Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

2235 Left-handed extraordinary optical transmission through a photonic crystal of subwavelength hole arrays. **2006**, 14, 5445

2234 Left-handed extraordinary optical transmission through a photonic crystal of subwavelength hole arrays. **2006**, 14, 5445

2233 Left-handed extraordinary optical transmission through a photonic crystal of subwavelength hole arrays. **2006**, 14, 5445

2232 Polarized left-handed extraordinary optical transmission of subterahertz waves. **2007**, 15, 8125

2231 Negative refraction in a prism made of stacked subwavelength hole arrays. **2008**, 16, 560

2230 Negative refraction in a prism made of stacked subwavelength hole arrays. **2008**, 16, 560

2229 Negative refraction in a prism made of stacked subwavelength hole arrays. **2008**, 16, 560

2228 Terahertz near-field imaging of electric and magnetic resonances of a planar metamaterial. **2009**, 17, 3826

2227 Terahertz near-field imaging of electric and magnetic resonances of a planar metamaterial. **2009**, 17, 3826

2226 Terahertz near-field imaging of electric and magnetic resonances of a planar metamaterial. **2009**, 17, 3826

2225 Terahertz near-field imaging of electric and magnetic resonances of a planar metamaterial. **2009**, 17, 3826

2224 Broadband exterior cloaking. **2009**, 17, 14800

2223 An anisotropic negative refractive index medium operated at multiple-angle incidences. **2009**, 17, 24189

2222 An anisotropic negative refractive index medium operated at multiple-angle incidences. **2009**, 17, 24189

2221 Full vectorial imaging of electromagnetic light at subwavelength scale. **2010**, 18, 5809

2220 Full vectorial imaging of electromagnetic light at subwavelength scale. **2010**, 18, 5809

2219 Full vectorial imaging of electromagnetic light at subwavelength scale. **2010**, 18, 5809

2218 Perfect focusing of scalar wave fields in three dimensions. **2010**, 18, 7650

2217 Surface integral equation formulation for the analysis of left-handed metamaterials. **2010**, 18, 15876

2216 Cylinder light concentrator and absorber: theoretical description. **2010**, 18, 16646

2215 Fabrication of three dimensional split ring resonators by stress-driven assembly method. **2012**, 20, 9415

2214 Terahertz spectroscopy of the reactive and radiative near-field zones of split ring resonator. **2012**, 20, 19395

2213 Terahertz spectroscopy of the reactive and radiative near-field zones of split ring resonator. **2012**, 20, 19395

2212 Terahertz spectroscopy of the reactive and radiative near-field zones of split ring resonator. **2012**, 20, 19395

2211 Terahertz spectroscopy of the reactive and radiative near-field zones of split ring resonator. **2012**, 20, 19395

2210 Homogenization of three-dimensional metamaterial objects and validation by a fast surface-integral equation solver. **2013**, 21, 21714

2209 Homogenization of three-dimensional metamaterial objects and validation by a fast surface-integral equation solver. **2013**, 21, 21714

2208 Homogenization of three-dimensional metamaterial objects and validation by a fast surface-integral equation solver. **2013**, 21, 21714

2207 Homogenization of three-dimensional metamaterial objects and validation by a fast surface-integral equation solver. **2013**, 21, 21714

2206 An efficient plate heater with uniform surface temperature engineered with effective thermal materials. **2014**, 22, 17006

2205 An efficient plate heater with uniform surface temperature engineered with effective thermal materials. **2014**, 22, 17006

2204 THz band-stop filter using metamaterials surfaced on LiNbO₃ sub-wavelength slab waveguide. **2015**, 23, 16042

2203 Rotationally reconfigurable metamaterials based on moiré phenomenon. **2015**, 23, 17443

2202 Negative refraction in molybdenum disulfide. **2015**, 23, 22024

2201 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081

2200 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081

2199 Three-dimensional photonic crystal flat lens by full 3D negative refraction. **2005**, 13, 5592

2198 Three-dimensional photonic crystal flat lens by full 3D negative refraction. **2005**, 13, 5592

2197 Waveguiding, collimation and subwavelength concentration in photonic crystals. **2005**, 13, 7997

2196 2D metamaterials with hexagonal structure: spatial resonances and near field imaging. **2005**, 13, 9299

2195 2D metamaterials with hexagonal structure: spatial resonances and near field imaging. **2005**, 13, 9299

2194 Pulsed and CW Gaussian beam interactions with double negative metamaterial slabs. **2003**, 11, 662

2193 Experimental and theoretical verification of focusing in a large, periodically loaded transmission line negative refractive index metamaterial. **2003**, 11, 696

2192 Left-handed extraordinary optical transmission through a photonic crystal of subwavelength hole arrays. **2006**, 14, 5445

2191 Subdiffraction focusing of scanning beams by a negative-refraction layer combined with a nonlinear layer. **2006**, 14, 11194

2190 Probing negative refractive index of metamaterials by terahertz time-domain spectroscopy. **2008**, 16, 1354

2189 Imaging with parallel ray-rotation sheets. **2008**, 16, 20826

2188 Broadband exterior cloaking. **2009**, 17, 14800

2187 Homogenization of three-dimensional metamaterial objects and validation by a fast surface-integral equation solver. **2013**, 21, 21714

2186 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081

2185 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081

2184 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081

2183 Transmission study of prisms and slabs of lossy negative index media. **2004**, 12, 2081
