

CITATION REPORT

List of articles citing

Molecular cloning and characterization of a novel DNA virus (TTV) associated with posttransfusion hepatitis of unknown etiology

DOI: 10.1016/s1386-6346(97)00123-x
Hepatology Research, 1998, 10, 1-16.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

366	Methods and conclusions in the clinical study of TT virus. 1999 , 30, 1335	

365	High prevalence of transfusion-transmitted virus among patients with non-B, non-C hepatocellular carcinoma. 1999 , 86, 1437-1440	16
364	Distinct genotypes of a nonenveloped DNA virus associated with posttransfusion non-A to G hepatitis (TT virus) in plasma and peripheral blood mononuclear cells. 1999 , 57, 252-8	52
363	High prevalence of TT virus infection in Brazilian blood donors. 1999 , 57, 259-263	90
362	A new genotype of TT virus (TTV) infection among Colombian native Indians. 1999 , 57, 264-8	23
361	Detection rates of TT virus among children who visited a general hospital in Japan. 1999 , 57, 405-7	21
360	Detection of a novel DNA virus (TTV) sequence in peripheral blood mononuclear cells. 1999 , 58, 174-7	33
359	Effect of interferon on a nonenveloped DNA virus (TT virus) associated with acute and chronic hepatitis of unknown etiology. 1999 , 58, 196-200	21
358	Relationship of TT virus infection with prevalence of hepatitis C virus infection and elevated alanine aminotransferase levels. 1999 , 58, 235-238	15
357	Quantitative DNA analysis of low-level hepatitis B viremia in two patients with serologically negative chronic hepatitis B. 1999 , 58, 325-31	33
356	Occurrence of a novel DNA virus (TTV) infection in patients with liver diseases and its frequency in blood donors. 1999 , 59, 117-21	20
355	Prevalence of TT virus DNA in eastern Taiwan aborigines. 1999 , 59, 198-203	12
354	Route of TT virus infection in children. 1999 , 59, 204-7	23
353	Prevalence and implication of TT virus infection: minimal role in patients with non-A-E hepatitis in Taiwan. 1999 , 59, 307-12	31
352	High prevalence of TT virus (TTV) infection in patients on maintenance hemodialysis: Frequent mixed infections with different genotypes and lack of evidence of associated liver disease. 1999 , 59, 313-317	45
351	Age-specific prevalence and transmission of TT virus. 1999 , 59, 318-22	59
350	Clinical implications of coinfection with a novel DNA virus (TTV) in hepatitis C virus carriers on maintenance hemodialysis. 1999 , 59, 431-6	18
349	Evolving therapies for the treatment of viral hepatitis. 1999 , 4, 15-34	2
348	Low risk of TT virus (TTV) infection in medical workers. 1999 , 42, 243-6	13

347	High prevalence and phylogenetic analysis of TT-virus infection in Mongolia. 1999 , 60, 171-9	11
346	Complete circular DNA genome of a TT virus variant (isolate name SANBAN) and 44 partial ORF2 sequences implicating a great degree of diversity beyond genotypes. 1999 , 260, 17-22	112
345	Lack of association between acquisition of TT virus and risk behavior for HIV and HCV infection in Vietnam. 1999 , 3, 181-5	5
344	Infection with an unenveloped DNA virus (TTV) in patients with acute or chronic liver disease of unknown etiology and in those positive for hepatitis C virus RNA. 1999 , 30, 205-12	80
343	TT virus infection among blood donors and patients with non-B, non-C liver diseases in Korea. 1999 , 30, 389-93	25
342	High prevalence of TT virus infection in Japanese patients with liver diseases and in blood donors. 1999 , 31, 221-7	43
341	Infection with a novel human DNA virus (TTV) has no pathogenic significance in patients with liver diseases. 1999 , 30, 1028-34	59
340	Prevalence and clinical characteristics of TT virus (TTV) in patients with sporadic acute hepatitis of unknown etiology. 1999 , 31, 985-9	13
339	High prevalence of G1 and G2 TT-virus infection in subjects with high and low blood exposure risk: identification of G4 isolates in Italy. 1999 , 31, 990-6	15
338	TT virus in frequently transfused patients. 1999 , 106, 116-7	8
337	Multiple infection of TT virus (TTV) with different genotypes in Japanese hemophiliacs. 1999 , 256, 208-11	71
336	Detection of TTV in peripheral blood mononuclear cells of intravenous drug users. 1999 , 188, 47-54	6
335	A novel unenveloped DNA virus (TT virus) associated with acute and chronic non-A to G hepatitis. 1999 , 42, 196-204	51
334	TT virus infection among IVDUs in south western China. 1999 , 31, 21-5	12
333	Detection rates of TT virus DNA in serum of umbilical cord blood, breast milk and saliva. 2000 , 191, 203-7	32
332	Existence of TT virus DNA in extracellular body fluids from normal healthy Japanese subjects. 2000 , 43, 16-9	38
331	TT virus infection in Japanese children: isolates from genotype 1 are overrepresented in patients with hepatic dysfunction of unknown etiology. 2000 , 191, 233-9	16
330	Confirmation of mother-to-child transmission of TT virus. 2000 , 19, 255-6	3

329	The prevalence of TT virus infection in renal transplant recipients in Brazil. 2000 , 70, 1194-7	10
328	Prevalence and route of transmission of infection with a novel DNA virus (TTV), hepatitis C virus, and hepatitis G virus in patients infected with HIV. 2000 , 23, 89-94	19
327	Prevalence and Route of Transmission of Infection With a Novel DNA Virus (TTV), Hepatitis C Virus, and Hepatitis G Virus in Patients Infected With HIV. 2000 , 23, 89-94	23
326	Role of TTV in acute non-A-E hepatitis in Turkey. 2000 , 32, 447-8	1
325	Prevalence of TTV DNA among children with a history of transfusion or liver disease. 2000 , 60, 172-6	16
324	Clinical significance of TT virus infection in patients with chronic liver disease and volunteer blood donors in Egypt. 2000 , 60, 177-181	16
323	TT virus infection in patients with chronic hepatitis B or C: influence on clinical, histological and virological features. 2000 , 60, 387-92	22
322	Prevalence and risk factor analysis of TTV infection in prostitutes. 2000 , 60, 393-5	11
321	Experimental infection of nonenveloped DNA virus (TTV) in rhesus monkey. 2000 , 61, 159-64	21
320	Indirect evidence of TTV replication in bone marrow cells, but not in hepatocytes, of a subacute hepatitis/aplastic anemia patient. 2000 , 61, 165-170	35
319	High rate of TTV infection in multitransfused patients with pediatric malignancy and hematological disorders. 2000 , 65, 41-4	9
318	TT virus infection in human immunodeficiency virus type 1 infected mothers and their infants. 2000 , 61, 347-51	10
317	Detection of TT virus DNA in patients with liver disease and recipients of liver transplant. 2000 , 61, 455-61	24
316	Biliary excretion of TT virus (TTV). 2000 , 61, 462-7	15
315	Detection of TT virus sequences in children with liver disease of unknown etiology. 2000 , 62, 104-108	24
314	Prevalence and phylogenetic characterisation of TT-virus in the blood donor population of Auckland, New Zealand. 2000 , 62, 109-14	7
313	TT virus infection in patients with chronic liver disease of unknown etiology. 2000 , 62, 392-8	14
312	Seroepidemiology of TT virus, GBC-C/HGV, and hepatitis viruses B, C, and E among women in a rural area of Tanzania. 2000 , 62, 524-30	29

311	Higher prevalence and viral load of TT virus in saliva than in the corresponding serum: Another possible transmission route and replication site of TT virus. 2000 , 62, 531-537	52
310	Prevalence of the newly described human circovirus, TTV, in United States blood donors. 2000 , 40, 245-51	48
309	TT virus infections among blood donors in Iceland: prevalence, genotypes, and lack of relationship to serum ALT levels. 2000 , 40, 306-9	10
308	High prevalence of TT virus infection in French blood donors revealed by the use of three PCR systems. 2000 , 40, 590-5	41
307	Incidence and clinical presentation of posttransfusion TT virus infection in prospectively followed transfusion recipients: emphasis on its relevance to hepatitis. 2000 , 40, 596-601	16
