

Radio interferometer observations of turbulence in the

AIP Conference Proceedings

,

DOI: 10.1063/1.51483

Citation Report

#	ARTICLE	IF	CITATIONS
1	Very Long Baseline Interferometer measurements of turbulence in the inner solar wind. <i>Astronomy and Astrophysics</i> , 2002, 384, 654-665.	2.1	25
2	The small amplitude of density turbulence in the inner solar wind. <i>Nonlinear Processes in Geophysics</i> , 2003, 10, 113-120.	0.6	5
3	Amplitude of solar wind density turbulence from 10 to 45 R_{\odot} . <i>Journal of Geophysical Research: Space Physics</i> , 2016, 121, 11,605.	0.8	14
