

CITATION REPORT

List of articles citing

The Effect of Acute Renal Failure on Mortality

DOI: 10.1001/jama.1996.03530430033035
JAMA - Journal of the American Medical Association,
1996, 275, 1489.

Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
908	To dialyze or not to dialyze: an ethical and evidence-based approach to the patient with acute renal failure in the intensive care unit. 1997 , 4, 288-96		11
907	Acute renal failure after coronary intervention: incidence, risk factors, and relationship to mortality. 1997 , 103, 368-75		1333
906	Acute renal failure in the ICU in the 1990s--"anything goes"?. 1997 , 23, 1193-6		10
905	Perioperative renal preservation: Dopexamine and fenoldopam—New agents to augment renal performance. 1998 , 17, 308-318		12
904	Treatment of acute renal failure. 1998 , 54, 1817-31		582
903	Independent association between acute renal failure and mortality following cardiac surgery. 1998 , 104, 343-8		1071
902	Critical care dialysis—a Gordian knot (but is untying the right approach?). 1999 , 14, 2590-4		13
901	Dialysing the patient with acute renal failure in the ICU: the emperor's clothes?. 1999 , 14, 2570-3		31
900	Role of hypoalbuminemia and hypocholesterolemia as copredictors of mortality in acute renal failure. 1999 , 56, 1058-63		75
899	Renal failure predisposes patients to adverse outcome after coronary artery bypass surgery. VA Cooperative Study #5. 1999 , 55, 1057-62		160
898	Renal interstitial concentration of adenosine during endotoxin shock. 1999 , 385, 209-16		27
897	Acute tubular necrosis in patients with diabetes mellitus. 1999 , 34, 1010-5		10
896	Comparing continuous hemofiltration with hemodialysis in patients with severe acute renal failure. 1999 , 34, 424-32		94
895	Exacerbation of radiocontrast nephrotoxicity by endothelin receptor antagonism. 2000 , 57, 1675-80		164
894	Impact of dialyzer membrane selection on cellular responses in acute renal failure: a crossover study. 2000 , 57, 2107-16		20
893	Predicting patient outcome from acute renal failure comparing three general severity of illness scoring systems. 2000 , 58, 283-92		48
892	Drugs and intravenous contrast media. 2000 , 85, 219-21		2

891	The patient at risk for acute renal failure. Recognition, prevention, and preoperative optimization. 2000 , 18, 705-17	15
890	Correlates and impact on outcomes of worsening renal function in patients > or =65 years of age with heart failure. 2000 , 85, 1110-3	338
