Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
402	R&D project selection using ANP...the analytic network process. **2002**, 21, 22-28		15
401	R&D project selection using the analytic network process. **2002**, 49, 59-66		303
400	An expert system for multiobjective decision making: application of fuzzy linguistic preferences and goal programming. **2002**, 127, 209-220		26
399	A decision model for information system project selection.		5
398	Product planning in quality function deployment using a combined analytic network process and goal programming approach. **2003**, 44, 171-190		316
397	Goal Programming in the Period 1990–2000. **2003**, 129-170		8
396	STUDY ON THE ALLOCATION OF R&D INVESTMENT: METHOD OF EVALUATING AND SELECTING R&D PROJECTS FOR INVESTMENT. **2004**, 01, 55-74		7
395	Decision consolidation: criteria weight determination using multiple preference formats. **2004**, 38, 247-258		82
394	A fuzzy decision support system for strategic portfolio management. **2004**, 38, 383-398		96
393	Determining the importance weights for the design requirements in the house of quality using the fuzzy analytic network approach. **2004**, 19, 443-461		120
392	A model for selecting a CIFMS design method. **2005**, 16, 497-515		8
391	Analytic network process (ANP) approach for product mix planning in semiconductor fabricator. **2005**, 96, 15-36		246
390	An AHP-based approach to ERP system selection. **2005**, 96, 47-62		331
389	Multidimensional data in multidimensional scaling using the analytic network process. **2005**, 26, 755-767		172
388	Applying the fuzzy-weighted-average approach to evaluate network security systems. **2005**, 49, 1797-1814		33
387	Group decision making to better respond customer needs in software development. **2005**, 48, 427-441		55
386	Evaluating high-tech alternatives by using analytic network process with BOCR and multiactors. **2005**, 28, 391-399		62

385	A goal-seeking approach to capital budgeting. **2005**, 39, 165-182	14
384	Product Mix Optimization for Semiconductor Manufacturing Based on AHP and ANP Analysis. **2005**, 25, 1144-1156	66
383	A fuzzy ANP-based approach to R&D project selection: A case study. **2005**, 43, 5199-5216	184
382	Investment projects evaluation by simulation and multiple criteria decision aiding procedure. **2005**, 11, 193-202	30
381	Development of a balanced scorecard. **2006**, 56, 25-59	135
380	A Concurrent SMART2 Evaluation Model for Decision-making in New Product Development. **2006**,	1
379	·	
378	Use of analytic network process in vendor selection decisions. **2006**, 13, 566-579	135
377	Manufacturing Execution Systems (MES) assessment and investment decision study. **2006**,	5
376	Scenario Deployment Of The Analytic Hierarchy Process For The Radwaste Repository Site Selection In Taiwan. **2006**,	1
375	Information technology and systems justification: A review for research and applications. **2006**, 173, 957-983	157
374	A decision model for selecting slightly non-homogeneous technologies. **2006**, 177, 149-158	6
373	A soft computing method for multi-criteria decision making with dependence and feedback. **2006**, 180, 63-75	134
372	A decision model for technology selection in the existence of both cardinal and ordinal data. **2006**, 181, 1600-1608	16
371	A decision model for selecting technology suppliers in the presence of nondiscretionary factors. **2006**, 181, 1609-1615	32
370	An algorithm for ranking technology suppliers in the presence of nondiscretionary factors. **2006**, 181, 1616-1623	5
369	A fuzzy optimization model for QFD planning process using analytic network approach. **2006**, 171, 390-411	465
368	A framework for group decision support systems: An application in the evaluation of information technology for logistics firms. **2006**, 101, 159-171	45

367	A combined goal programming–AHP approach to maintenance selection problem. **2006**, 91, 839-848	156
366	Evaluation of alternative fuels for residential heating in Turkey using analytic network process (ANP) with group decision-making. **2006**, 10, 269-279	102
365	ANP-GP approach for product variety design. **2006**, 29, 216-225	18
364	Modeling the metrics of lean, agile and leagile supply chain: An ANP-based approach. **2006**, 173, 211-225	478
363	A strategic model for safety during the Hajj pilgrimage: An ANP application. **2006**, 15, 201-216	9
362	A fuzzy-QFD approach to supplier selection. **2006**, 12, 14-27	250
361	A multiple-criteria decision-making approach for the evaluation of retail location. **2006**, 14, 67-76	20
360	A Generalized Fuzzy Optimization Framework for R&D Project Selection Using Real Options Valuation. **2006**, 918-927	8
359	A Constrained Fuzzy Arithmetic Method for the Fuzzy Analytic Network Process. **2007**,	3
358	The New Technology Evaluation Based on Rough-Set Theory. **2007**,	0
357	An analytic network process-based approach to concept evaluation in a new product development environment. **2007**, 18, 209-226	69
356	Information and Communication Technology Project Selection Based on Fuzzy Agent. **2007**,	0
355	Rapid tooling route selection for metal casting using QFD–ANP methodology. **2007**, 20, 338-354	28
354	. **2007**,	9
353	An intelligent approach to ERP software selection through fuzzy ANP. **2007**, 45, 2169-2194	121
352	A systematic methodology for quality control in the product development process. **2007**, 45, 1561-1576	13
351	. **2007**,	4
350	Evaluating e-learning web site quality in a fuzzy environment. **2007**, 22, 567-586	47

349	Using the analytic network process (ANP) in a SWOT analysis A case study for a textile firm. **2007**, 177, 3364-3382	337
348	An analytical network process-based framework for successful total quality management (TQM): An assessment of Turkish manufacturing industry readiness. **2007**, 105, 79-96	129
347	Group decision-making based on concepts of ideal and anti-ideal points in a fuzzy environment. **2007**, 45, 324-339	108
346	Using ANP priorities with goal programming in resource allocation in transportation. **2007**, 46, 985-1000	83
345	A model for selecting an ERP system based on linguistic information processing. **2007**, 32, 1005-1017	134
344	Analytic network process in supplier selection: A case study in an electronic firm. **2007**, 31, 2475-2486	322
343	Fuzzy group decision-making to multiple preference formats in quality function deployment. **2007**, 58, 392-402	88
342	ANP application for evaluating Turkish mobile communication operators. **2008**, 42, 313-324	6
341	Multi-criteria decision making for the selection of CAD/CAM system. **2008**, 2, 151-159	17
340	Priority determination in strategic energy policies in Turkey using analytic network process (ANP) with group decision making. **2008**, 32, 1047-1057	24
339	Evaluation of software development projects using a fuzzy multi-criteria decision approach. **2008**, 77, 464-475	93
338	An analytic network process approach for locating undesirable facilities: an example from Istanbul, Turkey. **2008**, 88, 970-83	98
337	The study of applying ANP model to assess dispatching rules for wafer fabrication. **2008**, 34, 2148-2163	56
336	Enterprise information system project selection with regard to BOCR. **2008**, 26, 810-820	74
335	Integrating public demands into model-based design for multifunctional agriculture: An application to intensive Dutch dairy landscapes. **2008**, 67, 538-551	41
334	Using a strategic approach to analysis the location selection for high-tech firms in Taiwan. **2008**, 31, 228-244	12
333	Combining entropy weight and TOPSIS method for information system selection. **2008**,	12
332	Application of the Analytic Network Process (ANP) in a framework of ERP systems implementation success. **2008**,	1

331	Strategic analysis of mass customization strategies in product development. **2008**,	
330	Asset information management: research challenges. **2008**,	9
329	An integrated group decision-making approach for new product development. **2008**, 21, 366-375	23
328	Applying ANP approach to partner selection for strategic alliance. **2008**, 46, 449-465	79
327	Fuzzy TOPSIS Algorithm for Multiple Criteria Decision Making with an Application in Information Systems Project Selection. **2008**,	4
326	Selection of a reverse logistics project for end-of-life computers: ANP and goal programing approach. **2008**, 46, 4849-4870	47
325	Combining entropy weight and TOPSIS method For information system selection. **2008**,	3
324	An ANP Model for Service Policy Decision in SCM. **2008**,	1
323	An improved analytic network process based on fuzzy decision maps. **2008**,	
322	Analytic network process-based model for selecting an optimal product design solution with zero□one goal programming. **2008**, 19, 15-44	24
321	Selecting an Advertising Agency: A Multi-Criteria Decision Making Approach. **2008**, 12, 13-22	3
320	Interdependent Urban Renewal Project Selection under the Consideration of Resource Constraints. **2008**, 35, 122-147	16
319	Performance evaluation model of property-liability insurance companies in Taiwan □application of analysis network process. **2008**, 29, 1045-1065	1
318	Developing Supply Chain Management System Evaluation Attributes Based on the Supply Chain Strategy. **2008**,	1
317	Analytic Network Process Decision-Making to Assess Collaborative Design Systems Organizational Performance. **2009**,	
316	Justifying the Decisions for EAI Adoption in LGAs: A Validated Proposition of Factors, Adoption Lifecycle Phases, Mapping and Prioritisation of Factors. **2009**,	
315	A model for decision support in business-driven IT service portfolio management using SLA-dependent criteria and under uncertainty. **2009**,	4
314	System of Systems Collaborative Formation. **2009**, 3, 360-368	34

313	Goal Programming: realistic targets for the near future. **2009**, 16, 79-110	31
312	Analytic network process decision-making to assess slicing machine in terms of precision and control wafer quality. **2009**, 25, 641-650	16
311	A fuzzy multi-criteria decision making approach for solving a bi-objective personnel assignment problem. **2009**, 56, 1-10	42
310	A hybrid approach to concept selection through fuzzy analytic network process. **2009**, 56, 368-379	132
309	Research on using ANP to establish a performance assessment model for business intelligence systems. **2009**, 36, 4135-4146	70
308	Using ANP priorities with goal programming for revitalization strategies in historic transport: A case study of the Alishan Forest Railway. **2009**, 36, 8682-8690	50
307	Clean Agent Selection Approached by Fuzzy TOPSIS Decision-Making Method. **2009**, 45, 405-418	31
306	A general fuzzy TOPSIS model in multiple criteria decision making. **2009**, 45, 406-420	21
305	An ERP software selection process with using artificial neural network based on analytic network process approach. **2009**, 36, 9214-9222	95
304	Selection of technology acquisition mode using the analytic network process. **2009**, 49, 1274-1282	60
303	An ANP-based technology network for identification of core technologies: A case of telecommunication technologies. **2009**, 36, 894-908	105
302	Computer-based systematic execution model on human resources management in maritime transportation industry: The case of master selection for embarking on board merchant ships. **2009** , 36, 1048-1060	23
301	Selecting management systems for sustainable development in SMEs: A novel hybrid model based on DEMATEL, ANP, and ZOGP. **2009**, 36, 1444-1458	259
300	A fuzzy ANP approach to shipyard location selection. **2009**, 36, 7992-7999	83
299	Selection of ERP suppliers using AHP tools in the clothing industry. **2009**, 21, 239-251	19
298	The sustainability balanced scorecard as a framework for selecting socially responsible investment: an effective MCDM model. **2009**, 60, 1396-1410	125
297	Risk assessment of international construction projects using the analytic network process. **2009**, 36, 1170-1181	63
296	Analyzing Alternatives in Collaborative Technology of Software Contractor by Analytic Network Process. **2009**,	

295	Analytic network process applied to R&D project selection. **2009**,		6
294	Using ANP priorities with goal programming in optimally allocating marketing resources. **2010**, 10, 346-365		10
293	A novel hybrid MCDM approach for outsourcing vendor selection: A case study for a semiconductor company in Taiwan. **2010**, 37, 4796-4804		76
292	Decision-making on prioritization of projects in higher education institutions using the analytic network process approach. **2010**, 18, 341-364		14
291	A hybrid multi-criteria decision-making model for personnel selection in manufacturing systems. **2010**, 21, 451-460		59
290	Fuzzy multi-linguistic preferences model of service innovations at wholesale service delivery. **2010**, 44, 217-237		6
289	Analytic network process for criteria selection in sustainable coastal land use planning. **2010**, 53, 544-551		24
288	Rolling stock maintenance strategy selection, spares parts estimation, and replacements interval calculation. **2010**, 128, 404-412		43
287	A fuzzy analytic network process (ANP) model for measurement of the sectoral competititon level (SCL). **2010**, 37, 1005-1014		88
286	An effective evaluation model and improvement analysis for national park websites: A case study of Taiwan. **2010**, 31, 936-952		106
285	Personnel selection using analytic network process and fuzzy data envelopment analysis approaches. **2010**, 59, 937-944		74
284	Solving a comprehensive model for multiobjective project portfolio selection. *Computers and Operations Research*, **2010**, 37, 630-639	4.6	120
283	A fuzzy robust evaluation model for selecting and ranking NPD projects using Bayesian belief network and weight-restricted DEA. **2010**, 37, 7408-7418		50
282	Outsourcing reverse logistics of high-tech manufacturing firms by using a systematic decision-making approach: TFT-LCD sector in Taiwan. **2010**, 39, 1111-1119		70
281	An integrated Fuzzy-ANP model for value investing. **2010**,		2
280	A framework to support investment decisions using multi-criteria and under uncertainty in IT service portfolio management. **2010**,		1
279	Addressing R&D investment decisions: a cross analysis of R&D project selection methods. **2010**, 13, 355-379		32
278	Infrastructure Location: The Changing Modelling Frameworks. **2010**, 2, 71-90		3

277	A methodology for selecting a green technology portfolio based on synergy. **2010**, 48, 7289-7302	30
276	The effect of economic and organizational capability in the information system project selection. **2010**,	
275	Motives of transfer pricing strategies ystemic analysis. **2010**, 110, 1215-1233	9
274	A new method based on incomplete fuzzy preference relation for multi-objective decision-making. **2010**,	
273	A Multi-Criteria Evaluation of Factors Affecting Internet Banking in Turkey. **2010**, 235-246	6
272	Study on third-party logistics service provider selection evaluation indices system based on analytic network process with BOCR. **2010**,	1
271	Multiple Criteria Decision Making for Sustainable Energy and Transportation Systems. **2010**,	7
270	Project risk identification and analysis based on group decision making methodology in a fuzzy environment. **2010**, 5, 108-118	14
269	A Fuzzy MCDM Approach to Evaluate Green Suppliers. **2011**, 4, 894-909	30
268	An IT Project selection method based on fuzzy analytic network process. **2011**,	0
267	Extending the DEMATEL Method for Group Decision Making in Fuzzy Environments. **2011**, 271-286	
266	. **2011**, 8, 259-273	5
265	An intelligent approach to machine tool selection through fuzzy analytic network process. **2011**, 22, 163-177	53
264	An integrated MCDM technique combined with DEMATEL for a novel cluster-weighted with ANP method. **2011**, 38, 1417-1424	209
263	A hybrid ANP model in fuzzy environments for strategic alliance partner selection in the airline industry. **2011**, 11, 3515-3524	59
262	Using analytic network process to analyze problems for implementing turn-key construction projects in Taiwan. **2011**, 18, 558-567	3
261	Entrepreneurship policy evaluation and decision analysis for SMEs. **2011**, 38, 8343-8351	28
260	An approach for manufacturing strategy development based on fuzzy-QFD. **2011**, 60, 445-454	57

259	Enhancing Sustainable Community Developments A Multi-criteria Evaluation Model for Energy Efficient Project Selection. **2011**, 5, 135-144	22
258	A simple method to improve the consistency ratio of the pair-wise comparison matrix in ANP. **2011**, 213, 246-259	162
257	A combined approach for equipment selection: F-PROMETHEE method and zero□one goal programming. **2011**, 38, 11641-11650	76
256	Designing a sustainable supply chain using an integrated analytic network process and goal programming approach in quality function deployment. **2011**,	16
255	Designing a model of FANP in brand image decision-making. **2011**, 11, 561-573	33
254	THE FUZZY EVALUATION OF THE ICT PROJECTS IN STRATEGIC ENVIRONMENT (CASE STUDY: IRAN TELECOMMUNICATION RESEARCH CENTER). **2011**, 10, 873-890	6
253	An integrated approach to the optimal selection of security tools using analytic hierarchy process and goal programming. **2011**, 54, 229	3
252	Fuzzy Multi-Criteria Evaluation of Knowledge Management Tools. **2011**, 4, 184-195	9
251	IT/IS project selection: A grey multi-criteria decision model approach. **2011**,	1
250	A selection model for auditing software. **2011**, 111, 776-790	13
249	0-1 Mixed Integer Programming for a Newly Merged Metropolis to Develop MSW Management Systems. **2012**,	
248	Improving Competitiveness of Small- and Medium-Sized Enterprises (SMEs) in Agriproduct Export Business Through ANP: The Turkey Case. **2012**, 29, n/a-n/a	1
247	Information security management model based on AHP. **2012**,	
246	Optimization of strategic management model for large systems using quality function deployment through goal programming. **2012**, 33, 187-199	
245	A fuzzy ANP model for supplier selection as applied to IC packaging. **2012**, 23, 1477-1488	66
244	Soft computing based on interval valued fuzzy ANP-A novel methodology. **2012**, 23, 1529-1544	19
243	A Prediction of Terrorist Distribution Range Radius and Elapsing Time: A Case Study in Southern Parts of Thailand. **2012**,	1
242	Reducing handover metrics for access network selection in heterogeneous wireless networks. **2012** ,	3

241	INTEGRATED ASSESSMENT OF COMPETITIVE-STRATEGY SELECTION WITH AN ANALYTICAL NETWORK PROCESS. **2012**, 13, 801-831	9
240	One improved method of choose knowledge management system. **2012**,	
239	The best vendor selection for conducting the recycled material based on a hybrid MCDM model combining DANP with VIKOR. **2012**, 66, 95-111	151
238	Supplier ranking by multi-alternative proposal analysis for agile projects. **2012**, 30, 723-730	9
237	The interactive trade decision-making research: An application case of novel hybrid MCDM model. **2012**, 29, 926-935	19
236	New multi access selection method using differentiated weight of access interface. **2012**,	5
235	A survey and comparison study on weighting algorithms for access network selection. **2012**,	6
234	Towards an Efficient Network Selection Technique Based on Differentiated Weight of Access Interface. **2012**, 8, 32-48	6
