**Version:** 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 18 Feasibility of using YouTube Conversations for Pair Programming Intent Classification. **2022**,
- 17 Evaluating Gender Bias in Pair Programming Conversations with an Agent. **2022**,
- 16 A code-mixed task-oriented dialog dataset for medical domain. **2023**, 78, 101449 ○
- 15 Investigating the relationships between dialog patterns and user satisfaction in customer service chat systems based on chat log analysis. 016555152211240 ○
- 14 REBench: Microbenchmarking Framework for Relation Extraction Systems. **2022**, 643-659 ○
- 13 Understanding Dialogue for Human Communication. **2022**, 1159-1201 ○
- 12 Pair programming conversations with agents vs. developers: challenges and opportunities for SE community. **2022**, ○
- 11 Spontaneous, controlled acts of reference between friends and strangers. ○
- 10 Four-in-One: a Joint Approach to Inverse Text Normalization, Punctuation, Capitalization, and Disfluency for Automatic Speech Recognition. **2023**, ○
- 9 A Study on the Integration of Pre-Trained SSL, ASR, LM and SLU Models for Spoken Language Understanding. **2023**, ○
- 8 Dialogue Management and Language Generation for a Robust Conversational Virtual Coach: Validation and User Study. **2023**, 23, 1423 1
- 7 An Experimental Study on Private Aggregation of Teacher Ensemble Learning for End-to-End Speech Recognition. **2023**, ○
- 6 Knowledge Infused Representations Through Combination of Expert Knowledge and Original Input. **2022**, 3-15 ○
- 5 Multistage linguistic conditioning of convolutional layers for speech emotion recognition. 5, ○
- 4 Conversational QA over Knowledge Bases. **2023**, 105-143 ○
- 3 Multimodal Job Interview Simulator for Training of Autistic Individuals. ○

2 Summarization of Elicitation Conversations to Locate Requirements-Relevant Information. **2023**, 122-139 1
