

CITATION REPORT

List of articles citing

Neuropeptide-mediated excitability: a key triggering mechanism for seizure generation in the developing brain

DOI: 10.1016/s0166-2236(98)01275-2
Trends in Neurosciences, 1998, 21, 471-6.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
195	The in vivo proconvulsant effects of corticotropin releasing hormone in the developing rat are independent of ionotropic glutamate receptor activation. 1998 , 111, 119-28		24
194	Differential regulation of the expression of corticotropin-releasing factor receptor type 2 (CRF2) in hypothalamus and amygdala of the immature rat by sensory input and food intake. 1999 , 19, 3982-91		92
193	Effects of blocking GABA degradation on corticotropin-releasing hormone gene expression in selected brain regions. 1999 , 40, 1190-7		16
192	Corticotropin-releasing factor antagonists, binding-protein and receptors: implications for central nervous system disorders. 1999 , 13, 541-54		15
191	Infantile spasms: hypothesis-driven therapy and pilot human infant experiments using corticotropin-releasing hormone receptor antagonists. 1999 , 21, 281-9		28
190	Chapter 2. Recent Progress in Corticotropin-Releasing Factor Receptor Agents. 1999 , 34, 11-20		10
189	Sublethal hypoxia up-regulates corticotropin releasing factor receptor type 1 in fetal hippocampal neurons. 2000 , 11, 3123-6		5
188	Immunocytochemical distribution of corticotropin-releasing hormone receptor type-1 (CRF(1))-like immunoreactivity in the mouse brain: light microscopy analysis using an antibody directed against the C-terminus. 2000 , 420, 305-23		182
187	Developmental seizures induced by common early-life insults: short- and long-term effects on seizure susceptibility. 2000 , 6, 253-7		55
186	Circadian rhythms: interactions with seizures and epilepsy. 2000 , 42, 43-55		86
185	Increased expression of gamma-aminobutyric acid transporter-1 in the forebrain of infant rats with corticotropin-releasing hormone-induced seizures but not in those with hyperthermia-induced seizures. 2000 , 42, 141-57		9
184	Activation of specific neuronal circuits by corticotropin releasing hormone as indicated by c-fos expression and glucose metabolism. 2000 , 20, 1414-24		22
183	Protein kinase A mediates the modulation of the slow Ca(2+)-dependent K(+) current, I(sAHP), by the neuropeptides CRF, VIP, and CGRP in hippocampal pyramidal neurons. 2000 , 83, 2071-9		100
182	Neuronal activity and stress differentially regulate hippocampal and hypothalamic corticotropin-releasing hormone expression in the immature rat. 2000 , 101, 571-80		44
181	Concomitant changes in CRH mRNA levels in rat hippocampus and hypothalamus following immobilization stress. 2000 , 75, 166-71		55
180	How do the many etiologies of West syndrome lead to excitability and seizures? The corticotropin releasing hormone excess hypothesis. 2001 , 23, 533-8		74
179	Novel and transient populations of corticotropin-releasing hormone-expressing neurons in developing hippocampus suggest unique functional roles: a quantitative spatiotemporal analysis. 2001 , 21, 7171-81		117

178	Maturational aspects of epilepsy mechanisms and consequences for the immature brain. 2001 , 42, 577-85	154
177	A leucine(7)-to-proline(7) polymorphism in the signal peptide of neuropeptide Y was not identified in the Japanese population. 2001 , 26, 201-3	21
176	Altered regulation of gene and protein expression of hypothalamic-pituitary-adrenal axis components in an immature rat model of chronic stress. 2001 , 13, 799-807	111
175	Chronic epilepsy with complex partial seizures is not always medically intractable—a long-term observational study. 2001 , 103, 219-225	1
174	Elevated corticotropin releasing hormone/corticotropin releasing hormone-R1 expression in postmortem brain obtained from children with generalized epilepsy. 2001 , 50, 404-9	24
173	Pure representational neglect after right thalamic lesion. 2001 , 50, 401-4	110
172	Ocular flutter associated with a localized lesion in the paramedian pontine reticular formation. 2001 , 50, 413-6	42
171	Early-onset multisystem mitochondrial disorder caused by a nonsense mutation in the mitochondrial DNA cytochrome C oxidase II gene. 2001 , 50, 409-13	45
170	Corticotropin (ACTH) acts directly on amygdala neurons to down-regulate corticotropin-releasing hormone gene expression. 2001 , 49, 304-312	104
169	Neurobiology of the stress response early in life: evolution of a concept and the role of corticotropin releasing hormone. 2001 , 6, 647-56	89
168	Chronic epilepsy with complex partial seizures is not always medically intractable - a long-term observational study. 2001 , 103, 219-225	11
167	Long-term, progressive hippocampal cell loss and dysfunction induced by early-life administration of corticotropin-releasing hormone reproduce the effects of early-life stress. 2001 , 98, 8856-61	195
