

CITATION REPORT

List of articles citing

Transthoracic Doppler echocardiographic measurements of pulmonary venous flow velocity patterns: comparison with transesophageal measurements

DOI: 10.1016/s0894-7317(05)80359-1

Journal of the American Society of Echocardiography, 1995, 8, 61-9.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
