

CITATION REPORT

List of articles citing

Quantitative analysis of complex protein mixtures using isotope-coded affinity tags

DOI: 10.1038/13690

Nature Biotechnology, 1999, 17, 994-9.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

1805	Detection of tumor markers with ProteinChip technology. 2004 , 5, 45-67	101
1804	Genomic-scale analysis of bacterial gene and protein expression in the host. 2004 , 10, 1357-62	34
1803	Proteomic analyses using an accurate mass and time tag strategy. 2004 , 37, 621-4, 626-33, 636 passim	135

1802 Challenges in the Overall Analysis of Microbial Proteomes. **2004**, 2, 79-86

1801 A rational approach for discovering and validating cancer markers in very small samples using mass spectrometry and ELISA microarrays. **2004**, 20, 135-48 24

1800 Discovery of ovarian cancer biomarkers in serum using NanoLC electrospray ionization TOF and FT-ICR mass spectrometry. **2003**, 19, 239-49 52

1799 Mass spectrometric approaches for characterizing bacterial proteomes. **2004**, 1, 433-47 11

1798 New approaches towards integrated proteomic databases and depositories. **2004**, 1, 267-74 7

1797 Exploring the phosphoproteome with mass spectrometry. **2004**, 4, 313-24 30

1796 Proteomic approaches in drug discovery and development. **2004**, 61, 97-126 8

1795 Proteomics studies of traumatic brain injury. **2004**, 61, 215-40 24

1794 Protein microarray technology. **2004**, 1, 1-3 8

1793 Platelet transcriptome: the application of microarray analysis to platelets. **2004**, 30, 473-84 30

1792 Isotope-differentiated binding energy shift tags (IDBEST) for improved targeted biomarker discovery and validation. **2004**, 1, 421-31 21

1791 Proteomics: current techniques and potential applications to lung disease. **2004**, 287, L1-23 88

1790 Analyzing the platelet proteome. **2004**, 30, 485-9 32

1789 Principles of Molecular Oncology. **2004**, 6

1788 Methods for the differential integrative omic analysis of plasma from a transgenic disease animal model. **2004**, 8, 267-88 35

1787 Proteomics in the chicken: tools for understanding immune responses to avian diseases. **2004**, 83, 552-73 18

1786 Membrane protease proteomics: Isotope-coded affinity tag MS identification of undescribed MT1-matrix metalloproteinase substrates. **2004**, 101, 6917-22 245

1785 Electrophoretic Prefractionation for Comprehensive Analysis of Proteomes. **2004**, 93-118 9
