

CITATION REPORT

List of articles citing

Vagaries of the molecular clock

DOI: 10.1073/pnas.94.15.7776

Proceedings of the National Academy of Sciences of the United States of America, 1997, 94, 7776-83.

Source: <https://exaly.com/paper-pdf/27965756/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
126	Genetics and the origin of species: an introduction. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1997 , 94, 7691-7	11.5	36
125	Antibodies of sharks: revolution and evolution. 1998 , 166, 103-22		59
124	A stochastic model for the rapid emergence of specific vertebrate immunity incorporating horizontal transfer of systems enabling duplication and combinational diversification. 1998 , 193, 429-44		22
123	How good are deep phylogenetic trees?. 1998 , 8, 616-23		250
122	Metazoan phylogenies: falling into place or falling to pieces? A palaeontological perspective. 1998 , 8, 662-7		22
121	Biogeography of a Widespread Freshwater Crustacean: Pseudocongruence and Cryptic Endemism in the North American <i>Daphnia laevis</i> Complex. 1998 , 52, 1648		46
120	Origin of the metazoan phyla: molecular clocks confirm paleontological estimates. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1998 , 95, 606-11	11.5	275
119	BIOGEOGRAPHY OF A WIDESPREAD FRESHWATER CRUSTACEAN: PSEUDOCONGRUENCE AND CRYPTIC ENDEMISM IN THE NORTH AMERICAN DAPHNIA LAEVIS COMPLEX. 1998 , 52, 1648-1670		66
118	Molecules and Evolutionary History. 1999 , 9, 241-260		
117	Multigenic polymorphism as a source of adaptively restricted population variability. 1999 , 37, 113-120		
116	Neutral evolution of model proteins: diffusion in sequence space and overdispersion. 1999 , 200, 49-64		74
115	Molecular clock mirages. 1999 , 21, 71-5		88
114	Sequence evolution in bacterial endosymbionts having extreme base compositions. 1999 , 16, 1586-98		172
113	Calculation and verification of the ages of retroprocessed pseudogenes. <i>Molecular Phylogenetics and Evolution</i> , 2000 , 16, 127-30	4.1	6
112	Molecular evidence for the diversification of extant lichens in the late cretaceous and tertiary. <i>Molecular Phylogenetics and Evolution</i> , 2000 , 17, 379-87	4.1	33
111	Fertility selection, genetic selection and evolution. 2000 , 13, 786-791		
110	Perspective: gene divergence, population divergence, and the variance in coalescence time in phylogeographic studies. 2000 , 54, 1839-54		713

109	Early-branching or fast-evolving eukaryotes? An answer based on slowly evolving positions. 2000 , 267, 1213-21	190
108	Neutralism and selectionism: the molecular clock. 2000 , 261, 27-33	26
107	PERSPECTIVE: GENE DIVERGENCE, POPULATION DIVERGENCE, AND THE VARIANCE INCOALESCENCE TIME IN PHYLOGEOGRAPHIC STUDIES. 2000 , 54, 1839	579
106	Cryptic species diversity and evolution in the amphipod genus <i>Hyaella</i> within central glaciated North America: a molecular phylogenetic approach. 2000 , 57, 687-698	123
105	A statistical analysis of nucleotide substitutions in the <i>Drosophila Adh</i> region reflects irregularities in molecular clocks. 2001 , 76, 209-12	
104	Xanthine dehydrogenase (XDH): episodic evolution of a "neutral" protein. 2001 , 53, 485-95	6
103	Phylogeography of the intertidal copepod <i>Tigriopus californicus</i> reveals substantially reduced population differentiation at northern latitudes. 2001 , 10, 1743-50	176
102	Replication and mutation on neutral networks. 2001 , 63, 57-94	56
101	Sources of error and confidence intervals in estimating the age of angiosperms from <i>rbcl</i> and 18S rDNA data. 2001 , 88, 1499-1516	211
100	Selective extinction and rapid loss of evolutionary history in the bird fauna. 2001 , 268, 127-30	49
99	Biological timing and the clock metaphor: oscillatory and hourglass mechanisms. 2001 , 18, 329-69	87
98	Prelude to the Cambrian Explosion. 2002 , 30, 285-306	54
97	A testable genotype-phenotype map: modeling evolution of RNA molecules. 2002 , 55-81	2
96	Does parental divergence predict reproductive compatibility?. 2002 , 17, 520-527	223
95	Genetic polymorphism at two linked loci, <i>Sod</i> and <i>Est-6</i> , in <i>Drosophila melanogaster</i> . 2002 , 300, 19-29	15
94	Estimating Divergence Times from Molecular Data on Phylogenetic and Population Genetic Timescales. 2002 , 33, 707-740	453
93	Molecules and Evolutionary History. 2002 , 11, 195-210	
92	Kinetics and free energy in human mitochondrial D-loop DNA base substitutions. 2002 , 17, 33-43	

91	The fractal structure of the mitochondrial genomes. 2002 , 311, 221-230	12
90	Connectivity of neutral networks, overdispersion, and structural conservation in protein evolution. 2003 , 56, 243-54	59
89	The historical bridge between the Amazon and the Atlantic Forest of Brazil: a study of molecular phylogeography with small mammals. 2003 , 30, 71-86	412
88	Population structure of the pumpkin fruit fly <i>Bactrocera depressa</i> (Tephritidae) in Korea and Japan: Pliocene allopatry or recent invasion?. 2003 , 12, 2941-51	44
87	<i>Salenthydrobia</i> gen. nov. (Rissooidea: Hydrobiidae): a potential relict of the Messinian salinity crisis. 2003 , 137, 319-336	97
