

CITATION REPORT

List of articles citing

**A simple model of atmospheric radar backscatter:
Description and application to the full correlation
analysis of spaced antenna data**

DOI: 10.1029/95rs00645

Radio Science, 1995, 30, 1263-1280.

Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
65	Comparison of simultaneous wind measurements using colocated VHF meteor radar and MF spaced antenna radar systems. <i>Radio Science</i> , 1995 , 30, 1245-1261	1.4	60
64	Spaced antenna analysis of atmospheric radar backscatter model data. <i>Radio Science</i> , 1995 , 30, 1417-1433	1.4	16
63	Comparison of wind measurements between Yamagawa MF Radar and the MU Radar. <i>Geophysical Research Letters</i> , 1996 , 23, 3341-3344	4.9	28
62	On the measurement of gravity waves, tides and mean winds in the low and middle latitude mesosphere and thermosphere with MF radar. <i>Advances in Space Research</i> , 1996 , 18, 131-140	2.4	11
61	Wind estimation errors of the spaced antenna technique studied with simulations and observations: A case study for the MU radar. <i>Radio Science</i> , 1997 , 32, 1193-1201	1.4	7
60	Recent advances in radar instrumentation and techniques for studies of the mesosphere, stratosphere, and troposphere. <i>Radio Science</i> , 1997 , 32, 2241-2270	1.4	47
59	A new approach to MF radar interferometry for estimating mean winds and momentum flux. <i>Radio Science</i> , 1997 , 32, 707-726	1.4	27
58	An investigation of biases in the full spectral analysis technique. <i>Radio Science</i> , 1997 , 32, 769-782	1.4	3
57	Cross correlations and cross spectra for spaced antenna wind profilers: 2. Algorithms to estimate wind and turbulence. <i>Radio Science</i> , 1997 , 32, 967-982	1.4	34
56	Multiple receiver wind profiling techniques for the boundary layer in the presence of hydro-meteors. <i>Geophysical Research Letters</i> , 1997 , 24, 2667-2670	4.9	
55	Retrieval of stratified atmospheric reflectivity and wind velocity using inverse methods: application to a VHF ST mini-radar. <i>Journal of Atmospheric and Solar-Terrestrial Physics</i> , 1997 , 59, 1159-1177	2	2
54	An investigation of biases in the full correlation analysis technique. <i>Advances in Space Research</i> , 1997 , 20, 1269-1272	2.4	11
53	Interpretation of angle-of-arrival measurements in the lower atmosphere using spaced antenna radar systems. <i>Radio Science</i> , 1998 , 33, 517-533	1.4	12
52	Three-dimensional imaging of the atmosphere using space and frequency diversity.		
51	Spatial correlation analysis revisited: Theory, and application to radar backscatter model data. <i>Radio Science</i> , 1999 , 34, 629-641	1.4	5
50	Influence of instrumental effects upon the full correlation analysis. <i>Radio Science</i> , 1999 , 34, 643-655	1.4	18
49	Range imaging using frequency diversity. <i>Radio Science</i> , 1999 , 34, 1485-1496	1.4	74

48	First synthesis of wind-profiler signals on the basis of large-eddy simulation data. <i>Radio Science</i> , 1999 , 34, 1437-1459	1.4	31
47	The effect of signal saturation on wind velocity estimates using MF radar signals. <i>Advances in Space Research</i> , 2000 , 25, 223-226	2.4	4
46	Tropospheric measurements of turbulence and characteristics of Bragg scatterers using the Jicamarca VHF radar. <i>Radio Science</i> , 2000 , 35, 179-193	1.4	13
45	A simulation study of coherent radar imaging. <i>Radio Science</i> , 2000 , 35, 1129-1141	1.4	33
44	A comparison of tropospheric VHF Doppler beam steering and full correlation analysis measurements of aspect sensitivity. <i>Radio Science</i> , 2001 , 36, 955-964	1.4	7
43	Atmospheric radar imaging using multiple-receiver and multiple-frequency techniques. <i>Radio Science</i> , 2001 , 36, 1493-1503	1.4	34
42	MF radar observations of seasonal variability of semidiurnal motions in the mesosphere at high northern and southern latitudes. <i>Journal of Atmospheric and Solar-Terrestrial Physics</i> , 2003 , 65, 483-493	2	51
41	Structure-function-based approach to analyzing received signals for spaced antenna radars. <i>Radio Science</i> , 2003 , 38, n/a-n/a	1.4	2
40	Rapid, large-scale temperature changes in the polar mesosphere and their relationship to meridional flows. <i>Geophysical Research Letters</i> , 2003 , 30, n/a-n/a	4.9	33
39	The 6.5-day wave in the mesosphere and lower thermosphere: Evidence for baroclinic/barotropic instability. <i>Journal of Geophysical Research</i> , 2003 , 108,		70
38	Atmospheric radar for the 0.5-110 km region.		0
37	Pulse pair beamforming and the effects of reflectivity field variations on imaging radars. <i>Radio Science</i> , 2004 , 39, n/a-n/a	1.4	36
36	The 2-day wave during the boreal summer of 1994. <i>Journal of Geophysical Research</i> , 2004 , 109,		20
35	High-resolution atmospheric profiling using combined spaced antenna and range imaging techniques. <i>Radio Science</i> , 2004 , 39, n/a-n/a	1.4	16
34	Efficient Atmospheric Simulation for High-Resolution Radar Imaging Applications. <i>Journal of Atmospheric and Oceanic Technology</i> , 2004 , 21, 374-378	2	14
33	Radar measurements of wind with cumulant of received signals' increment.		
32	Computer simulation of wind measurements by increment's cumulant approach.		
31	Characteristics of tropopause folds over Arctic latitudes. <i>Journal of Geophysical Research</i> , 2005 , 110,		16

30	MF radar observations of meteors and meteor-derived winds at Syowa (69°S, 39°E), Antarctica: A comparison with simultaneous spaced antenna winds. <i>Journal of Geophysical Research</i> , 2005 , 110,		11
29	Phased-Array Design for Biological Clutter Rejection: Simulation and Experimental Validation. <i>Journal of Atmospheric and Oceanic Technology</i> , 2006 , 23, 585-598	2	29
28	Initial results from SKiYMET meteor radar at Thumba (8.5°N, 77°E): 1. Comparison of wind measurements with MF spaced antenna radar system. <i>Radio Science</i> , 2007 , 42,	1.4	26
27	An atmospheric backscatter model on wind measurements using far-field approximation method. <i>Frontiers of Electrical and Electronic Engineering in China: Selected Publications From Chinese Universities</i> , 2007 , 2, 248-254		
26	Motion of echo structures observed with volume imaging atmospheric radar. <i>Journal of Atmospheric and Solar-Terrestrial Physics</i> , 2008 , 70, 1651-1659	2	1
25	Evaluation of an LES-Based Wind Profiler Simulator for Observations of a Daytime Atmospheric Convective Boundary Layer. <i>Journal of Atmospheric and Oceanic Technology</i> , 2008 , 25, 1423-1436	2	8
24	A Time Series Weather Radar Simulator Based on High-Resolution Atmospheric Models. <i>Journal of Atmospheric and Oceanic Technology</i> , 2008 , 25, 230-243	2	37
23	Simulation of Coherent Radar Imaging Using Continuous Wave Noise Radar. <i>Journal of Atmospheric and Oceanic Technology</i> , 2009 , 26, 1956-1967	2	
22	Comparative study of MLT mean winds using MF radars located at 16.8°N and 8.7°N. <i>Journal of Earth System Science</i> , 2010 , 119, 461-470	1.8	9
21	A comparison study of zonal drift velocities measurements as seen by MF spaced antenna and HF Doppler radar in the Indian dip equatorial mesospheric and lower thermospheric (80-100 km) region. <i>Journal of Geophysical Research</i> , 2010 , 115, n/a-n/a		2
20	Effects of radar beam width and scatterer anisotropy on multiple-frequency range imaging using VHF atmospheric radar. <i>Radio Science</i> , 2010 , 45, n/a-n/a	1.4	2
19	Observation of a tropopause fold by MARA VHF wind-profiler radar and ozonesonde at Wasa, Antarctica: comparison with ECMWF analysis and a WRF model simulation. <i>Annales Geophysicae</i> , 2012 , 30, 1411-1421	2	9
18	A New Approach to Detect Ground Clutter Mixed With Weather Signals. <i>IEEE Transactions on Geoscience and Remote Sensing</i> , 2013 , 51, 2373-2387	8.1	14
17	Response of polar mesosphere summer echoes to geomagnetic disturbances in the Southern and Northern Hemispheres: the importance of nitric oxide. <i>Annales Geophysicae</i> , 2013 , 31, 333-347	2	10
16	Tropopause fold occurrence rates over the Antarctic station Troll (72°S, 2.5°E). <i>Annales Geophysicae</i> , 2013 , 31, 591-598	2	13
15	Simulation of Spaced Antenna Wind Retrieval Performance on an X-Band Active Phased Array Weather Radar. <i>Journal of Atmospheric and Oceanic Technology</i> , 2013 , 30, 1447-1459	2	6
14	Bias correction and overall performance of a VHF Spaced Antenna boundary layer profiler for operational weather forecasting. <i>Journal of Atmospheric and Solar-Terrestrial Physics</i> , 2014 , 118, 16-24	2	6
13	Polar summer mesospheric extreme horizontal drift speeds during interplanetary corotating interaction regions (CIRs) and high-speed solar wind streams: Coupling between the solar wind and the mesosphere. <i>Journal of Geophysical Research: Space Physics</i> , 2014 , 119, 3883-3894	2.6	8

12	Short vertical-wavelength inertia-gravity waves generated by a jet front system at Arctic latitudes VHF radar, radiosondes and numerical modelling. <i>Atmospheric Chemistry and Physics</i> , 2014 , 14, 6785-6799	6.8	8
11	Advanced meteor radar installed at Tirupati: System details and comparison with different radars. <i>Journal of Geophysical Research D: Atmospheres</i> , 2014 , 119, 11,893-11,904	4.4	18
10	MF and HF radar techniques for investigating the dynamics and structure of the 50 to 110 km height region: a review. <i>Progress in Earth and Planetary Science</i> , 2015 , 2,	3.9	20
9	Observational evidence of the influence of Antarctic stratospheric ozone variability on middle atmosphere dynamics. <i>Geophysical Research Letters</i> , 2015 , 42, 7853-7859	4.9	5
8	Simultaneous observations of structure function parameter of refractive index using a high-resolution radar and the DataHawk small airborne measurement system. <i>Annales Geophysicae</i> , 2016 , 34, 767-780	2	9
7	. <i>IEEE Transactions on Geoscience and Remote Sensing</i> , 2016 , 54, 4178-4189	8.1	11
6	SimRadar: A Polarimetric Radar Time-Series Simulator for Tornadoic Debris Studies. <i>IEEE Transactions on Geoscience and Remote Sensing</i> , 2017 , 55, 2858-2870	8.1	9
5	A User Parameter-Free Diagonal-Loading Scheme for Clutter Rejection on Radar Wind Profilers. <i>Journal of Atmospheric and Oceanic Technology</i> , 2017 , 34, 1139-1153	2	3
4	Characteristics of Mesosphere Echoes over Antarctica Obtained Using PANSY and MF Radars. <i>Scientific Online Letters on the Atmosphere</i> , 2017 , 13A, 19-23	2.1	3
3	Performance evaluation and bias correction of DBS measurements for a 1290-MHz boundary layer profiler. <i>Review of Scientific Instruments</i> , 2018 , 89, 025105	1.7	2
2	Validation of wind measurements of two mesosphere-stratosphere-troposphere radars in northern Sweden and in Antarctica. <i>Atmospheric Measurement Techniques</i> , 2021 , 14, 2813-2825	4	1
1	Short vertical-wavelength inertia-gravity waves generated by a jet front system at Arctic latitudes VHF radar, radiosondes and numerical modelling.
