding and independent component analysis. 26

2044 Independent component analysis of natural image sequences yields spatio-temporal filters similar to simple cells in primary visual cortex. **1998**, 265, 2315-20 225

2043 Adaptive algorithms for channel equalization with soft decision feedback. **1998**, 16, 1660-1669 11

2042 Blind multiuser detection using linear prediction. **1998**, 16, 1702-1710 11

2041 Neural networks for intelligent multimedia processing. **1998**, 86, 1244-1272 36
