

CITATION REPORT

List of articles citing

Synaptic modifications in cultured hippocampal neurons: dependence on spike timing, synaptic strength, and postsynaptic cell type

DOI: 10.1523/jneurosci.18-24-10464.1998
Journal of Neuroscience, 1998, 18, 10464-72.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 5 Combined effects of spike-timing-dependent plasticity and homeostatic structural plasticity on coherence resonance. **2023**, 107,
- 4 Neuronal avalanche dynamics regulated by spike-timing-dependent plasticity under different topologies and heterogeneities.
- 3 The FAPbI₃ perovskite memristor with a PMMA passivation layer as an artificial synapse. **2023**, 129,
- 2 STDP-based adaptive graph convolutional networks for automatic sleep staging. 17,
- 1 Spiking neural predictive coding for continually learning from data streams. **2023**, 544, 126292
