List of articles citing

## Seismic velocity structure and composition of the continental crust: A global view

DOI: 10.1029/95jb00259

Journal of Geophysical Research, 1995, 100, 9761-9788.

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
