

# CITATION REPORT

List of articles citing

**Toward evidence-based medical statistics. 1: The P value fallacy**

**DOI: 10.7326/0003-4819-130-12-199906150-00008**  
**Annals of Internal Medicine, 1999, 130, 995-1004.**

**Source:** <https://exaly.com/paper-pdf/30651286/citation-report.pdf>

**Version:** 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
807	The ethics of clinical trials. <b>2014</b> , 8, 387		40
806	Toward evidence-based statistics. <i>Annals of Internal Medicine</i> , <b>2000</b> , 132, 507; author reply 508	8	1
805	Toward evidence-based statistics. <i>Annals of Internal Medicine</i> , <b>2000</b> , 132, 507-8	8	1
804	Toward evidence-based statistics. <i>Annals of Internal Medicine</i> , <b>2000</b> , 132, 507; author reply 508	8	
803	QUOROM and the search for an updated 'clinical method' in the era of evidence-based medicine. <b>2000</b> , 11, 923-5		4
802	Bayesian communication: a clinically significant paradigm for electronic publication. <b>2000</b> , 7, 254-66		11
801	Oral antibiotics for febrile patients with neutropenia due to cancer chemotherapy. <b>2000</b> , 342, 55; author reply 56-8		0
800	[Evidence-based medicine: from concept to practice]. <b>2000</b> , 21, 21-3		0
799	Typhoid fever vaccines. <b>2000</b> , 18, 1433-4		7
798	[Demonstration of the facts and research of the causes in environmental epidemiology: methodological aspects]. <b>2000</b> , 323, 617-28		2
797	Debate sobre métodos frequentistas vs bayesianos. <b>2000</b> , 14, 482-494		5
796	Problems and possibilities in understanding the natural history of asthma. <b>2000</b> , 106, S144-52		12
795	On clinical trials in psychiatry. <b>2000</b> , 48, 433-5		1
794	The Abuse of Power. <b>2001</b> , 55, 19-24		1116
793	Sifting the evidence-what's wrong with significance tests?. <b>2001</b> , 322, 226-31		875
792	Problems and possibilities in understanding the natural history of asthma. <b>2001</b> , 47, 16-33		
791	A chance philosophical survey of the historical basis of statistical inference. <b>2001</b> , 2, 70-78		

790	Improving interpretation of clinical studies by use of confidence levels, clinical significance curves, and risk-benefit contours. <b>2001</b> , 357, 1349-53	101
789	[The Bayesian approach: another way of drawing inferences]. <b>2001</b> , 15, 341-6	9
788	Calibration of P-values for Testing Precise Null Hypotheses. <b>2001</b> , 55, 62-71	499
787	Low P-values or narrow confidence intervals: which are more durable?. <b>2001</b> , 12, 291-4	240
786	Of P-values and Bayes: a modest proposal. <b>2001</b> , 12, 295-7	101
785	Biostatistics and study design for evidence-based practice. <b>2001</b> , 12, 546-59	4
784	Examining diagnostic tests: an evidence-based perspective. <b>2001</b> , 81, 1546-64	167
783	Sifting the evidence-what's wrong with significance tests?. <b>2001</b> , 81, 1464-1469	109
782	Detection of nandrolone metabolites in urine after a football game in professional and amateur players: a Bayesian comparison. <b>2001</b> , 122, 130-5	23
781	Statistics for clinicians: 4: Basic concepts of statistical reasoning: hypothesis tests and the t-test. <b>2001</b> , 37, 72-7	21
780	Pregnancy and perinatal complications associated with risks for common psychiatric disorders in a population-based sample of female twins. <b>2001</b> , 105, 426-431	40
779	Ethical dilemmas in a randomized trial of asthma treatment: can Bayesian statistical analysis explain the results?. <b>2001</b> , 8, 1128-35	32
778	Do steroids reduce morbidity of tonsillectomy? Meta-analysis of randomized trials. <b>2001</b> , 111, 1712-8	73
777	Why alternative medicine cannot be evidence-based. <b>2001</b> , 76, 1213-20	62
776	Reflections on the beginnings and future of Medical Decision Making. <b>2001</b> , 21, 71-3	2
775	Outcomes in carotid endarterectomy performed by vascular surgeons or neurosurgeons. <b>2002</b> , 33, 1458; author reply 1458	1
774	Problems with current methods of data analysis and reporting, and suggestions for moving beyond incorrect ritual. <b>2002</b> , 9, 203-7	13
