

CITATION REPORT

List of articles citing

Convective injection and photochemical decay of peroxides in the tropical upper troposphere: Methyl iodide as a tracer of marine convection

DOI: 10.1029/98jdo1963

Journal of Geophysical Research, 1999, 104, 5717-5724.

Source: <https://exaly.com/paper-pdf/30855607/citation-report.pdf>

Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
