

CITATION REPORT

List of articles citing

Role of the hypoxia sensing system, acidity and reproductive hormones in the variability of vascular endothelial growth factor induction in human breast carcinoma cell lines

DOI: 10.1002/(sici)1097-0215(19980302)75:53.0.co;2-2
International Journal of Cancer, 1998, 75, 706-12.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
49	Angiogenesis-Related Markers and their Potential Clinical Significance. <i>International Journal of Biological Markers</i> , 1999 , 14, 3-7	2.8	1
48	Interindividual heterogeneity in the hypoxic regulation of VEGF: significance for the development of the coronary artery collateral circulation. <i>Circulation</i> , 1999 , 100, 547-52	16.7	190
47	Vascular endothelial growth factor A (VEGF-A) mRNA expression levels decrease after menopause in normal breast tissue but not in breast cancer lesions. <i>British Journal of Cancer</i> , 1999 , 81, 225-31	8.7	20
46	Does vascular endothelial growth factor (VEGF) predict local relapse and survival in radiotherapy-treated node-negative breast cancer?. <i>British Journal of Cancer</i> , 1999 , 81, 727-32	8.7	49
45	The effect of extracellular pH on angiogenesis in vitro. <i>Angiogenesis</i> , 1999 , 3, 281-8	10.6	32
44	Small molecule inhibitors of tumor-promoted angiogenesis, including protein tyrosine kinase inhibitors. 1999 , 82, 169-93		60
43	Causes and effects of heterogeneous perfusion in tumors. <i>Neoplasia</i> , 1999 , 1, 197-207	6.4	198
42	Phosphoinositide 3-kinase is involved in the tumor-specific activation of human breast cancer cell Na(+)/H(+) exchange, motility, and invasion induced by serum deprivation. <i>Journal of Biological Chemistry</i> , 2000 , 275, 5361-9	5.4	115
41	Tumour vasculature as a target for anticancer therapy. <i>Cancer Treatment Reviews</i> , 2000 , 26, 191-204	14.4	132
40	Microenvironment-induced cancer metastasis. <i>International Journal of Radiation Biology</i> , 2000 , 76, 589-605	5.5	303
39	Mutant epidermal growth factor receptor enhances induction of vascular endothelial growth factor by hypoxia and insulin-like growth factor-1 via a PI3 kinase dependent pathway. <i>British Journal of Cancer</i> , 2001 , 84, 1322-9	8.7	65
38	17beta-estradiol inhibits forskolin-induced vascular endothelial growth factor promoter in MCF-7 breast adenocarcinoma cells. <i>Journal of Steroid Biochemistry and Molecular Biology</i> , 2001 , 78, 343-9	5.1	5
37	Osteoblast expression of vascular endothelial growth factor is modulated by the extracellular microenvironment. <i>American Journal of Physiology - Cell Physiology</i> , 2001 , 280, C72-80	5.4	70
36	Regulation of vascular endothelial growth factor expression by acidosis in human cancer cells. <i>Oncogene</i> , 2001 , 20, 3751-6	9.2	186
35	Vascular endothelial growth factor gene expression in the human breast cancer cell line MX-1 is controlled by O ₂ availability in vitro and in vivo. <i>Annals of Anatomy</i> , 2001 , 183, 243-9	2.9	15
34	Reovirus oncolysis of human breast cancer. <i>Human Gene Therapy</i> , 2002 , 13, 641-52	4.8	142
33	MRI of the tumor microenvironment. <i>Journal of Magnetic Resonance Imaging</i> , 2002 , 16, 430-50	5.6	444

32	Regulation of cancer metastasis by stress pathways. <i>Clinical and Experimental Metastasis</i> , 2003 , 20, 31-43.	4.7	66
31	The angiogenic switch for vascular endothelial growth factor (VEGF)-A, VEGF-B, VEGF-C, and VEGF-D in the adenoma-carcinoma sequence during colorectal cancer progression. <i>Journal of Pathology</i> , 2003 , 200, 183-94	9.4	166
30	Angiogenesis and vascular survival ability in ovarian adenocarcinomas. <i>Virchows Archiv Fur Pathologische Anatomie Und Physiologie Und Fur Klinische Medizin</i> , 2004 , 445, 521-6	5.1	2
29	Antiangiogenic strategies, compounds, and early clinical results in breast cancer. <i>Critical Reviews in Oncology/Hematology</i> , 2004 , 49, 91-107	7	33
28	Constitutive and inducible expression and regulation of vascular endothelial growth factor. <i>Cytokine and Growth Factor Reviews</i> , 2004 , 15, 297-324	17.9	136
27	New insight into the transcriptional regulation of vascular endothelial growth factor expression in the endometrium by estrogen and relaxin. <i>Annals of the New York Academy of Sciences</i> , 2005 , 1041, 233-47	6.7	35
26	Angiogenic and cell survival functions of vascular endothelial growth factor (VEGF). <i>Journal of Cellular and Molecular Medicine</i> , 2005 , 9, 777-94	5.6	528
25	Correlation of hypoxia inducible factor-1alpha with lymphatic metastasis via vascular endothelial growth factor-C in human esophageal cancer. <i>Experimental and Molecular Pathology</i> , 2005 , 78, 123-30	4.4	73
24	Prolactin-induced expression of vascular endothelial growth factor via Egr-1. <i>Molecular and Cellular Endocrinology</i> , 2005 , 232, 9-19	4.4	66
23	Inconsistent effects of acidosis on HIF-alpha protein and its target genes. <i>Pflugers Archiv European Journal of Physiology</i> , 2006 , 451, 534-43	4.6	37
22	Inhibition of oxygen-induced hypoxia-inducible factor-1alpha degradation unmasks estradiol induction of vascular endothelial growth factor expression in ECC-1 cancer cells in vitro. <i>Endocrinology</i> , 2009 , 150, 5405-14	4.8	33
