

CITATION REPORT

List of articles citing

The effects of ivermectin on onchocercal skin disease and severe itching: results of a multicentre trial

DOI: 10.1046/j.1365-3156.1998.00339.x

Tropical Medicine and International Health, 1998, 3, 951-61.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
