

CITATION REPORT

List of articles citing

cDNA cloning and primary structure analysis of C1qR(P), the human C1q/MBL/SPA receptor that mediates enhanced phagocytosis in vitro

DOI: 10.1016/s1074-7613(00)80419-7
Immunity, 1997, 6, 119-29.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
220	Complement receptor type 1 (CR1, CD35) is a receptor for C1q. <i>Immunity</i> , 1997 , 7, 345-55	32.3	201
219	Characterisation of the rat and mouse homologues of gC1qBP, a 33 kDa glycoprotein that binds to the globular heads of C1q. 1997 , 418, 111-4		20
218	C1q receptors: Opportunities for selectively regulating protective and detrimental responses. 1997 , 17, 173-177		1
217	Gene expression of C1q A-chain in the rat facial nucleus after axotomy. 1998 , 18, 179-187		
216	C1q--how many functions? How many receptors?. 1998 , 8, 428-31		72
215	Complement component C1 and the collectins: parallels between routes of acquired and innate immunity. 1998 , 19, 56-9		24
214	Structural aspects of collectins and receptors for collectins. 1998 , 199, 165-89		123
213	C1q receptors: regulating specific functions of phagocytic cells. 1998 , 199, 250-64		51
212	Structure, processing and properties of surfactant protein A. 1998 , 1408, 109-31		94
211	Regulatory mechanisms of surfactant secretion. 1998 , 1408, 226-40		89
210	Interactions of surfactant protein D with pathogens, allergens and phagocytes. 1998 , 1408, 290-5		42
209	Confrontation between intracellular bacteria and the immune system. 1999 , 71, 267-377		143
208	Evidence that C1q binds specifically to CH2-like immunoglobulin gamma motifs present in the autoantigen calreticulin and interferes with complement activation. 1998 , 37, 17865-74		57
207	Inhibition of Activation of the Classical Pathway of Complement by Human Neutrophil Defensins. 1998 , 92, 3898-3903		67
206	Surfactant protein A and surfactant protein D in health and disease. 1998 , 275, L1-13		96
205	Complement receptors. 1999 , 245-276		
204	Fc receptor-mediated phagocytosis. 1999 , 149-191		4

203	Mannose receptor and phagocytosis. 1999 , 5, 87-101	1
202	Microfibril-associated protein 4 is present in lung washings and binds to the collagen region of lung surfactant protein D. 1999 , 274, 32234-40	48
201	Antitumor activity of mannan-binding protein in vivo as revealed by a virus expression system: mannan-binding proteindependent cell-mediated cytotoxicity. 1999 , 96, 371-5	117
200	Lung surfactant proteins involved in innate immunity. 1999 , 11, 28-33	68
199	Membrane receptors for soluble defense collagens. 1999 , 11, 34-41	93
198	C1q-binding proteins and C1q receptors. 1999 , 11, 42-6	48
197	Comparison of C1q-receptors on rat microglia and peritoneal macrophages. 1999 , 94, 74-81	9
196	Complement deficiency states, disease susceptibility, and infection risk in systemic lupus erythematosus. 1999 , 42, 2023-5	17
195	Mannose-binding lectin polymorphisms and susceptibility to infection in systemic lupus erythematosus. 1999 , 42, 2145-52	187
194	Association of mannan-binding lectin gene heterogeneity with severity of lung disease and survival in cystic fibrosis. 1999 , 104, 431-7	312
193	The molecular characterization of the fetal stem cell marker AA4. <i>Immunity</i> , 1999 , 10, 691-700	32.3 141
192	Activities of the MBL-associated serine proteases (MASPs) and their regulation by natural inhibitors. 1999 , 36, 853-61	62
191	Metabolic properties of normal and mutant mannan-binding proteins in mouse plasma. 1999 , 256, 231-4	18
190	Digestion of C1q collagen-like domain with MMPs-1,-2,-3, and -9 further defines the sequence involved in the stimulation of neutrophil superoxide production. 1999 , 66, 416-22	23
189	Lung surfactant proteins (SP-A and SP-D) in non-adaptive host responses to infection. 1999 , 66, 747-52	17
188	Structural and functional evidence for microglial expression of C1qR(P), the C1q receptor that enhances phagocytosis. 2000 , 67, 109-16	64
187	Mannose-binding lectin and rheumatoid arthritis in southern Chinese. 2000 , 43, 1679-87	63
