

CITATION REPORT

List of articles citing

The response-to-retention hypothesis of early atherogenesis

DOI: 10.1161/01.atv.15.5.551

Arteriosclerosis, Thrombosis, and Vascular Biology,
1995, 15, 551-61.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1124	Structure Imaging of Cadmium Telluride. 1980 , 38, 168-169		2
1123	Cellular Cholesterol Metabolism in Health and Disease. 1992 , 414-431		
1122	Modified low density lipoprotein and cytokines mediate monocyte adhesion to smooth muscle cells. <i>Atherosclerosis</i> , 1996 , 127, 167-76	3.1	43
1121	Transfer of low density lipoprotein into the arterial wall and risk of atherosclerosis. <i>Atherosclerosis</i> , 1996 , 123, 1-15	3.1	139
1120	Effect of olive and sunflower oils on low density lipoprotein level, composition, size, oxidation and interaction with arterial proteoglycans. <i>Atherosclerosis</i> , 1996 , 125, 243-55	3.1	42
1119	Metabolic effects of the menopause and oestrogen replacement. 1996 , 10, 449-67		8
1118	Atherosclerosis and the vascular biology of aging. 1996 , 8, 221-34		28
1117	Increased coronary heart disease in Japanese-American men with mutation in the cholesteryl ester transfer protein gene despite increased HDL levels. 1996 , 97, 2917-23		456
1116	Resistance of lipoprotein(a) to lipid peroxidation induced by oxygenated free radicals produced by gamma radiolysis: a comparison with low-density lipoprotein. 1996 , 314 (Pt 1), 277-84		12
1115	Binding of human phospholipase A2 type II to proteoglycans. Differential effect of glycosaminoglycans on enzyme activity. 1996 , 271, 26307-14		74
1114	Zn ²⁺ -stimulated sphingomyelinase is secreted by many cell types and is a product of the acid sphingomyelinase gene. 1996 , 271, 18431-6		234
1113	Premature atherosclerosis in patients with familial chylomicronemia caused by mutations in the lipoprotein lipase gene. 1996 , 335, 848-54		256
1112	A novel technique for mapping the lipid composition of atherosclerotic fatty streaks by en face fluorescence microscopy. 1997 , 45, 743-53		38
1111	Chapter 10. Emerging Opportunities in the Treatment of Atherosclerosis. 1997 , 32, 101-110		2
1110	Primary prevention of coronary heart disease. What has WOSCOPS told us and what questions remain? West Of Scotland Coronary Prevention Study. 1997 , 54, 1-8		155
1109	Ten-year follow-up results from the Goettingen Risk, Incidence and Prevalence Study (GRIPS). I. Risk factors for myocardial infarction in a cohort of 5790 men. <i>Atherosclerosis</i> , 1997 , 129, 221-30	3.1	87
1108	Potential involvement of type II phospholipase A2 in atherosclerosis. <i>Atherosclerosis</i> , 1997 , 132, 1-8	3.1	63

1107	Elevated expression of proteoglycans in proliferating vascular smooth muscle cells. <i>Atherosclerosis</i> , 1997 , 135, 171-9	3.1	29
1106	Is there a role for 15-lipoxygenase in atherogenesis?. 1997 , 54, 953-9		35
1105	Cholesterol deposition in atherosclerotic lesions. 1997 , 28, 319-62		18
1104	Smooth muscle migration in vascular development and pathogenesis. 1997 , 5, 255-60		26
1103	Differences in the distribution of versican, decorin, and biglycan in atherosclerotic human coronary arteries. 1997 , 6, 271-8		58
1102	The degradation of apolipoprotein B100 is mediated by the ubiquitin-proteasome pathway and involves heat shock protein 70. 1997 , 272, 20427-34		242
1101	Endothelial dysfunction: does it matter? Is it reversible?. 1997 , 30, 325-33		535
1100	Estrogen-stimulated transcytosis of desialylated ligands and alpha2 macroglobulin in rat liver. 1997 , 1359, 48-58		7
1099	Automated measurement of mouse apolipoprotein B: convenient screening tool for mouse models of atherosclerosis. 1997 , 43, 669-674		9
1098	Cholesteryl ester transfer protein and atherogenesis. 1997 , 811, 178-82; discussion 182-4		13
1097	Free cholesterol-induced cytotoxicity a possible contributing factor to macrophage foam cell necrosis in advanced atherosclerotic lesions. 1997 , 7, 256-63		62
1096	Interactions between macrophages and oxidized low density lipoprotein in the presence of type I collagen. 1997 , 6, 131-8		1
1095	Antioxidants and atherogenesis. 1998 , 9, 424-445		53
1094	Structural and metabolic consequences of liposome-lipoprotein interactions. 1998 , 32, 31-43		40
1093	Compound heterozygosity for frameshift mutations in the gene for lipoprotein lipase in a patient with early-onset chylomicronemia. 1998 , Suppl 1, S141-4		4
1092	Histologic characteristics of coronary artery in relation to the renovasculopathies of hypertension. 1998 , 2, 159-66		13
1091	Human chondroitin 6-sulfotransferase: cloning, gene structure, and chromosomal localization. 1998 , 1407, 92-7		23
1090	Cholesterol mobilization and regression of atheroma in cholesterol-fed rabbits induced by large unilamellar vesicles. 1998 , 1368, 306-20		43

1089	Plasma lipid transfer proteins, high-density lipoproteins, and reverse cholesterol transport. 1998 , 18, 297-330		222
1088	Changes in distribution of glycosaminoglycans during the progression of cholesterol induced atherosclerosis in Japanese quail. <i>Atherosclerosis</i> , 1998 , 137, 63-70	3.1	14
1087	Association of apo B lipoproteins with arterial proteoglycans: pathological significance and molecular basis. <i>Atherosclerosis</i> , 1998 , 139, 205-22	3.1	272
1086	Adsorption of fibrinogen to droplets of liquid hydrophobic phases. Functionality of the bound protein and biological implications. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 1948-57	9.4	30
1085	Comparison of apolipoprotein and proteoglycan deposits in human coronary atherosclerotic plaques: colocalization of biglycan with apolipoproteins. 1998 , 98, 519-27		247
1084	Sphingomyelinase induces aggregation and fusion, but phospholipase A2 only aggregation, of low density lipoprotein (LDL) particles. Two distinct mechanisms leading to increased binding strength of LDL to human aortic proteoglycans. 1998 , 273, 29127-34		105
1083	The cellular trafficking and zinc dependence of secretory and lysosomal sphingomyelinase, two products of the acid sphingomyelinase gene. 1998 , 273, 18250-9		187
1082	Plasma lipids and vascular dysfunction in preeclampsia. 1998 , 16, 33-9		78
1081	The atherogenic significance of an elevated plasma triglyceride level. 1998 , 35, 489-516		29
1080	Proliferation and the monoclonal origins of atherosclerotic lesions. 1998 , 49, 437-60		112
1079	Human monocyte-derived macrophages secrete two forms of proteoglycan-macrophage colony-stimulating factor that differ in their ability to bind low density lipoproteins. 1998 , 273, 15985-92		35
1078	Secretory sphingomyelinase, a product of the acid sphingomyelinase gene, can hydrolyze atherogenic lipoproteins at neutral pH. Implications for atherosclerotic lesion development. 1998 , 273, 2738-46		258
1077	Sphingolipids in atherosclerosis and vascular biology. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 1523-33	9.4	202
1076	Human vascular endothelial cells are a rich and regulatable source of secretory sphingomyelinase. Implications for early atherogenesis and ceramide-mediated cell signaling. 1998 , 273, 4081-8		196
1075	Dietary antioxidants do not reduce fatty streak formation in the C57BL/6 mouse atherosclerosis model. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 114-9	9.4	28
1074	Age-related changes in populations of aortic glycosaminoglycans: species with low affinity for plasma low-density lipoproteins, and not species with high affinity, are preferentially affected. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 604-14	9.4	44
1073	Ultrastructural localization of secretory type II phospholipase A2 in atherosclerotic and nonatherosclerotic regions of human arteries. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 519-25	9.4	69
1072	Phospholipase A2 type II binds to extracellular matrix biglycan: modulation of its activity on LDL by colocalization in glycosaminoglycan matrixes. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 1934-41	9.4	49

1071	Apolipoprotein B and coronary artery disease in women: a cross-sectional study in women undergoing their first coronary angiography. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 1101-7	9.4	56
1070	Direct assessment of lipoprotein outflow from in vivo-labeled arterial tissue as determined in an in vitro perfusion system. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1998 , 18, 1927-33	9.4	4
1069	Estrogens modulate bovine vascular endothelial cell permeability and HSP 25 expression concomitantly. 1998 , 275, H1011-5		4
1068	Genetic background determines the extent of atherosclerosis in ApoE-deficient mice. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1999 , 19, 1960-8	9.4	152
1067	The intima : A new soil. <i>Circulation Research</i> , 1999 , 85, 877-9	15.7	44
1066	Distinct patterns of transforming growth factor-beta isoform and receptor expression in human atherosclerotic lesions. Colocalization implicates TGF-beta in fibrofatty lesion development. 1999 , 99, 2883-91		144
1065	Detection, quantification, and characterization of potentially atherogenic triglyceride-rich remnant lipoproteins. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1999 , 19, 2474-86	9.4	133
1064	Oxidized low density lipoprotein: atherogenic and proinflammatory characteristics during macrophage foam cell formation. An inhibitory role for nutritional antioxidants and serum paraoxonase. 1999 , 37, 777-87		87
1063	A frequent mutation in the lipoprotein lipase gene (D9N) deteriorates the biochemical and clinical phenotype of familial hypercholesterolemia. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1999 , 19, 2708-13	9.4	27
1062	Sphingomyelinase, an enzyme implicated in atherogenesis, is present in atherosclerotic lesions and binds to specific components of the subendothelial extracellular matrix. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1999 , 19, 2648-58	9.4	102
1061	Ultrastructure of early lipid accumulation in ApoE-deficient mice. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 1999 , 19, 847-53	9.4	97
1060	Unique cellular events occurring during the initial interaction of macrophages with matrix-retained or methylated aggregated low density lipoprotein (LDL). Prolonged cell-surface contact during which ldl-cholesteryl ester hydrolysis exceeds ldl protein degradation. 1999 , 274, 32112-21		52
1059	Lipoprotein lipase enhances the binding of native and oxidized low density lipoproteins to versican and biglycan synthesized by cultured arterial smooth muscle cells. 1999 , 274, 34629-36		77
1058	Nonoxidative modifications of lipoproteins in atherogenesis. 1999 , 19, 123-39		113
1057	Cholesteryl ester transfer protein corrects dysfunctional high density lipoproteins and reduces aortic atherosclerosis in lecithin cholesterol acyltransferase transgenic mice. 1999 , 274, 36912-20		178
1056	Secretory sphingomyelinase. 1999 , 102, 123-30		102
1055	Vascular biology, atherosclerosis, and implications for cardiac care. 1999 , 1, 136-41		1
1054	Dominant role of the C-terminal domain in the binding of apolipoprotein(a) to the protein core of proteoglycans and other members of the vascular matrix. 1999 , 9, 196-200		6

1053	Cell and molecular biology of the assembly and secretion of apolipoprotein B-containing lipoproteins by the liver. 1999 , 1440, 1-31		142
1052	Emerging roles of endothelial cells and smooth muscle cells in transplant vascular disease. 1999 , 13, 109-127		15
1051	Glycation of plasma low density lipoproteins increases interaction with arterial proteoglycans. 1999 , 46, 9-18		22
1050	Expression of the heterogenous nuclear ribonucleoprotein complex K protein and the prolyl-4-hydroxylase alpha-subunit in atherosclerotic arterial smooth muscle cells. 1999 , 260, 382-9		5
1049	Macrophage foam cell formation during early atherogenesis is determined by the balance between pro-oxidants and anti-oxidants in arterial cells and blood lipoproteins. 1999 , 1, 585-94		61
1048	Kinetics of apolipoprotein E isoforms-binding to the major glycosaminoglycans of the extracellular matrix. 1999 , 459, 353-7		20
1047	Drug treatment of lipid disorders. 1999 , 341, 498-511		718
1046	Atherogenicity of lipoprotein(a) and oxidized low density lipoprotein: insight from in vivo studies of arterial wall influx, degradation and efflux. <i>Atherosclerosis</i> , 1999 , 143, 229-43	3.1	80
1045	Oxidation of heparin-treated low density lipoprotein by peroxidases. <i>Atherosclerosis</i> , 1999 , 146, 211-9	3.1	19
1044	Expression and localization of the proteoglycan decorin during the progression of cholesterol induced atherosclerosis in Japanese quail: implications for interaction with collagen type I and lipoproteins. <i>Atherosclerosis</i> , 1999 , 146, 299-308	3.1	31
1043	The effects of low density lipoproteins modified by incubation with chondroitin 6-sulfate on human aortic smooth muscle cells. <i>Atherosclerosis</i> , 1999 , 147, 155-66	3.1	30
