Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
12	The role of size at birth and postnatal catch-up growth in determining systolic blood pressure: a systematic review of the literature. <i>Journal of Hypertension</i> , 2000 , 18, 815-31	1.9	786
11	Birth weight and blood pressure in young adults: a prospective twin study. <i>Circulation</i> , 2001 , 104, 1633-8	1.7	67
10	Is there a sex difference in the association between birth weight and systolic blood pressure in later life? Findings from a meta-regression analysis. <i>American Journal of Epidemiology</i> , 2002 , 156, 1100-4	3.8	58
9	Tracking of systolic blood pressure during childhood: a 15-year follow-up population-based family study in eastern Finland. <i>Journal of Hypertension</i> , 2002 , 20, 195-202	1.9	67
8	Publication bias and heterogeneity in the relationship between systolic blood pressure, birth weight, and catch-up growth--a meta analysis. <i>Journal of Hypertension</i> , 2003 , 21, 273-9	1.9	26
7	Why evidence for the fetal origins of adult disease might be a statistical artifact: the "reversal paradox" for the relation between birth weight and blood pressure in later life. <i>American Journal of Epidemiology</i> , 2005 , 161, 27-32	3.8	194
6	What is the effect of adjusting for more than one measure of current body size on the relation between birthweight and blood pressure?. <i>Journal of Human Hypertension</i> , 2006 , 20, 646-57	2.6	13
5	Body mass index throughout the life-course and blood pressure in mid-adult life: a birth cohort study. <i>Journal of Hypertension</i> , 2007 , 25, 1215-23	1.9	78
4	Simpson's Paradox, Lord's Paradox, and Suppression Effects are the same phenomenon--the reversal paradox. <i>Emerging Themes in Epidemiology</i> , 2008 , 5, 2	3.9	119
3	Re: "Assessing the possible direct effect of birth weight on childhood blood pressure: a sensitivity analysis". <i>American Journal of Epidemiology</i> , 2014 , 179, 1145-6	3.8	4
2	A life course approach to coronary heart disease and stroke. 2002 , 86-120		6
1	References. 2011 , 189-202
