Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

24 Prehospital interventions and neurological outcomes in marathon-related sudden cardiac arrest using a rapid mobile automated external defibrillator system in Japan: a prospective observational study.. *British Journal of Sports Medicine*, **2022**, 10,3 0

23 Functionality of Registered Automated External Defibrillators. *Resuscitation*, **2022**, 4 0

22 Improving community-based first response to out of hospital cardiac arrest (FirstCPR): protocol for a cluster randomised controlled trial. *BMJ Open*, **2022**, 12, e057175 3 0

21 Importance of Analyzing Intervals to Emergency Medical Service Treatments. 1-7

20 Firefighters as first-responders in out-of-hospital cardiac arrest - a retrospective study of a time-gain selective dispatch system in the Skåne Region, Sweden. **2022**, 1 0

19 The first case series analysis on efficacy of esmolol injection for in-hospital cardiac arrest patients with refractory shockable rhythms in China. 13, 0

18 Are first responders first? The rally to the suspected out-of-hospital cardiac arrest. **2022**, 180, 70-77 1 0

17 In-hospital cardiac arrest rhythm analysis by anesthesiologists: a diagnostic performance study. 0

16 Esmolol, vector change, and dose-capped epinephrine for prehospital ventricular fibrillation or pulseless ventricular tachycardia. **2022**, 0

15 Increased bystander intervention when volunteer responders attend out-of-hospital cardiac arrest. 9, 0

14 Effect of Smartphone Dispatch of Volunteer Responders on Automated External Defibrillators and Out-of-Hospital Cardiac Arrests. 1 0

13 Factors affecting public access defibrillator placement decisions in the United Kingdom: A survey study. **2023**, 13, 100348 0

12 Generating reports for human factors design validation results for external cardiac defibrillators. **2014**, 0

11 Digitalized Cross-Sector Collaboration for an Effective Emergency Response: Emerging Forms of Network Governance. **2023**, 269-305 0

10 Pre-Arrival Care of the Out-of-Hospital Cardiac Arrest Victim. **2023**, 0

9 Optimal pre-dispatch task assignment of volunteers in daily emergency response. **2023**, 101589 0

8 A retrospective review of out of hospital cardiac arrest at Gillette Stadium: 10 years of experience at a large sports venue. **2023**, 14, 100386 0

- 7 Adaptive Recursive Least Squares Denoising in Ventricular Fibrillation ECG Signals. 2200035 ○
- 6 Association Between Number of Volunteer Responders and Interventions Before Ambulance Arrival for Cardiac Arrest. **2023**, 81, 668-680 ○
- 5 Defibrillazioni semiautomatica e completamente automatica esterne. **2023**, 27, 1-12 ○
- 4 Digit preference and biased conclusions in cardiac arrest studies. **2023**, 69, 114-120 ○
- 3 Identification of priority areas for public-access automated external defibrillators (AEDs) in metropolitan areas: A case study in Hangzhou, China. **2023**, 154, 102922 ○
- 2 Cardiopulmonary Resuscitation. **2017**, 1236-1281.e10 ○
- 1 Cardiac Emergency in the Athlete. **2023**, ○
