

CITATION REPORT

List of articles citing

Models and algorithms for road network design: a review and some new developments

DOI: 10.1080/01441649808717016
Transport Reviews, 1998, 18, 257-278.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
531	A capacity paradox in network design and how to avoid it. 1998 , 32, 539-545		27
530	Analysis of Demand for Road-Based Transport Facilities: A Bi-Level Programming Approach. 1999 , 1685, 73-80		8
529	A Combined Land-Use and Transportation Model for Work Trips. 2000 , 27, 93-103		10
528	Modeling the capacity and level of service of urban transportation networks. 2000 , 34, 255-275		111
527	Highway pricing and capacity choice in a road network under a build-operate-transfer scheme. 2000 , 34, 207-222		40
526	Genetic-Algorithms-Based Approach for Bilevel Programming Models. 2000 , 126, 115-120		205
525	An overview of nontraditional formulations of static and dynamic equilibrium network design. 2001 , 35, 5-21		19
524	An equivalent continuously differentiable model and a locally convergent algorithm for the continuous network design problem. 2001 , 35, 83-105		169
523	Stochastic Dynamic Network Design Problem. 2001 , 1771, 106-113		86
522	Travel Time Minimization Versus Reserve Capacity Maximization in the Network Design Problem. 2002 , 1783, 17-26		29
521	Optimal Improvement Scheme for Network Reliability. 2002 , 1783, 1-6		25
520	Dynamic Equilibrium Network Design. 2002 , 349-370		3
519	Benefit distribution and equity in road network design. 2002 , 36, 19-35		120
518	Capacity reliability of a road network: an assessment methodology and numerical results. 2002 , 36, 225-252		370
517	Multiobjective bilevel optimization for transportation planning and management problems. <i>Journal of Advanced Transportation</i> , 2002 , 36, 93-105	1.9	79
516	Growing Urban Roads. 2003 , 3, 69-85		39
515	A bi-level programming model for the land use network design problem. 2003 , 37, 93-105		29

514	Network design: selection and design of links and facility location. 2003 , 37, 241-256		29
513	Highway Investment Planning Model for Equity Issues. 2003 , 129, 161-176		13
512	Reliability Assessment on Searching Time for Parking in Urban Areas. 2003 , 61-78		1
511	Design and Analysis of Transport Networks. 2004 , 567-581		
510	A continuous equilibrium network design model and algorithm for transit systems. 2004 , 38, 235-250		97
509	Demand-Responsive Pricing Method for the Product Line of Taiwan High-Speed Rail. 2004 , 1863, 1-8		3
508	Stochastic Transportation Network Design Problem with Spatial Equity Constraint. 2004 , 1882, 97-104		80
507	Bilevel programming for the continuous transport network design problem. 2005 , 39, 361-383		121
506	Joint optimization for area traffic control and network flow. 2005 , 32, 2821-2841		14
505	A continuous network design model in stochastic user equilibrium based on sensitivity analysis. <i>Journal of Advanced Transportation</i> , 2005 , 39, 63-79	1.9	16
504	Special issue: Some recent advances in transportation modeling. <i>Journal of Advanced Transportation</i> , 2005 , 39, 241-245	1.9	6
503	A reliability-based network design problem. <i>Journal of Advanced Transportation</i> , 2005 , 39, 247-270	1.9	56
502	A GRASP and Path Relinking Heuristic for Rural Road Network Development. 2005 , 11, 89-108		30
501	Application of Ant System to network design problem. 2005 , 32, 251-273		80
500	Capacity Modeling in Transportation: A Multimodal Perspective. 2005 , 1906, 97-104		4
499	Comparison of System- and User-Optimal Stochastic Dynamic Network Design Models Using Monte Carlo Bounding Techniques. 2005 , 1923, 91-102		6
498	STRATEGIES FOR ROAD NETWORK DESIGN OVER TIME: ROBUSTNESS UNDER UNCERTAINTY. 2005 , 1, 47-63		46
497	Solution algorithm for the bi-level discrete network design problem. 2005 , 39, 479-495		193

496	Bi-level Programming Formulation and Heuristic Solution Approach for Dynamic Traffic Signal Optimization. 2006 , 21, 321-333	70
495	A bi-level model of the relationship between transport and residential location. 2006 , 40, 123-146	42
