

CITATION REPORT

List of articles citing

Protein intake in pregnancy, placental glucocorticoid metabolism and the programming of hypertension in the rat

DOI: 10.1016/s0143-4004(96)80010-5
Placenta, 1996, 17, 169-72.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
381	Weanling rats exposed to maternal low-protein diets during discrete periods of gestation exhibit differing severity of hypertension. 1996 , 91, 607-15		221
380	Prenatal glucocorticoid exposure leads to offspring hyperglycaemia in the rat: studies with the 11 beta-hydroxysteroid dehydrogenase inhibitor carbenoxolone. 1996 , 39, 1299-305		268
379	11β-Hydroxysteroid Dehydrogenase. 1997 , 249-324		328
378	Hypertension induced by foetal exposure to a maternal low-protein diet, in the rat, is prevented by pharmacological blockade of maternal glucocorticoid synthesis. 1997 , 15, 537-44		176
377	Maternal carbenoxolone treatment lowers birthweight and induces hypertension in the offspring of rats fed a protein-replete diet. 1997 , 93, 423-9		82
376	Intrauterine programming of hypertension by glucocorticoids. 1997 , 60, 1213-21		77
375	From early nutrition and later development...to underlying mechanisms and optimal health. <i>British Journal of Nutrition</i> , 1997 , 78, S113-S123	3.6	11
374	11β-Hydroxysteroid dehydrogenase in the brain: a novel regulator of glucocorticoid action?. 1997 , 18, 49-99		170
373	Glucocorticoid actions and metabolism in pregnancy: implications for placental function and fetal cardiovascular activity. <i>Placenta</i> , 1998 , 19, 353-60	3.4	35
372	Intrauterine programming of cardiovascular disease by maternal nutritional status. 1998 , 14, 39-47		80
371	Impaired growth and increased glucocorticoid-sensitive enzyme activities in tissues of rat fetuses exposed to maternal low protein diets. 1998 , 63, 605-15		58
370	Intrauterine events and the programming of adulthood disease: the role of fetal glucocorticoid exposure (Review). 1998 , 2, 607-14		54
369	Physiologic Programming of the Fetus. 1998 , 25, 939-962		152
368	Ontogenetic aspects of hypertension development: analysis in the rat. 1999 , 79, 1227-82		167
367	Placental glucose transporter expression is regulated by glucocorticoids. 1999 , 84, 1445-52		86
366	Expression of 11 beta-hydroxysteroid dehydrogenase in early pregnancy: implications in human trophoblast-endometrial interactions. 1999 , 17, 53-61		7
365	Prenatal or early postnatal events predict infectious deaths in young adulthood in rural Africa. 1999 , 28, 1088-95		182

364	Long-term modification of the excretion of prostaglandin E(2) by fetal exposure to a maternal low protein diet in the rat. 1999 , 43, 98-106		11
363	Dual function of 11beta-hydroxysteroid dehydrogenase in placenta: modulating placental glucocorticoid passage and local steroid action. 1999 , 60, 234-40		131
362	Maternal nutrient restriction (48 h) modifies brain corticosteroid receptor expression and endocrine function in the fetal guinea pig. 1999 , 846, 236-42		82
361	Differential effects of protein malnutrition in pregnant rats on the expression of placental prolactin-like proteins. <i>Placenta</i> , 1999 , 20, 427-442	3.4	2
360	Relationship between birthweight and blood pressure in childhood. 1999 , 33, 253-60		87
359	Fetal exposure to a maternal low protein diet impairs nephrogenesis and promotes hypertension in the rat. 1999 , 64, 965-74		415
358	Glucocorticoids and fetal programming. 1999 , 27, 74-8		38
357	Nutritional effects on foetal growth. 1999 , 68, 315-331		123
356	Early-life programming of susceptibility to dysregulation of glucose metabolism and the development of Type 2 diabetes mellitus. 2000 , 349 Pt 3, 657-65		114
355	Maternal protein deficiency causes hypermethylation of DNA in the livers of rat fetuses. <i>Journal of Nutrition</i> , 2000 , 130, 1821-6	4.1	124
354	Long-term effects on offspring of intrauterine exposure to deficits in nutrition. 2000 , 6, 578-86		41
353	Fetal origins of adult hypertension: a renal mechanism?. 2000 , 9, 419-25		51
352	Glucocorticoids, 11beta-hydroxysteroid dehydrogenase, and fetal programming. 2000 , 57, 1412-7		179
351	Inhibition of 11beta-hydroxysteroid dehydrogenase, the foeto-placental barrier to maternal glucocorticoids, permanently programs amygdala GR mRNA expression and anxiety-like behaviour in the offspring. 2000 , 12, 1047-54		271
350	Effect of maternal nutrient restriction in early gestation on responses of the hypothalamic-pituitary-adrenal axis to acute isocapnic hypoxaemia in late gestation fetal sheep. 2000 , 85, 85-96		41
349	Effects of Placental Insufficiency on the Ovine Fetal Renin-Angiotensin System. 2000 , 85, 79-84		30
348	Perinatal development and adult blood pressure. 2000 , 33, 731-40		32
347	Maternal constraint on fetal growth patterns in the rhesus monkey (<i>Macaca mulatta</i>): the intergenerational link between mothers and daughters. 2000 , 15, 452-7		38

346	Influences of pre- and postnatal nutritional exposures on vascular/endocrine systems in animals. 2000 , 108 Suppl 3, 563-8	79
345	Differential hepatic lobar gene expression in offspring exposed to altered maternal dietary protein intake. 2000 , 278, G128-36	28
344	[Lung maturation therapy with glucocorticoids in threatened premature labor. Considerations of risk-benefit in evidence-based medicine]. 2000 , 204, 203-9	2
343	Increased fetal glucocorticoid exposure delays puberty onset in postnatal life. 2000 , 141, 2422-8	103
342	Influences of Pre- and Postnatal Nutritional Exposures on Vascular/Endocrine Systems in Animals. 2000 , 108, 563	13
341	Cardiovascular and hypothalamic-pituitary-adrenal axis development in late gestation fetal sheep and young lambs following modest maternal nutrient restriction in early gestation. 2000 , 12, 443-56	105
340	Fetal programming of cardiovascular function through exposure to maternal undernutrition. 2001 , 60, 505-13	153
