Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2258	Learning of judgment and decision-making strategies. 143-168		
2257	Bibliography. 272-284		
2256	Hierarchically organised behaviour and its neural foundations: a reinforcement-learning perspective. 264-299		1
2255	An evolutionary perspective on the unification of the behavioral sciences. 213-245		0
2254	Reflections on the origins of the human brain. 1-22		
2253	Conditioned response timing and integration in the cerebellum. 1997 , 4, 116-29		33
2252	On the significance of Markov decision processes. 1997 , 273-282		10
2251	Reward responses of dopamine neurons: A biological reinforcement signal. 1997 , 1-12		1
2250	Getting the brain's attention. <i>Science</i> , 1997 , 278, 35-7	33.3	107
2249	Neuroscience and appetitive behavior research: 25 years. 1997 , 29, 119-33		69
2248	Molecular adaptations to psychostimulants in striatal neurons: toward a pathophysiology of addiction. 1997 , 4, 239-46		10
2247	Acute effects of cocaine on human brain activity and emotion. 1997 , 19, 591-611		1059
2246	Dopamine neurons report an error in the temporal prediction of reward during learning. 1998 , 1, 304-9		819
2245	Expectation of reward modulates cognitive signals in the basal ganglia. 1998 , 1, 411-6		504
2244	Ethanol Action on Neural Networks Studied with Multineuron Recording in Freely Moving Animals. 1998 , 22, 10-22		14
2243	Voluntary ethanol intake in the rat and the associated accumbal dopamine overflow are blocked by ventral tegmental mecamylamine. 1998 , 358, 189-96		150
2242	Constructive cognition in a situated background. 1998 , 49, 927-933		6

2241	Decreased striatal monoaminergic terminals in severe chronic alcoholism demonstrated with (+)[11C]dihydrotetrabenazine and positron emission tomography. 1998 , 44, 326-33	52
2240	Activity of the parietal associative cortex neurons and aminergic brainstem neurons at the performance of a voluntary movement in cats. 1998 , 30, 408-411	
2239	Learning of sequential movements by neural network model with dopamine-like reinforcement signal. 1998 , 121, 350-4	178
2238	A bottom up approach towards the acquisition and expression of sequential representations applied to a behaving real-world device: Distributed Adaptive Control III. 1998 , 11, 1531-1549	75
2237	Brain nicotinic receptors: structure and regulation, role in learning and reinforcement. 1998 , 26, 198-216	243
2236	What is the role of dopamine in reward: hedonic impact, reward learning, or incentive salience?. 1998 , 28, 309-69	2996
2235	Microcircuitry of the direct and indirect pathways of the basal ganglia. 1998 , 86, 353-87	759
2234	Cognitive functions and corticostriatal circuits: insights from Huntington's disease. 1998 , 2, 379-88	199
2233	Neural activity in the primate prefrontal cortex during associative learning. 1998 , 21, 1399-407	460
2232	Learning by neurones: role of attention, reinforcement and behaviour. 1998 , 321, 193-8	25
2231	Reward prediction in primate basal ganglia and frontal cortex. 1998 , 37, 421-9	250
2230	Dopamine and N-methyl-D-aspartate receptor interactions in the neostriatum. 1998 , 20, 1-18	317
2229	Understanding developmental psychopathology: how useful are evolutionary accounts?. 1998 , 37, 1011-21	65
2228	Role of the limbic system in dependence on drugs. 1998 , 30, 397-405	37
2227	Cannabinoid transmission and reward-related events. 1998 , 5, 502-33	209
2226	The nature of reinforcement in cerebellar learning. 1998 , 70, 150-76	76
2225	Inhibitory cerebello-olivary projections and blocking effect in classical conditioning. <i>Science</i> , 1998 , 279, 570-3	333 230
2224	A computational role for dopamine delivery in human decision-making. 1998 , 10, 623-30	74

2223	A Universe of Universals. 1998 , 16, 3-25	6
2222	The adaptive nature of the human neurocognitive architecture: an alternative model. 1998 , 95, 11290-4	21
2221	Backward inhibitory learning in honeybees: a behavioral analysis of reinforcement processing. 1998 , 4, 429-44	53
2220	A neuronal model of a global workspace in effortful cognitive tasks. 1998 , 95, 14529-34	783
2219	Reinforcement learning with multiple representations in the basal ganglia loops for sequential motor control.	2
2218	Learning algorithms based on linearization. 1998 , 9, 363-380	
2217	Reproductive experience reduces striatal dopaminergic responses in freely moving female rats. 1998 , 9, 3589-93	16
2216	Alleviation of x-irradiation-based deficit in memory-based learning by D-amphetamine: suggestions for attention deficit-hyperactivity disorder. 1998 , 95, 5785-8	18
2215	Changes in medial prefrontal cortical dopamine levels associated with response-contingent food reward: an electrochemical study in rat. 1998 , 18, 9130-8	63
2214	Effects of Dietary n-3 Fatty Acid Deficiency on Morris Water-Maze Performance and Amphetamine-Induced Conditioned Place Preference in Rats. 1998 , 1, 281-93	35
2213	Reward-quality dependent anticipation in rat nucleus accumbens. 1998 , 9, 3943-8	74
2212	Predictive reward signal of dopamine neurons. 1998 , 80, 1-27	3605
2211	Suppression of ethanol-reinforced behavior by naltrexone is associated with attenuation of the ethanol-induced increase in dialysate dopamine levels in the nucleus accumbens. 1998 , 18, 10663-71	295
2210	Functional Neuroanatomy of Approach and Active Avoidance using fMRI. 1998 , 7, S918	3
2209	Synaptic regulation of action potential timing in neostriatal cholinergic interneurons. 1998 , 18, 8539-49	103
2208	Dopamine receptor-mediated mechanisms involved in the expression of learned activity of primate striatal neurons. 1998 , 79, 2568-80	71
2207	Comparison of mesocorticolimbic neuronal responses during cocaine and heroin self-administration in freely moving rats. 1998 , 18, 3098-115	128
2206	A complex program of striatal gene expression induced by dopaminergic stimulation. 1998 , 18, 5301-10	295

2205	Modifications of reward expectation-related neuronal activity during learning in primate striatum. 1998 , 80, 964-77	244
2204	Opposing role of dopamine D1 and D2 receptors in modulation of rat nucleus accumbens noradrenaline release. 1999 , 19, 4123-31	29
2203	The Reward Signal of Midbrain Dopamine Neurons. 1999 , 14, 249-255	41
2202	Blockade of SK-type Ca ²⁺ -activated K ⁺ channels uncovers a Ca ²⁺ -dependent slow afterdepolarization in nigral dopamine neurons. 1999 , 81, 977-84	34
2201	Role of [corrected] nigrostriatal dopamine system in learning to perform sequential motor tasks in a predictive manner. 1999 , 82, 978-98	179
2200	Personality correlates of the dopaminergic facilitation of incentive motivation: Impulsive sensation seeking rather than extraversion?. 1999 , 22, 534-535	3
2199	What about sex differences? An adaptationist perspective on the lines of causal influence of personality systems. 1999 , 22, 530-531	2
2198	Dopamine fluctuations in the nucleus accumbens during maintenance, extinction, and reinstatement of intravenous D-amphetamine self-administration. 1999 , 19, 4102-9	120
