

Y-chromosome and mitochondrial DNA polymorphisms

Electrophoresis

20, 1743-1747

DOI: [10.1002/\(sici\)1522-2683\(19990101\)20:8<1743::aid-elps1743>3.0.co;2-v](https://doi.org/10.1002/(sici)1522-2683(19990101)20:8<1743::aid-elps1743>3.0.co;2-v)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Population structure and genetic differentiation among the substructured Vysya caste population in comparison to the other populations of Andhra Pradesh, India. <i>Annals of Human Biology</i> , 2002, 29, 538-549.	1.0	11
2	Genetic structure of south Indian caste populations: a confluence of biology and culture. , 2002, , 141-161.		0
3	Is the amelogenin gene reliable for gender identification in forensic casework and prenatal diagnosis?. <i>International Journal of Legal Medicine</i> , 2002, 116, 121-123.	2.2	132
4	Genetic Affinities of the Andaman Islanders, a Vanishing Human Population. <i>Current Biology</i> , 2003, 13, 86-93.	3.9	181
5	Sperm Mitochondrial Mutations as a Cause of Low Sperm Motility. <i>Journal of Andrology</i> , 2003, 24, 388-392.	2.0	79
6	The Genetic Heritage of the Earliest Settlers Persists Both in Indian Tribal and Caste Populations. <i>American Journal of Human Genetics</i> , 2003, 72, 313-332.	6.2	368
7	Microsatellite Diversity among Three Endogamous Tamil Populations Suggests Their Origin from a Separate Dravidian Genetic Pool. <i>Human Biology</i> , 2003, 75, 673-685.	0.2	5
8	Minimal Sharing of Y-Chromosome STR Haplotypes Among Five Endogamous Population Groups from Western and Southwestern India. <i>Human Biology</i> , 2004, 76, 743-763.	0.2	3
9	Interethnic comparisons of three endogamous groups of West Bengal with respect to two sets of variables. <i>International Journal of Anthropology</i> , 2004, 19, 193-211.	0.1	2
10	Most of the extant mtDNA boundaries in south and southwest Asia were likely shaped during the initial settlement of Eurasia by anatomically modern humans. <i>BMC Genetics</i> , 2004, 5, 26.	2.7	305
11	Use of ApoB3 hyper variable region in studying mixed chimerism and maternal contamination in North Indian populations. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2004, 11, 183-188.	0.8	4
12	The Indian Genome Variation database (IGVdb): a project overview. <i>Human Genetics</i> , 2005, 118, 1-11.	3.8	154
13	Genetic affinity among five different population groups in India reflecting a Y-chromosome gene flow. <i>Journal of Human Genetics</i> , 2005, 50, 49-51.	2.3	14
14	Diversity and Divergence Among the Tribal Populations of India. <i>Annals of Human Genetics</i> , 2005, 69, 680-692.	0.8	32
15	Polarity and Temporality of High-Resolution Y-Chromosome Distributions in India Identify Both Indigenous and Exogenous Expansions and Reveal Minor Genetic Influence of Central Asian Pastoralists. <i>American Journal of Human Genetics</i> , 2006, 78, 202-221.	6.2	360
16	Asian and non-Asian origins of Mon-Khmer- and Mundari-speaking Austro-Asiatic populations of India. <i>American Journal of Human Biology</i> , 2006, 18, 461-469.	1.6	24
17	SRY-negative 46,XX male with normal genitals, complete masculinization and infertility. <i>Molecular Human Reproduction</i> , 2006, 12, 341-346.	2.8	85
18	Microsatellite mutation in the maternally/paternally transmitted D18S51 locus: Two cases of allele mismatch in the child. <i>Clinica Chimica Acta</i> , 2007, 381, 171-175.	1.1	9
